RETURN AND EXCHANGE POLICY

RETURNS: In order to return an item you purchased, a RA (Return Authorization) is required. Please contact the customer service representative at 1-800-848-8358 to obtain. The number on the receipt is the order number required to obtain a return label from us and the best way to contact you. We will provide instructions on how to send your return. Return shipping labels will only be issued due to an error by The GolFWorks on an order or a defective item. Any refund will be issued to the original method of payment or the account that was used to purchase the merchandise. All return shipping charges must be prepaid (CCO’s are not accepted). Please contact us prior to returning any products for warranty, 45-day satisfaction guarantee or defective consideration, items approved for return that are beyond the 45-day guarantee are subject to a 15% restocking fee.

SHORTAGES OR DAMAGED GOODS: If an item arrives damaged, save the shipping carton and call the office that shipped the goods (U.S. or Canada) or email us at golfworks@golfworks.com. We will replace the appropriate item, and a note will be issued and refunds will be processed, subject to warranty limitations.

DISCLAIMER: We bring you the best prices we can, so tech specs, often are subject to change without notice. We cannot accept liability for printing or editing errors, incorrect specifications, or grammatical inaccuracies. The GolFWorks shall be held in no way responsible for the improper use of the merchandise purchased. The customer is urged to exercise caution, take all necessary safety measures, including the use of safety equipment and the appropriate training forms can be printed from our website: www.golfworks.com

TOLL FREE 1-800-848-8358

www.golfworks.com OPEN 24/7
GREAT PLAYABILITY IN THE FLORIDA HUMIDITY.
- JOHN L.

SUPER TACKY, GREAT FEELING, AND TORSION TWIST IS NON EXISTENT! GREAT PRODUCT.
- DAVE T.

MORE DURABLE THAN MY OTHER GRIPS!
- PETE B.

SPYNE™ TECHNOLOGY | REPEAT HAND POSITIONING
Advanced Spyne™ Technology is specifically engineered to aid in repeatable hand positioning. Repeatable hand placement leads to greater consistency in squaring the putter face at time of impact during the swing.

TRAXION™ CONTROL | ENHANCED FEEDBACK ZONES
Building on the superior feel and playability of the original SuperStroke CrossComfort, the new Traxion™ offers an advanced surface texture design for enhanced feedback. The strategically designed Traxion™ zones on the tacky polyurethane outer layer offer an amazing feel.

TAPER CONTROL TECHNOLOGY | MINIMIZE GRIP PRESSURE
Taper Control Technology is engineered to create a larger lower hand profile by reducing the taper to minimize grip pressure. Lighter grip pressure increases clubhead speed for greater distance and promotes a square face at impact maximizing swing efficiency.

TORSIONAL PERFORMANCE | EXCEPTIONAL PLAYABILITY
The new TRAXION™ Tour features a tacky polyurethane outer layer with a firm rubber inner layer that is engineered to maximize torsional performance for enhanced feedback and overall control.

www.golfworks.com OPEN 24/7
TRAXION TOUR

NEW!

■ FEATURES
- Traxion™ material improves feedback and tack by placing "X-shaped" treads in high sensory areas of the hands
- Spyne Technology™ guides golfers to repeatable hand placement, making it easier to square the face at impact
- Taper control creates a larger lower hand profile by reducing the taper to minimize grip pressure for increased clubhead speed
- Tacky polyurethane outer layer with firm rubber inner layer to maximize torsional performance

Case quantity — 150
Kits available — see pages 23 & 39

FEATURES

Perfect for players seeking a grip that provides excellent all-around performance, a soft feel and all-weather playability

Infused cord in the upper zone blends with Lamkin’s new Smooth Tack (ST) Genesis Material to give the anchoring hand first class traction regardless of weather conditions

Hybrid lower section capitalizes on a smoother, tackier treatment accentuated by the “Plus 2” design profile (reduced taper) to provide guiding hand comfort with tactile feel

Case quantity – 50  Kits available – see pages 23 & 39

<td></td>
</tr>
</tbody>
</table>

**FEATURES**

Calibrate Technology delivers a more pronounced and conforming reminder grip, providing optimal hand placement, club face awareness and control.

Fingerprint Technology adds a consistent micro-texture surface pattern that offers slip-resistant control and omni-directional grip traction, and Genesis Material provides soft yet solid feel and maintains tackiness.

Case quantity – 50  Kits available – see pages 23 & 39

SONAR WRAP CALIBRATE  NEW!

<td>Blk/Lime .600”(Rib)</td>
<td>53g</td>
<td>Standard Plus</td>
<td>$8.69</td>
<td>$8.49</td>
<td></td>
</tr>
</tbody>
</table>

**FEATURES**

Genesis Material provides a solid feel that maintains tackiness in any weather and is exceptionally durable.

Straightener reduced taper profile offers a slightly larger lower hand to promote lighter grip pressure for greater consistency and control.

Case quantity – 50  Kits available – see pages 23 & 39

ST+2 HYBRID CALIBRATE  NEW!

<table>

<td>Blk/Lime .600”(Rib)</td>
<td>54g</td>
<td>Midsize Plus</td>
<td>$11.19</td>
<td>$10.99</td>
<td></td>
</tr>
</tbody>
</table>

**FEATURES**

Infused Cord in the upper zone blends with Lamkin’s new ST Genesis Material to give the anchoring hand first-class traction regardless of weather conditions to offer maximum control without the abrasive feel sometimes associated with cord.

The grip’s hybrid lower section capitalizes on a smoother, tackier treatment further accentuated by the midsize-pluss (plus 2) design profile to provide the guiding hand a comfortable, tactile feel.

Case quantity – 50  Kits available – see pages 23 & 39

### FEATURES

- Winn’s signature model with a traditional tapered profile
- Non-slip and comfort performance for a tension free swing
- Improves swing tempo and solid contact
- Increased shock absorption
- Case quantity – 150
- Kits available – see pages 23 & 39
**New for 2020**

**Dri-Tac™ LT**

**LESS TAPERED PROFILE**

Winn’s new Dri-Tac LT was designed with a less tapered profile that offers a larger lower hand. This feature offers better control and lighter grip pressure. For golfers suffering from arthritis or hand injuries, the larger lower profile provides easier gripping for less pain and fatigue. Dri-Tac material provides the shock absorption, non-slip comfort and performance found in all Dri-Tac grips.

**FEATURES**

- Less tapered design, larger lower hand diameter
- Improved control and lighter grip pressure
- Excellent for golfers suffering from arthritis or hand injuries
- Increased shock absorption
- Case quantity – 150
- Kits available – see pages 23 & 39

### FEATURES
- Distinctive Air-Cushioning Absorption System pioneered the soft, vibration dampening properties of golf grips
- An industry legend
- A best seller for over 20 years
- Case quantity – 150
- Kits available – see pages 25 & 41

---

Reduce Pain And Injury
Avon’s Chamois brand golf grips make bad shots feel more like good shots. Vibrations are significantly reduced by Avon’s proprietary Air Cushioned Absorption System. The exclusive air cushioning system inside Avon’s Chamois grip reduces more unwanted vibrations than any golf grips in the market today - hands down.

Reduce Vibrations
Vibrations occur each time you strike the ball. Hit it smooth, it feels good, shock it, and you hands “sing”. The shock from impact travels to your forearm muscles, then to the small tendons at your elbow. Eventually, that can lead to “golfers elbow” the second most common injury among golfers.

Ask your GolfWorks service rep. for information. You’ll be glad you did.

**Super Stroke**

**Change your grip | Change your game**

**Tech-Port**

**Traxion Control™**

**Spyne Technology™**

---

**No Taper Technology®**

Patented No Taper Technology® creates even grip pressure for a more consistent stroke. Parallel design has uniform lower hand profile to minimize grip pressure and maintain putter head path for a more consistent stroke.

---

**Traxion™ Control**

Building on the superior feel and playability of the original SuperStroke putter grip, the new Traxion™ offers an advanced surface texture design for enhanced feedback. The strategically designed Traxion™ zones on the tacky polyurethane outer layer offer an amazing comfortable feel leading to greater overall confidence.

---

**Spyne™ Technology**

Advanced Spyne™ Technology is specifically engineered to aid in repeatable hand positioning. Repeatable hand placement leads to greater consistency in squaring the putter face at time of impact during the stroke.

---

**Tech-Port | Advanced Putting Performance**

Designed to accept all SuperStroke® Tech-Port™ accessories including the CounterCore weight system to engage the larger muscles for a more stable and repeatable putting stroke. Utilizing such muscles helps to reduce putter face angle rotation caused by wrist manipulation while improving putting stroke path for greater consistency.

