

THE **GOLFWORKS**®

Instructions For:

Graphite Shaft Butt Extensions

Code: **WBE60**

These exceptionally strong Maple Butt Extensions weigh less than 12 grams each.

Club length may be extended a maximum of 2", which allows flexibility for customizing purposes.

.600 is the only diameter available. To fit a shaft with a smaller diameter, it is necessary to turn down the section that fits into the shaft. A file and sandpaper will work nicely for this purpose. When the desired diameter is reached, epoxy the extension into the shaft. Trim the assembled club to length from the butt.