CLAW PROFILE
Minimize Wrist Action
Pistol top hand profile with three flat sides in the bottom hand for increased surface area to facilitate a "claw" style putting grip. The CLAWS helps to create a more vertical locked feel at address by aligning the upper wrist with the putter while reducing wrist action in the bottom.

NO TAPER TECHNOLOGY
Even Grip Pressure
Patented No Taper Technology design has uniform lower hand profile to minimize grip pressure and maintain putter head path for a more consistent stroke.

TRAXION™ CONTROL
Enhanced Feedback Zones
The new Traxion™ offers an advanced surface texture design for enhanced feedback. The strategically designed Traxion™ zones on the tacky polyurethane outer layer offer an amazing comfortable feel leading to greater overall confidence.

SPYNE™ TECHNOLOGY
Repeat Hand Positioning
Advanced Spyne™ Technology is specifically engineered to aid in repeatable hand positioning. Repeatable hand placement leads to greater consistency in squaring the putter face at time of impact during the stroke.

TECH-PORT
Advanced Putting Performance
Designed to accept all SuperStroke “Tech-Port” accessories including the CounterCore weight system to engage the larger muscules for a more stable and repeatable putting stroke.

Measurement based on butt cap of grip

**FEATURES**

- Offered in Winn popular, tour proven shapes
- DriTac performance material offers the ultimate feel and slip-resistance promoting proper grip pressure
- Optimum design and pattern for improved grip stability
- Available in classic Medallist, Midsize and JumboLite pistol shapes
WinnProX uses a less tapered profile than traditional designs to eliminate wrist movement during the stroke while still delivering that comfortable, tacky feel you’ve come to expect from Winn. WinnLite Technology is also utilized to minimize grip weight, enhance clubhead feel and provide stability during the putting stroke.

**FEATURES**

Unique No-Taper pistol shape
- Designed to promote light and even grip pressure
- The 1.10" diameter midsize+ provides added stability
- Textures designed for optimum traction and performance
- Winn’s proven Excel polymer material for best results on the green
GOLF SHAFTS

PURE EXHILARATION

The patented PURE Shaft Alignment System is by far the favorite technology of its kind on Tour. Pros who PURE their shafts profit from greater consistency, accuracy, and distance. It’s a winning feeling amateurs appreciate as well.

PURE GENIUS

The PURE Shaft Alignment System finds the irregularities that exist in every shaft and identifies your shaft’s most stable bending plane or Neutral-Axis™. When the club is assembled with the shaft in this orientation, the result is greatly improved performance and consistency across every club.

PUREing® Service Description

Individual shaft PUREing service orders will ship within 48 hours of receipt of orders on in-stock shafts!
MPF SHAFT RATINGS

The most simple and effective shaft selection system!

Our Technical Staff has fully analyzed every shaft in this catalog. The Shaft Playability Factor rankings, found on our website, will allow clubmakers to narrow shaft selection based on the overall performance characteristics required for a player.

There is little standardization within the shaft industry. Flexes differ by manufacturer, torque ratings are not uniformly measured, flex points vary from design to design. Shaft MPF removes much of the guesswork from shaft fitting by recommending a range of shaft choices for each specific swing speed and shotmaking need. Shaft flex, weight, torque, bend point and tip stiffness have all been accounted for in grouping various shafts in specific Shaft MPF groups.

While the final choice of shaft selection still lies with the clubmaker and the golfer, shaft MPF provides a significant advantage by helping the player correct shot inconsistencies through more advanced shaft fitting.

HOW TO DETERMINE SHAFT PLAYABILITY FACTOR:

1. Determine the appropriate MPF based on known driver clubhead speed or the club the player uses to carry the ball 150 yards:

<table>
<thead>
<tr>
<th>Club Choice From 150 Yds</th>
<th>Driver Clubhead Speed</th>
<th>SPF Flex Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>3, 4, 5-iron, hybrid or fw metal</td>
<td>53-62 mph</td>
<td>1</td>
</tr>
<tr>
<td>6-iron</td>
<td>63-76 mph</td>
<td>2</td>
</tr>
<tr>
<td>7-iron</td>
<td>77-92 mph</td>
<td>3</td>
</tr>
<tr>
<td>8-iron</td>
<td>93-107 mph</td>
<td>4</td>
</tr>
<tr>
<td>9-iron, or wedge</td>
<td>108+ mph</td>
<td>5</td>
</tr>
</tbody>
</table>

2. Is the player wanting to add distance, control or both:

<table>
<thead>
<tr>
<th>Features</th>
<th>Weight Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Distance</td>
<td>D</td>
</tr>
<tr>
<td>Control</td>
<td>C</td>
</tr>
<tr>
<td>Both</td>
<td>B</td>
</tr>
</tbody>
</table>

3. Select the preferred trajectory for the player:

<table>
<thead>
<tr>
<th>Trajectory</th>
<th>Traj. Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lower</td>
<td>1</td>
</tr>
<tr>
<td>Medium</td>
<td>2</td>
</tr>
<tr>
<td>Higher</td>
<td>3</td>
</tr>
</tbody>
</table>

4. Does player need help correcting a hook, a slice or no correction required:

<table>
<thead>
<tr>
<th>Correction Required</th>
<th>Correction Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Slice</td>
<td>S</td>
</tr>
<tr>
<td>None</td>
<td>M</td>
</tr>
<tr>
<td>Hook</td>
<td>H</td>
</tr>
</tbody>
</table>

5. Tally to determine the player’s Shaft MPF. In this case: 4B2M

Look up this code at www.golfworks.com under SERVICES-(Info - MPF Shaft Ratings)

All About Shafts

All Trim Codes, Trimming Instructions & MPF Shaft Ratings Available at:
www.golfworks.com
Everything you need to know for proper shaft trimming is included on pages 72-73. Each shaft in this catalog has a Shaft Trim Code listed. Consult the chart on page 73 to determine how much to trim off the shaft. Unless noted, all directions are for TIP trimming. After tip trimming, trim to playing length from the butt.

The trimming instructions on page 72 are recommended by the manufacturer. Any trimming other than what is listed may void any expressed or implied warranty. See below for additional information for each of the manufacturers.

M890 LAUNCH TECH

**FEATURES**

- Designed to optimize trajectory and spin for slower swing speeds, maximizing performance
- Designed in four distinctly engineered flexes for custom fitting:
  - Soft Flex (LL): 62 mph or below driver clubhead speed / slower tempo
  - Light Flex (L): 62 mph or below driver clubhead speed / medium tempo
  - Light+ Flex (A): 63-76 mph clubhead speed / medium to fast tempo
  - Regular Flex (R): 77-92 mph clubhead speed / medium to fast tempo

MAXIMUM DISTANCE. ULTIMATE CONTROL.

Designed for Golfers Looking for a Graphite Iron Shaft that Produces Longer, Higher and Consistent Ball Flights.

FEATURES

- Features a unique Seamless Filament Wound (SFW) core technology with higher elastic composite micro-fiber outer veil, delivering maximum distance without sacrificing control
- Outer veil maintains shaft uniformity, delivering consistency in all planes around the circumference of the shaft
- Available in four flexes - L, A, R and S - with trim weights of 54g, 56g, 58g, and 60g respectively

STEELFIBER fc115

**FEATURES**

- Ideal weight (115 grams) for players transitioning from heavier steel shafts
- Progressive tip stiffness delivers higher trajectory in the mid and long irons while maintaining the classic SteelFiber launch in the scoring irons
- Vibration dampening properties reduce joint irritation

**SPECIFICATIONS**

STEELFIBER 70/70CW

- **Features**
  - STEELFIBER 70 - Lightest of the SteelFiber line up
  - For slower swing speed players needing more distance
  - STEELFIBER 70CW - .355" option of the lightest SteelFiber iron shaft in the line up
  - .355" option for slower swing speed players needing more distance

- **Specifications**
  - **Iron 70**
    - **AT0018I**
      - Trim: A 2B2M IR21
      - Tip: .600" .370" 70g
      - Length: 41" 3.5° 5.5° Mid/High
      - Parallel Tip Sect.: 5.5° Mid/High
      - Trajectory: 5.5° Mid/High
      - **Price**: $51.00
  - **Iron 70CW**
    - **AT0020IE**
      - Trim: A 3B2H IR1
      - Tip: .600" .355" 70g 36.5"-40" 3.3° Taper Mid/High
      - Parallel Tip Sect.: 2.5°-2.9° Taper Mid
      - Trajectory: 2.5°-2.9° Taper Mid
      - **Price**: $53.00

STEELFIBER 80/80CW

- **Features**
  - STEELFIBER 80 - Designed for the player looking to gain distance, without sacrificing control
  - STEELFIBER 80CW - Taper tip version of the SteelFiber 80, designed for distance and control

- **Specifications**
  - **Iron 80**
    - **AT0004I**
      - Trim: R 3B2M IR21
      - Tip: .600" .370" 85g 41" 3.3° 5.5° Mid
      - Parallel Tip Sect.: 5.25° Mid
      - Trajectory: 5.25° Mid
      - **Price**: $51.00
  - **Iron 80CW**
    - **AT0019IE**
      - Trim: R 3B2H IR1
      - Tip: .600" .355" 85g 36.5"-40" 2.5°-2.9° Taper Mid
      - Parallel Tip Sect.: 2.5°-2.9° Taper Mid
      - Trajectory: 2.5°-2.9° Taper Mid
      - **Price**: $53.00

STEELFIBER 95/95CW

- **Features**
  - STEELFIBER 95 - Designed to give the strongest players a true alternative to steel
  - STEELFIBER 95CW - Taper tip version of the SteelFiber 95, designed for distance and control

- **Specifications**
  - **Iron 95**
    - **AT0015I**
      - Trim: R 3B1H IR21
      - Tip: .602" .370" 95g 41" 2.4° 5.25° Mid
      - Parallel Tip Sect.: 5.9° Mid
      - Trajectory: 5.9° Mid
      - **Price**: $51.00
  - **Iron 95CW**
    - **AT0015IE**
      - Trim: S 4B1H IR1
      - Tip: .602" .355" 95g 36.5"-40" 2.2°-2.4° Taper Low/Mid
      - Parallel Tip Sect.: 2.2°-2.4° Taper Low/Mid
      - Trajectory: 2.2°-2.4° Taper Low/Mid
      - **Price**: $53.00

STEELFIBER 110/110CW

- **Features**
  - STEELFIBER 110 - Tour weight and feel
  - Provides the trajectory control desired by stronger players
  - STEELFIBER 110CW - Taper tip version of the SteelFiber 110, designed for distance and control

- **Specifications**
  - **Iron 110**
    - **AT0016I**
      - Trim: S 4B1H IR21
      - Tip: .605" .370" 110g 41" 1.9° 5.25° Low/Mid
      - Parallel Tip Sect.: 5.9° Low/Mid
      - Trajectory: 5.9° Low/Mid
      - **Price**: $51.00
  - **Iron 110CW**
    - **AT0017IE**
      - Trim: X 4B1H IR1
      - Tip: .605" .355" 110g 36.5"-40" 1.5°-1.9° Taper Low/Mid
      - Parallel Tip Sect.: 1.5°-1.9° Taper Low/Mid
      - Trajectory: 1.5°-1.9° Taper Low/Mid
      - **Price**: $53.00

HLS HYBRID 780/880

- **Features**
  - High modulus core and low torque design provides stability and control
  - Provides the accuracy of steel, yet creates the launch angles and spin rates needed for a hybrid club to perform as it was intended
  - Both weight categories are designed to provide a mid trajectory

- **Specifications**
  - **Hybrid 780**
    - **AT0022**
      - Trim: A 2B2M P27
      - Tip: .600" .370" 75g 42" 3.2° 5.9° Mid
      - Parallel Tip Sect.: 5.9° Mid
      - Trajectory: 5.9° Mid
      - **Price**: $61.00
  - **Hybrid 880**
    - **AT0023**
      - Trim: A 2B2M P27
      - Tip: .600" .370" 90g 42" 3.1° 5.9° Mid
      - Parallel Tip Sect.: 5.9° Mid
      - Trajectory: 5.9° Mid
      - **Price**: $61.00
  - **Hybrid 780**
    - **AT0022**
      - Trim: R 3B2M P27

      - **Price**: $61.00
**TIFIBER 60/70**

- **FEATURES**
  - High modulus graphite core with full surface layer of micro-thin Titanium fiber creates unprecedented stability.
  - Light weight Titanium provides discretionary weight used to optimize tip stiffness.
  - Perfect match for modern oversized Titanium/composite driver heads.

- **SPECIFICATIONS**

PROFORCE V2 BLACK 65/75

**FEATURES**
For players seeking a flatter, more penetrating ball flight
Recal Technology provides optimal spring effect in the walls and more efficient energy transfer for increased velocity and greater distance
Designed to provide greater control in the hands for both aggressive and smooth tempo players
Stiffer tip provides spin control with an incline trajectory ball flight

PROFORCE V2 65/65

**FEATURES**
Tour proven design for players seeking a flatter, more penetrating ball flight
Recal Technology provides optimal spring effect in the walls and more efficient energy transfer to the ball for increased velocity and greater distance
Long parallel butt section design provides greater control in the hands for both aggressive and smooth tempo players
Stiffer tip provides more spin control at impact with a mid trajectory ball flight

GOLF SHAFTS

HELIUM BLACK 40/50 NEW!

- FEATURES
  Incorporates premium materials in innovative ways yielding a lightweight shaft design with the best feel and stability ever seen in a lightweight golf shaft.
  Designed to work well with modern weighted driver heads.
  Improved stiffness profile increases consistency providing stability and improved shot dispersion.
  Ideal for the golfer seeking to maximize distance with longer club length while still maintaining incredible control.

HELIUM SILVER 40/50

- FEATURES
  Light weight design offers class leading feel and stability while maximizing distance and control.
  25% less resin content provides enhanced feel and stability.
  Counter Balanced Design works well with today's modern weighted driver heads.
  Improved stiffness profile increases the consistency, providing stability and improved shot dispersion.

**RECOIL 95/110 IRON**

| FEATURES | Designed to produce efficient energy transfer for increased ball velocity and greater distance - 67% more efficient than steel. 
Improves shot dispersion, distance and trajectory control. 
Two weight options, all providing a mid-trajectory shot profile 95 R and S flex and 110 S and X flex available in .370 tip, constant weight, discrete length (37”-41”) option through special order.

RECOIL 440/450/460 ESX IRON

**Features**

- Next generation of the Recoil ES models designed to provide maximum distance and control for all player types.
- Recoil Technology provides optimal spring effect in the walls of the shaft and more energy transfer to the ball for increased velocity and distance.
- Designed with stiffer mid and butt sections to produce better shot control, softer tip section for improved feel and trajectory, and lower torque to provide improved shot dispersion.
- ION Plating finish provides a stunning and premium finish vs. traditional paint.

RECOIL 460/470 ZT9 IRON

**Features**

- Designed with ZT9® material which provides better elongation of material to increase the damping rate, producing better impact strength and better feel on mis-hits.
- Recoil Technology provides optimal spring effect in the walls of the shaft and more energy transfer to the ball for increased velocity and distance.
- ION Plating finish provides a stunning and premium finish vs. traditional paint.

RECOIL 660/680 SC IRON

**Features**

- Multi-layer design creates unmatched consistency in a lightweight iron shaft.
- Recoil produces a responsive feel, allowing players to hit a wide variety of shots.
- Durable silver matte printed finish.
- 660 produces a medium to medium/high ball flight.
- 680 designed to produce a medium ball flight.

PROLAUNCH GWX NEW!

- FEATURES
  Developed to produce superior performance with superior feel
  Tip structure, torsional stiffness and flex profile designed to produce consistent delivery of the clubhead producing more consistent trajectory, distance and dispersion
  100% frequency tested in both the 0° and 90° planes
  Designed for players seeking a mid to high trajectory, but with controlled spin to maximize air time for improved distance

**ROGUE SILVER 130 MSI**

**FEATURES**
- Offers unmatched performance and consistency through the use of advanced, extremely high modulus, Graphitic Carbon Fibers that provide performance characteristics never before available in a golf shaft
- Utilizes NexGen Micro-Laminate Technology (MLT), resulting in an extremely stable shaft, that reduces inconsistent shots caused by shaft variability, while enhancing feel
- Manufactured using Dialed™ Pitch Fiber, providing outstanding strength and energy transfer properties
- Designed to produce a low launch with low spin

NV 2KXV BLUE 60/70

■ FEATURES
BLUE 60/70 – Features NexGen Micro Laminate Technology™ - 25% thinner high performance carbon fiber pre-preg with 16% less resin – resulting in more layers of carbon fiber producing maximum consistency and performance
Provides even better feel than the original NV and is slightly counterbalanced, which is ideal for today’s modern head designs and increased length
NV 2KXV Blue is designed for a mid-launch ball flight with mid spin
BLUE HYBRID – Features the same NexGen Micro Laminate Technology™ as the wood shafts, providing maximum consistency and performance in a hybrid
Delivers unmatched feel in a professional grade hybrid shaft

NV 2KXV GREEN 65/75

■ FEATURES
GREEN 65/75 – Next generation NV, developed with NexGen Micro Laminite Technology™ - thin high performance carbon fibers combined with today’s advanced fiber resin technology
More layers of carbon fiber in the design deliver more consistency and performance
Provides even better feel than the original and delivers a low to mid shot trajectory with low spin
GREEN HYBRID – Developed using the same NexGen Micro Laminite Technology™ as the wood shafts
Delivers unmatched consistency and performance in a hybrid
High performance hybrid design created to produce a low/mid trajectory profile and exceptional feel

NV 2KXV ORANGE 65

■ FEATURES
ORANGE 65 – Next generation NV, developed with NexGen Micro Laminite Technology™ - thin high performance carbon fibers combined with today’s advanced fiber resin technology
More layers of carbon fiber in the design deliver more consistency and performance
Produces a slightly higher (mid/high) trajectory with higher spin than the NV 2KXV Green, while providing the same exceptional feel
ORANGE HYBRID – Developed using the same NexGen MicroLaminite Technology™ as the wood shafts
Delivers unmatched consistency and performance in a hybrid
High performance hybrid design created to produce a slightly higher, mid/high trajectory profile than the NV2KXV Green hybrid, while providing the same exceptional feel

GOLF SHAFTS

nothing will improve your game quite like a custom-fit performance golf shaft

BUILT FOR YOU

the legendary, lightweight NV shaft from ALDILIA

THIS SEASON, CRUSH IT

TOUR GREEN NXT GEN MLT 65/75

FEATURES

GREEN MLT 65 –
Utilizes the latest Micro Laminate materials (MLT®) and manufacturing technology to maximize the power of your individual swing

GREEN MLT 75 –
Slightly heavier version (74g-76g) appeals to players with quicker transition and slightly faster tempo

GREEN MLT HYBRID –
Introduces a flatter trajectory to optimize distance control in hybrids

SPECIFICATIONS

TOUR BLUE NXT GEN MLT 65/75

FEATURES

BLUE MLT 65 –
Offers the same advanced material technology (MLT®) and performance of the Tour Green with a softer tip section to promote higher ball flight

BLUE MLT 75 –
Slightly heavier version (76g) of the Tour Blue design for players with a slightly faster tempo seeking a mid to high ball flight

BLUE MLT HYBRID –
Introduces a mid to high ball flight to optimize trajectory and distance in hybrids

**Features:**
- Manufactured using high modulus carbon fibers and a toughened resin system, resulting in the feel and stability that are demanded for precise iron play.
- Engineered in multiple weights and flexes, from 45 A-flex to 95 S-flex, to fit a wide range of players.
- Designed for the player looking for unsurpassed feel and stability in a mid launch, mid spin premium graphite iron shaft.
- Designed with a sleek black finish to complement the NXT GEN NV and NVS wood shafts.

**Specifications:**
- Designed with a stiff tip to produce a lower launch with lower spin.
- Provides optimum stability, feel and performance in a hybrid.

**Features:**
- NV Woods - Maintains the playability of the original profiles that worked so well, but have enhanced feel and responsiveness due to the addition of NEXGEN MLT in the tip section.
- NEXGEN Micro Laminate Technology (MLT) uses ultra-thin aerospace carbon fibers to produce an extremely stable shaft with precise feel and unmatched consistency.
- Constant taper design produces uniform feel and performance.
- Designed with a stiff tip to promote a higher ball flight with higher spin.
- NEXGEN Micro Laminate Technology (MLT) uses ultra-thin aerospace carbon fibers to produce an extremely stable shaft.
- Provides optimum stability, feel and performance in a hybrid.

**Features:**
- NV Pink - Features micro-laminate technology, providing unmatched consistency and performance.
- Ultralight weight (55g) provides increased velocity and distance.
- NV Pink Hybrid - Lightest weight option in the NV hybrid/utility shaft.
- Utilizes NV Technology and provides the same performance and feel as the NV wood shafts.

**Features:**
- NV Pink - Features micro-laminate technology, providing unmatched consistency and performance.
- Ultralight weight (55g) provides increased velocity and distance.
- NV Pink Hybrid - Lightest weight option in the NV hybrid/utility shaft.
- Utilizes NV Technology and provides the same performance and feel as the NV wood shafts.

**Specifications:**
- Designed for today's modern hybrids using NXT GEN NV technology.
- Provides optimum stability, feel and performance in a hybrid.
- Designed for players seeking a higher trajectory in their hybrids.
## DIAMANA™ ZF-SERIES

### FEATURES
- Features a moderately stronger, more stable butt and tip section with slightly softer and more active middle section to produce an incredibly solid and stable shaft through loading and unloading, and at impact.
- Promotes a smooth energy transfer for easier acceleration throughout the swing.
- Utilizes MR70 carbon fiber material and Boron fiber, which provides precisely calibrated stiffness and stability.
- Perfect choice for any player looking to increase clubhead acceleration while maintaining stability and control through impact.

## DIAMANA™ DF-SERIES

### FEATURES
- Combines time tested tour proven profiles - Blue Board and White Board, and combines Mitsubishi Chemical's latest design and material innovations.
- Uses strategically positioned DIALEAD™ Pitch Fiber producing unprecedented strength and control during shaft loading and unloading.
- Utilizes a prepreg that combines Mitsubishi Chemical's carbon fiber innovation MR70 and boron fiber, providing higher strength and higher modulus than traditional carbon fiber material.
- Designed to produce low to mid launch and low spin.

## TENSEI™ CK ORANGE

### FEATURES
- Builds off of MCA Golf’s classic, smooth bend profile.
- Incorporates Carbon Fiber/DuPont® Kevlar® (CK) weave in the butt section providing enhanced stability and maximum feel, in an extremely versatile design.
- Unique counter balance design for players looking to fine-tune their golf club performance.
- Designed to produce a mid launch and low spin.

## MMT IRON

### FEATURES
- Utilizes a breakthrough Metal Mesh material which is made from individually braided strands of 304 Stainless Steel that is integrated into the shaft’s prepreg layers toward the tip.
- MMT™ (Metal Mesh Technology) improves density and stability, while also allowing for thinner overall composite wall construction, yielding a finely tuned, highly responsive shaft.
- Designed to provide the consistent launch and spin control needed for effective iron play.
- Redefines possibilities for feel and performance in a composite iron shaft.

### C6 BLUE NEW!

**Features**
- Designed to be a smooth, well balanced profile that performs for a wide range of player abilities
- Manufactured using Mitsubishi Chemical's bi-axial woven material featuring ultra-thin spread tow fiber, delivering superior strength-to-weight ratio due to more fiber and less resin vs traditional carbon fiber prepregs
- Created to be the perfect balance of performance and playability
- Designed to produce a mid launch and mid to low spin

### C6 BLACK IRON/HYBRID NEW!

**Features**
- Utilizes the same design approach as the C6 Wood Series – optimizing shaft frequency, weight, torque, profile, launch and spin to help hit it as long, straight and consistent as possible
- Utilizes Mitsubishi Chemical's Woven Spread Tow Fiber, delivering greater strength and consistency
- Designed as a mid launching, mid spinning profile offered in a 42°, 370° parallel tip structure design to perform in both hybrid and iron applications for players of all speeds and abilities
- *See page 72 if trimming for a hybrid

TENSEI™ CK BLUE

**FEATURES**
- The TENSEI™ CK Blue Series features a multi-material design that optimizes a classic, tour proven MCA bend profile
- Combines 11 different prepreg materials, including High-Density Prepreg, Ultra-Thin Prepreg and a Carbon Fiber/Kevlar weave featuring MCA Carbon fiber – all to help refine and take the classic smooth bend profile to an entirely new level
- Provides a mid/high launch in the 50 Series and a mid launch in the 60 and 70 Series, with mid spin

KINETIXX VELOCITY WOOD  NEW!

**Features**
- Vacuum cured to minimize resin content, optimizing elastic strength and dynamic recovery properties, enhancing feedback and delivering an extraordinarily flexible and forgiving shaft
- Active butt and tip quadrants tailored for players desiring to improve efficiency and increase ball velocity, through the purest kinetic energy transfer from golfer to club
- Mid-Balance point, High-Low Kick point advanced composite shaft that kicks hard and recovers fast, producing increased ball velocity and medium-high shot trajectory

KINETIXX BALLISTIC TP WOOD

■ FEATURES
- Filament wound Vacuum Cured Construction technology produces round, pre-loaded concentric and spineless shafts for incomparable stability, dynamic response and feedback
- Tension tailored for torsional recovery and attenuation of vibration, for the purest kinetic energy transfer from the shaft to the clubhead

KINETIXX BALLISTIC TP FAIRWAY

■ FEATURES
- Filament wound Vacuum Cured Construction technology produces round, pre-loaded concentric and spineless shafts for incomparable stability, dynamic response and feedback
- Kevlar Ballistic Tour Series is designed for strong players desiring optimum control and a lower, more penetrating shot trajectory

KINETIXX BALLISTIC WOOD

■ FEATURES
- Filament wound Vacuum Cured Construction technology produces round, pre-loaded concentric and spineless shafts for incomparable stability, dynamic response and feedback
- Fitting the widest array of players and swing types. Each shaft

KINETIXX BALLISTIC HYBRID

■ FEATURES
- Filament wound Vacuum Cured Construction technology produces round, concentric and spineless golf shafts for incomparable stability, dynamic response and feedback
- Mid-Balance, Low Kick point advanced composite hybrid specific shaft that delivers balanced strength from butt to tip, producing a medium-high Ballistic shot trajectory with exceptional feel

KINETIXX BALLISTIC 80/95 IRON

■ FEATURES
- Filament wound Vacuum Cured Construction technology produces round, concentric and spineless golf shafts for incomparable stability, dynamic response and feedback
- Pre-loaded fiber architecture, tension tailored for torsional recovery and attenuation of vibration, for the purest kinetic energy transfer from shaft to clubhead
- Mid-Balance, Mid-Kick point advanced composite iron specific shaft that delivers balanced strength from butt to tip, producing a medium-high Ballistic shot trajectory with exceptional feel

PADERSON
WOUND FLIGHT TECHNOLOGY
Exclusive for The GolfWorks

KINETIXX TS-D1 TRAJECTORY SERIES WOOD

■ FEATURES
Paderson Kinetix patented and proprietary continuous fiber filament winding vacuum cured construction, producing an incomparably smooth bend profile. Designed to optimize torque transfer and create an optimal balance between tensile strength, hoop strength and torsional resistance, for precise control of balance point and shot trajectory, per flex profile. TS-D1 Series is designed for players seeking a mid to high trajectory and unmatched consistency, stability and performance.

KINETIXX TS-D2 TRAJECTORY SERIES WOOD

■ FEATURES
Manufactured from high modulus continuous fiber filament wound carbon fiber to produce an extraordinary strength to weight ratio and balanced stiffness. Uniform wall thickness provides unmatched flex consistency. Designed to produce unmatched consistency, stability and performance, the TS-D2 Series is for players seeking a low to mid trajectory and improved shot dispersion.

## KINETIXX TS-H TRAJECTORY SERIES HYBRID

**Features**
- Designed with 4 precisely wound “optimal” trajectory profiles and uniform wall thickness, for versatility in custom fitting
- Centricity through the patented and proprietary winding process produces a shaft with unmatched consistency, stability and performance
- For today’s modern hybrid head designs. Produces a low/mid to high trajectory, depending on the individual flex profile

## KINETIXX TS-I TRAJECTORY SERIES IRON

**Features**
- Vacuum cured for the highest fiber area weight to resin ratio, resulting in an incomparably smooth bend profile with enhanced feedback
- Features uniform wall thicknesses, for unmatched flex consistency in an iron shaft, enabling greater versatility in custom fitting and club building
- Weight and flex matched to produce optimum trajectory and control throughout the set

## KINETIXX TS-W TRAJECTORY SERIES WEDGE

**Features**
- Extended butt parallel geometry for greater trajectory control on scoring shots
- Winding patterns are coupled with an embedded hoop stress mass, tailored to optimize torque transfer and induce a perpendicular axial stress tailored to increase negative attack angle, generating as much as 1500 rpm additional spin

VENTUS RED NEW!
■ FEATURES
Designed using Fujikura’s new VeloCore Technology, which promotes consistent center-face impact and provides ultimate stability, tightening dispersion and increasing control.

Engineered to maximize the MOI and ball speed of the player’s clubhead through the reduction of twist during the swing and at impact, especially on off center hits.

Maximum energy transfer from the tip section boosts the clubhead’s performance and an accelerated taper design enhances the loading and feel.

Ventus Red provides a mid-high launch and medium spin.

VENTUS BLUE NEW!
■ FEATURES
Exceptionally engineered to significantly tighten shot dispersion and maximize ball speed, especially on off center hits.

Utilizes Fujikura’s new VeloCore Technology – a multi material based core construction that delivers ultimate stability through transition and impact (maximizing clubhead MOI) – increasing velocity and smash factor.

Ventus Blue delivers a mid launch with low spin.

VENTUS BLACK NEW!
■ FEATURES
Tour-inspired profile and the first to include Fujikura’s new VeloCore Technology in an accelerated taper, ultra-stiff tip profile.

Maximum energy transfer from the tip section boosts the clubheads’ performance and a straight taper design enhances loading and feel.

Crafted with full-length, ultra-high modulus Pitch 70 Ton carbon fiber for ultimate stability and 40 ton bias layers to ensure incredible feel.

Ventus Black produces a low launch with low spin.

# VISTA PRO 45/55/65 GOLF SHAFTS

## FEATURES
Tour-trusted Vista Pro Series provides versatility, professional grade technology, and Tour design aesthetics. The Vista Pro line benefits from proprietary Fujikura technologies like CAGE, Maximum Fiber Content, and Phantum, all of which make Fujikura #1 on Tour.

Various launch, spin and weight options appeal to a broad range of players.

## VISTA PRO 40/50/60 HYBRID

## FEATURES
Incorporates the “CAGE” design process that surrounds graphite shaft fibers in the outer walls with a rigid “cage” structure to create thinner, lighter walls that have the same feel and control of a heavier shaft. Maximum Carbon Fiber Content provides increased stability, distance and feel in a light weight hybrid.

## VISTA PRO 45/55/65 IRON

## FEATURES
The new Vista Pro Iron line benefits from proprietary Fujikura technologies like CAGE, Maximum Fiber Content, and Phantum, making it one of the most versatile and stable light weight graphite iron shafts available.

Ultralight weight design provides increased speed for greater distance.

Designed to produce mid/high to high trajectory with optimal spin.

## PRO 75/95 IRON

## FEATURES
Manufactured using Fujikura’s High Density Composite Core (HDCC), a proprietary design and construction method that uses an 18 gram composite core that is strategically located in the shaft to provide optimum club swingweight throughout the iron set.

HDCC enables the use of lighter weight composite materials in the remaining shaft structure for improved feedback and provides more power, improved accuracy and better control throughout the set.

Available in a .370 parallel tip in both 75 gram and 95 gram weights, providing multiple club fitting and club assembly options.

ATMOS RED

**FEATURES**
- Innovative "CAGE" design in the outer wall structure creates thinner, lighter walls providing the same feel and control of heavier shafts
- Maximum Carbon Fiber Content provides greater stiffness and strength, allowing for increased stability, distance and feel
- Designed for players looking for a mid to high trajectory with medium spin

**SPECIFICATIONS**

ATMOS TS BLUE

**FEATURES**
- Geared towards the performance golfer looking to keep the ball flighted down (low trajectory) with low spin
- Designed using High Inertia Tip (H.I.T.) technology for faster shaft tip acceleration to the ball, providing optimal spin regardless of ball flight
- Innovative "CAGE" design in the outer wall structure creates thinner, lighter walls providing the same feel and control of heavier shafts

PRO 2.0 55/65

**FEATURES**
- Fujikura’s most popular, playable and easy-to-fit line of performance shafts
- Features a more effective loading zone to store more energy in the downswing, which translates to more clubhead speed
- 14% increase in torsional stiffness produces greater overall shot control and lower spin compared to the original Pro
- Ideal for golfers of all skill levels, producing a mid to high trajectory with mid spin

*ATMOS Red, ATMOS TS Blue, ATMOS TS Black, Pro 2.0 and Pro 2.0 TS wood shafts sold as Install Only. Install includes custom assembled, reshaft or OEM adaptor installed (OEM adaptor and installation are free of charge)
TOUR AD XC NEW!

■ FEATURES
Utilizes the brand new TORA®M4OX carbon fiber pre-preg in the mid to tip section with NANOALLOY® technology in the tip section of the shaft for unrivaled shaft stability and precise ball control.

Shaft profile is designed with a softer butt section, a stiffer center section and a stiffer tip section to promote a low launch angle and low spin.

Delivers the exceptional feel that Graphite Design shafts are known for, while providing the “Xtra Carry” needed to optimize distance.

■ FEATURES
TORA® T1100G carbon-fiber pre-preg with NANOALLOY® technology for increased stability in the mid to tip region and unsurpassed feel. 58 ton ultra-premium, high modulus, aerospace quality carbon fiber materials.

Uses premium, aerospace quality carbon-fiber materials, delivering the best feeling and performing hybrid shaft available. 65 and 75 gram versions have a medium stiffness starting in the butt section of the shaft, a firm center section and a firm tip profile to promote a mid/high launch angle and mid spin. 85 gram version has a firm stiffness starting in the butt section of the shaft, a firm center section and a firm tip section to promote a mid launch angle and lower ball spin.

■ FEATURES
Engineered to deliver better control and feel in modern Utility Driving irons.

Designed using the same premium, aerospace quality carbon-fiber materials as the Tour AD wood series of shafts. Available in 39°, 335° taper tip, #3 iron shaft in 89 gram S flex, 98 gram S flex and 99 gram X flex. Designed to produce a medium trajectory.
TOUR AD DI

FEATURES
- TOUR AD DI - NANOALLOY® material technology in the tip section (DI Technology) aids in increasing ball speed while still providing exceptional feel and control.
- Manufactured from 50t, ultra premium, aerospace quality high modulus carbon fiber material.
- Mid bend profile allows the player to load the shaft properly, yet maintains a firm enough tip section through impact producing optimal spin and launch conditions.
- All weights available in both the signature Orange and Black.

HYBRIDS -
- Designed with the same performance characteristics as the Tour AD DI Wood shafts, providing a mid/high trajectory with mid spin and pin point accuracy.
- All with all tour level will benefit from the exceptional control, workability and superior performance of the Tour AD DI hybrid shafts.

SPECIFICATIONS
- WOODS-50 ORNG
- WOODS-60 ORNG
- WOODS-70 ORNG
- WOODS-50 BLK
- WOODS-60 BLK
- WOODS-70 BLK
- HYBRIDS-ORNG

YS NANO RELOADED

FEATURES
- Combines the YS+ profile with the high performance, NANOALLOY® material technology or “DI Technology” for additional stability without the loss of feel.
- Feature 46 ton, premium carbon fiber materials and a low/mid kick point designed to promote a mid/high launch angle with optimal spin and exceptional control.

SPECIFICATIONS
- WOODS-5
- WOODS-6
- WOODS-7

G-TECH

FEATURES
- Combination flex shaft available for woods and irons.
- Designed to allow the club builder additional flexibility for tip trimming options to promote optimal launch angles and ball spin rates.

PROJECT X HZRDUS YELLOW

**FEATURES**
- A backweighted low spinning shaft with a straight tapered midsection that is perfect for players with a smooth tempo who want to reduce launch and spin rates
- Backweighting allows for longer playing lengths and/or additional head weight, both of which can increase distance, and is ideal for stronger players with smoother tempos
- Designed to produce low/mid launch with low spin

**PROJECT X EVENFLOW BLUE**

### FEATURES
Revolutionary "even" bend profile transfers shaft load more efficiently throughout the swing to create maximum energy release at impact.

- Provides a powerful flow of energy that feels smooth and delivers great distance

**EvenFlow Blue features a mid spin and mid launch profile**

**PROJECT X CATALYST BLACK**

**FEATURES**
- Iso-6 composite material technology, engineered to replicate steel alloy properties over 100% better than traditional graphite laminates
- Designed to be extremely consistent from shaft to shaft, providing stability and distance control
- A reinforced tip section which delivers torsional resistance comparable to steel – improving stability through impact, even on less than perfect strikes

**PROJECT X LZ**

**FEATURES**
- Loading Zone Technology produces maximum shaft load during the downswing for 7% greater energy transfer to the ball at impact, producing more distance
- Variable wall technology in the shaft’s butt and tip sections reduce stiffness in the midsection
- For players who like the performance of the Project X, but want a slightly higher ball flight and enhanced feel

**PROJECT X LZ BLACKOUT**

**FEATURES**
- Blackout finished version of the Project X LZ steel, producing the signature mid ball flight and enhanced feel of the original LZ
- Loading Zone Technology is created by thinning out the walls of the mid-section of the shaft for more flex, while reinforcing the butt and tip sections to maintain stability and control
- Loading Zone Technology is specifically positioned to maximize shaft load for greater energy transfer and increased ball speeds
- Designed for players seeking a smoother, less harsh feel and slightly higher ball flight than Project X

**FEATURES**

- Designed as a lightweight alternative to the #1 wedge shaft in the history of the game.
- For players playing lightweight iron shafts, the Dynamic Gold 115 Wedge shaft provides an ideal transition from iron to wedges. This seamless transition produces better feel and consistency in the short game.
- Produces a mid-low launch and spin and is optimal for players who play iron shafts weighing 105 grams or less.
DYNAMIC GOLD

■ FEATURES
The No. 1 shaft in golf
Uses variable wall technology and a tour-proven step pattern to provide exceptional performance for serious golfers
This high-flex, tour-weight shaft is designed for skilled players seeking a low, penetrating ball flight for optimum control and accuracy
Additional flexes available: S200, S400 $23.99 each

■ DYNAMIC GOLD TOUR ISSUE

■ FEATURES
The tightest tolerances of any shaft in the market at +/- .5g within a set for an unprecedented level of precision and consistency
The same specs the True Temper Tour Van sorts for TOUR players. PGA Tour players choose Dynamic Gold more than all other shaft models combined
Delivers similar power, control and the trademark penetrating ball flight associated with the entire series of Dynamic Gold iron shafts

AMT RED

- FEATURES
AMT Red is the lightest weight and highest trajectory/spin option in the AMT line
Maximizes speed and launch by utilizing a responsive tip design
Designed with Ascending Mass Technology – making each shaft progressively heavier by 3 gram increments as the player moves to the shorter irons
The unique blend of superlight weighting in the 4-7 irons and AMT weighting in the scoring clubs produces both power and precision

AMT BLACK

- FEATURES
AMT Black is the middle weight option in the AMT line and delivers a mid-high trajectory and spin
Featuring Ascending Mass Technology, AMT Black gets progressively heavier from the long irons to the short irons, allowing for increased speed and launch from the lightweight long irons and superior control and precision from the mid weight scoring clubs
Perfect for the player looking for something in between a superlight and tour weight product with ascending weight technology

AMT TOUR WHITE

- FEATURES
AMT Tour White is a tour-weighted option that features the lowest trajectory and spin in the AMT line of shafts
Designed with the same performance DNA as Dynamic Gold and is designed to get progressively heavier as golfers move from their long irons to short irons
Lighter long irons produce increased speed along with a higher initial launch while the tour-weighted short irons produce the traditional Dynamic Gold accuracy, consistency and trajectory that is desired from scoring clubs
Ascending Mass Technology increases the weight in 3 gram increments throughout the set, while the balance point is adjusted so that the swing weight of each club is consistent to standard Dynamic Gold

ELEVATE 95 VSS  NEW!

**FEATURES**
- Lightweight design for players seeking improved initial launch and spin, promoting optimal landing angles to hold more greens
- Features True Temper’s proprietary Vibration Suppression System (VSS), reducing 71% of unwanted shaft vibrations while producing the softest feel in golf
- Designed to produce a high launch with mid to high spin

ELEVATE 105 VSS PRO  NEW!

**FEATURES**
- New weight addition to the Elevate family, sitting between the Elevate 95 and the Elevate Tour
- Provides another weight option that helps players increase initial launch/spin and create optimal landing angles to hold more greens
- Contains vibration dampening technology: VSS Pro - dampens 56% of unwanted shot vibration from contact for softer feel while still maintaining shot feedback
- Designed to produce a high launch with mid to high spin

ELEVATE TOUR VSS PRO

**FEATURES**
- Elevate Tour focuses on combating the “low-spin” industry trend by providing a mid-weight iron shaft that improves initial launch/spin and promotes an optimal landing angle to hold more greens
- Features a “Pro” version of True Temper’s proprietary Vibration Suppression System (VSS Pro) that provides 56% vibration dampening while maintaining the critical shot feedback demanded by accomplished players
- Designed to produce a mid-high launch with medium spin

FIRST EVER STEEL & GRAPHITE SET

**Binary** allows you to no longer compromise performance when choosing between steel OR graphite but instead maximizes performance by providing you with steel where you want it AND graphite where you need it.

**FEATURES**

Steel component of the FIRST EVER steel and graphite combo set

- Designed to maximize performance throughout the entire set by utilizing the unique characteristics in steel and graphite and matching them within the set to the player’s ability and the individual clubs within each set
- Different shaft material options in the 6-8 irons allows for 4 different set makeups - offering sets personalized for a variety of player types
- Feature the same balance points between the steel and graphite shafts to provide seamless transition when switching between two materials

TRUE TEMPER
BASICS of IRON SHAFT FITTING

1. Shaft Flex  
Club head speed and tempo are the two most important measurements you should use to determine flex. It’s not how fast you swing the club – it’s how you swing it fast.

2. Shaft Bend Point
High bend point shafts create a low trajectory  
Mid bend point shafts create a mid trajectory  
Low bend point shafts create a high trajectory

3. Shaft Weight
A player’s tempo and overall strength are the main determining factors in fitting for weight. Our philosophy is play the lightest shaft you can control.

**INTRODUCING THE NEW KBS TD WOOD SHAFT**

**TOUR DRIVEN GRAPHITE WHITE NEW!**

**FEATURES**
- Lightest version of the TD driver/wood shaft
- Designed with the characteristics of the original KBS feel, efficiency, and optimization of spin and launch that the KBS line is known for
- Engineered to provide optimal spin rate and launch for more distance
- Produces a tighter shot dispersion for improved accuracy
- Designed with the KBS Butt to Tip Energy Transfer Performance model, which produces optimal energy transfer for a variety of swing speeds

MAX GRAPHITE

■ FEATURES
Designed to offer slower swingers the ability to hit shots at a higher launch and spin without sacrificing control, maximizing the performance of their game.

A performance light weight graphite that produces the optimum trajectory, spin and distance.

Swing speed recommendations (#iron) for MAX Graphite:

- KBS MAX 45g - 50mph or less
- KBS MAX 5g - 59-77mph
- KBS MAX 55g - 51-59mph
- KBS MAX 65g - 68-75mph

TGI TOUR GRAPHITE

■ FEATURES
KBS TOUR Graphite Irons are the first graphite shaft to play like steel with optimized weight and stiffness for players to gain maximum performance.

Designed with the same EI curve as KBS Tour in multiple weight classes fitting junior players to Tour Professionals.

Swing speed recommendations (#iron) for KBS Tour:

- KBS TGI 50g - 65mph or less
- KBS TGI 70g - 70-75mph
- KBS TGI 60g - 65-70mph
- KBS TGI 80g - 75-80mph

■ FEATURES
Taper tip, heavier options of the TGI Tour Graphite Series designed as a high performance graphite alternative for players using light weight to standard weight steel.

Designed to play like the KBS steel with optimized weight and stiffness for each player type, providing maximum playability and performance.

Swing speed recommendations (#iron) for KBS TGI Tour:

- KBS TGI 90g - 85-90mph
- KBS TGI 100g - 90-95mph
- KBS TGI 110g - 95mph or higher

■ FEATURES
Engineered specifically for players seeking a shaft that will achieve optimal dispersion and the ease of swinging an iron shaft.

The KBS Graphite Hybrid complements the bend profile of the KBS Tour, allowing a seamless transition from irons to hybrid while achieving maximum stability and unmatched consistency.

Four specific weight offerings provide options for a wide range of players.

Designed to produce a mid trajectory and mid spin.

At KBS, we’re focused on maximizing performance by providing the most technologically advanced golf shafts. Since its inception in 2006, KBS has set a new standard with its unprecedented growth and acclaim with countless wins on all professional Tours worldwide. KBS shafts are utilized in leading club manufacturer’s irons, accepted in every manufacturer’s custom departments and adopted by over 200 professional Tour players. KBS and its success is the result of passion and purpose to build the best product for amateurs and Tour players alike.
$-TAPER LITE CHROME

**FEATURES**
Light weight version of highly successful, Tour winning KBS $-Taper
Provides the KBS signature superior feel while maintaining shot workability and tight shot dispersion
For players seeking the ultimate tour shaft with a mid/high trajectory and low/mid spin in a lighter performance shaft

■ FEATURES
The KBS C-Taper produces a lower flight and spin rate while maintaining the benefits of a piercing trajectory and smooth feel. Incorporating signature KBS technology, the C-Taper shaft maximizes energy transfer to improve distance and ball control. Independent testing resulted in 5% lower trajectory, 5% less spin and 5% more distance.

■ FEATURES
Incorporates proven KBS performance benefits in a lighter weight design. Designed with a firm tip and soft butt section to produce a mid-high trajectory and controlled spin. Features a constant taper design and proportionate increase in wall thickness to optimize energy transfer for maximum distance. Independent testing resulted revealed 5+ yards in added distance.

■ FEATURES
TOUR – Kim Braly’s signature shaft design and is ideal for players desiring shot versatility and mid trajectory. Incorporates unique KBS technology, maximizing energy transfer for increased shot control. Offers a smooth, responsive feel and is the preferred model of several of the best players in the world. TOUR CHROME WEDGE – Developed for players seeking a similar feel to the KBS Tour. The firmer tip section allows for less ball spin, increased control and is the optimal shaft for proximity shots. TOUR CUSTOM IRONS/WEDGES – Tour Custom Black (FS0028 Irons, FS0030 Wedges) and Tour Custom White (FS0029 Irons, FS0030 Wedges) available www.golfworks.com $42.95 each.

### 560/580

**Features:**
Designed to help players strike the ball properly for better control
Produces up to a full club more distance in irons for the developing player, as well as generate optimum spin with a more controlled and consistent ball flight
560 designed for the beginning player with smaller hands and slower swing speeds
580 designed for further along players needing more control and consistency in ball flight

What is MODUS³?

The steel iron shaft series that delivers optimum control over three modes of ball flight — trajectory, distance and dispersion — through the unified performance of the three sections of a golf shaft.

NIPPON SHAFT
REALIZING PRO GOLFERS’ MAJOR DREAMS
### N.S. PRO MODUS³ TOUR 130

**FEATURES**
- Tour design with easy launch provides a mid trajectory with tour type spin
- Unique bend profile of extra stiff mid section and soft tip section, preferred by golfers with a late swing release
- Traditional steel weight, with multiple Worldwide Tour wins

**SPECIFICATIONS**

### N.S. PRO MODUS³ TOUR 120

**FEATURES**
- Specialized Tour design with heavier tip balance point creating a shaft design that feels stable due to the weight feel at the tip end, but swings fast due to the overall lighter shaft weight
- Combination of soft butt section and stiff tip section yielding a mid/low launch profile
- Winner of the FEDEX CUP

### N.S. PRO MODUS³ WEDGE 105/115/125

**FEATURES**
- Designed exclusively for wedges to provide control via mid to lower launch with optimum spin
- N.S. Pro’s proprietary wall thickness adjustment technology provides a high level of stability to produce optimum spin and directional control
- MHT (Multi Heat Treatment) technology and three weight options provide more precise customization of feel and performance in the scoring clubs

N.S. PRO 950GH NEO  NEW!

■ FEATURES
- Extension of the world's first sub 100 gram constant weight steel iron shafts, the N.S. PRO 950GH
- Slightly firmer tip section produces a slight spin increase and a 1° to 2° higher launch, resulting in softer landings
- Firmer mid-section stabilizes newer, slightly larger clubheads throughout the swing
- Softer grip section (.600" diameter, reduced from .610") and Nippon Shaft's proprietary MHT (Multi-Heat Treatment) enhances "NS" feel and performance

N.S. PRO 950GH

■ FEATURES
- Nippon Shaft's most popular iron shaft model. Preferred by golfers that grew up playing with heavy steel, and want to regain speed with advanced ultra light design
- Utilizes NSG8655V patented alloy that creates a superior combination of shaft stability and smooth feel
- Mid/high trajectory, mid spin

Golf Shafts

**N.S. PRO ZELOS 6**

**Features**
- Ultra light weight steel was achieved by combining state-of-the-art technology with NZNS 60, an original Zelos material
- Weight reduction (6 grams) designed to increase head speed and initial velocity, as well as launch angle and spin
- Provides the stability of steel in a bend profile that is ideal for slower swing tempo players seeking improved distance and accuracy and a higher trajectory

**Specifications**

**N.S. PRO ZELOS 7**

**Features**
- Manufactured from cutting edge, high-intensity NZNS60 material, providing greater stability and control
- "STEEL FOR LIFE" Designed for slower speed golfers that prefer steel shaft playability
- Combination of super-light frame and softer shaft profile make this shaft super easy to swing

**N.S. PRO ZELOS 8**

**Features**
- Developed from a new steel material (NZNS560), providing an impressive light and pliable steel shaft
- Designed for players that prefer the feel and stability of steel, but can benefit from the reduced weight and power producing bend profile
- Designed with a low kick point and evenly distributed stiffness that work with a refined sense of feel

ENHANCED GRAPHITE SHAFT EXTRACTOR

Improve efficiency and reduce the damage to shafts and heads. The Enhanced Graphite Shaft Extractor is designed with an internal load sensing spring and indicator. To use, place the club into the device and tighten as you would any screw-type extractor. Tighten until the indicator shows the spring is loaded. Then apply heat. The pressure exerted by the spring is enough to cause the head to slide off once the epoxy breaks down from the heat, but not so much spring pressure that the head shoots off. Can be mounted to workbench or used in a vise.

Graphite Shaft Extractor (Included) GW0025 $9.99
OEM Adaptor Saver Kit (Included) GW0130 $6.99
Broken Shaft Extractor (Included) GW1112 $74.99

LOADING AND UNLOADING CLUBS IS QUICK AND EASY WITH THE SPEED HANDLE. RUBBER COATED PADS ENSURE SHAFTS ARE NOT DAMAGED. PRESSURE IS APPLIED USING A RATCHET BOX WRENCH TO TURN THE THREADED ROD - THE SHAFT IS NOT TWISTED. VISE MOUNTED FOR STABILITY.

Note: Not recommended for graphite or wooden heads.

VALUE SHAFT EXTRACTOR

Fits in most standard bench top vises. Simply secure the shaft between the rubber Shaft Extractor pads with the hosel positioned in the appropriate holder. Attach the ratchet to the long bolt on the opposite side, apply heat and glide the head off the shaft tip. Straight push with no twisting saves graphite shafts for re-use.

Graphite Shaft Extractor MA2007 $159.99
Replacement Pads FASRP $14.99

ALUMINUM HOSEL PROTECTOR

Prevents damage to hosels when pulling heads from shafts. Place Hosel Protector between shaft remover and hosel. The soft aluminum cushions as the head is pushed off the shaft.

Broken Shaft Extractor GW0025 $9.99
Graphite Shaft Extractor MA2007 $159.99
Ratchet Box Wrench RBW $4.99
OEM Adaptor Saver Kit GW0130 $6.99
OEM Adaptor Saver Kit GW0130 $6.99
Broken Shaft Extractor GW0025 $9.99
Loading and unloading clubs is quick and easy with the speed handle. Rubber coated pads ensure shafts are not damaged. Pressure is applied using a ratchet box wrench to turn the threaded rod - the shaft is not twisted. Vise mounted for stability.

Note: Not recommended for graphite or wooden heads.

Value Shaft Extractor GW1112 $74.99

Aluminum Hosel Protector GW1113 $8.99
FAST SHAFT EXTRACTOR

Designed for the high-volume club repair shop. After applying heat to the clubhead, the 22" leverage bar exerts tremendous pressure, rapidly compromising the epoxy bond. The 4" coated jaws securely clamp shafts while heat and constant pressure are applied. Heavy duty, bench mount construction. Complete with mounting bolts and instructions.

$249.99
Replacement Pads $14.99

REVERSE THRUST SHAFT PULLER

Instead of pushing the club head free from the shaft like all other extractors, the Reverse Thrust Shaft Puller efficiently pulls the shaft from the club head while remaining in a stationary position. Requires a small amount of torque applied to the wrench handle to produce up to 3000lbs of thrust. Additional pulling power comes from the 700lb compression spring located in the drive assembly to create instant separation once the heated epoxy bond is compromised.

$599.99

FEATURES:
- Heavy Duty, compact design
- Reverse pull leverages the shaft’s taper to reduce slippage
- Suitable for any hosel or adaptor length
- Broken shaft extractor and ferrule splitter included
- Stationary hosel allows for optimal and efficient heat application to hosel
- Can be bench or floor mounted
SHAFT REMOVAL

GOLFWORKS® BROKEN GRAPHITE SHAFT EXTRACTOR

A handy little tool to easily remove graphite shafts broken off at the hosel of wood and iron heads. Drill a pilot hole using a 7/32” drill bit and screw in the Broken Graphite Shaft Extractor. Place into any Graphite Shaft Extractor for easy shaft tip removal.

GW002S $9.99
7/32” Drill Bit DBH18 $3.99

BROKEN STEEL SHAFT EXTRACTORS

Designed to remove steel shaft tips broken off below the top of the hosel, both the Fast Extract extractors and the Shaft/Screw Extractor set are more than capable of doing the job quickly and professionally. The Fast Extract extractors are aimed at the high volume repair shop while the Shaft/Screw extractors offer a variety of sizes to allow any type of shaft to be removed.

FAST EXTRACT Irons GW1106 $24.99
FAST EXTRACT Woods GW1107 $24.99

SHAFT/SCREW EXTRACTOR SET

Set of 5 35PS $14.99

EXTRACTOR HANDLES

Standard Handle GW1108 $6.99

Heavy-Duty Chucking Handle GW0118 $9.99

HEAD TACKING ADHESIVE

Stops Annoying Rattles!
Clubhead Tacking Adhesive is a sticky compound used to coat the inside of a head, trapping particles and eliminating rattles. Available in a syringe for easy insertion. Use a metal wood plug (MWHBP) to fill hosel hole before replacing shaft.

4 oz. CLHT $7.99
Syringe GW003S $8.99

METAL WOOD BORE PLUGS

Serves as a replacement for manufacturer’s plugs. Prevents epoxy from working into the clubhead, causing rattles.
Package of 20 MWHBP $4.99

www.golfworks.com OPEN 24/7 TOLL FREE 1-800-848-8358
**PRO PLUS TORCH**

The Pro Plus Torch provides the heating power of a propane torch - blue flame temperature up to 2,500°F (1,350°C). Butane fuel cylinders sold separately. Burns 200 minutes on each filling.

- Pro Torch: LPT500 $54.99
- Butane Fuel Cylinder: LBFB $3.99

**ECONOMY ELECTRIC HEAT GUN**

A Great Value!

For slow heating clubs for shaft extraction. Two temperature settings — 630° F and 1,000° F. Color may vary.

- EHKG $29.99

**THE PRO PLUS TORCH**

- A. 44 1/2” RAM ROD
  - For graphite shafts. 1/2” rod fits down graphite shafts. Perfect for packing lead down a shaft or removing a stubborn head. Fits through a grip vent hole to tighten or remove lose tip weights. High-strength steel with a wooden handle.
  - RR $14.99

- B. HEAVY DUTY 42 1/2” RAM ROD
  - 3/4” rod is ideal for driving off stubborn iron heads, applying heat inside a shaft tip to loosen woodheads, or tightening lose tip weights. Cold rolled steel with a vinyl handle.
  - RR7 $14.99

- C. 48” HEATING ROD
  - 1/2” rod is ideal for driving off stubborn iron heads, applying heat inside a shaft tip to loosen woodheads, or tightening loose tip weights. High-strength steel with wooden handle.
  - HRD48 $11.99

**LEATHER BUFFING GLOVES**

- These American-made, commercial grade leather gloves are a must when handling hot club heads during re-shafting. One size fits all.
  - LGLO $12.99

**SIMICHROME POLISH**

- Apply to iron or metal wood hosels that have been discolored by the high temperatures of shaft removal and the head is back to normal. 1.76 oz.
  - SIMI $11.99

**CLUB SHIELD**

A safe, non-toxic paste that safeguards vital parts of the golf club during repairs when heat is required. Preserves and protects:

- 16 Fluid OZ.
  - GW1039 $11.99
  - Painted finishes
  - Ferrules
  - Graphite shaft finishes
  - Putter inserts

**RUBBER VISE PADS**

Vertical and horizontal grooves in each pad help to hold shafts, high-lofted woods and hard-to-secure heads.

- UVP $12.99

**LOCK TIGHT SHAFT HOLDER**

Lock Tight Shaft Holder holds steel shafts securely for wood or iron head removal. Assorted hole sizes accommodate standard steel shafts. Soft alloy will not mar steel shafts.

- TSL $19.99
**SHAFTING**

**DRILL MASTER 18V CORDLESS DRILL**

The ultimate cordless hand drill for a variety of tasks around the shop. The Drill Master drill features a powerful 18V variable speed motor, 21 torque clutch settings, 1/8" keyless chuck and an LED light. 18V NiCd battery lasts 3-5 hours on a full charge. (Charger included).

**GW0057 $44.99**

**WIRE HOSEL CLEANING BITS**

For Hand Held Drills

The easiest way to clean out hosels. For use with all drills. Cleans out hosels quickly and easily and prepares them for re-assembly. We recommend that the hosel be cleaned out using a cotton swab dampened with acetone after use.

.370" GW1060 $5.29 ea.

.335" GW1060 $5.29 ea.

**GOLFWORKS® HOSE CLEANING SYSTEM**

The GolfWorks hosel cleaning system is ideal for all hosel cleaning necessities. The long stemmed industrial brushes easily clean standard hosels. The extended 4" stem length works much better on thru-bore hosels than standard hosel cleaning brushes. The brush sizes have been specifically designed for modern club head bore sizes (.335", .350" & .370") which increases the life and durability of the brushes. Soaking the industrial strength cotton swab hosel brushes in acetone or mineral spirits and inserting into the club head hosels will clean out any oil or epoxy residue that may negatively affect the new epoxy bond during assembly. All brushes are threaded and can be used with the same universal wooden handle.

**GW1054 $14.99**

**KIT INCLUDES:**

- Handle, 3 wire & 2 cotton Brushes
- GW1055 $2.99
- GW1056 (T370) $3.99 .370" Long Stem Wire Brush
- GW1056 (W350) $3.99 .350" Long Stem Wire Brush
- GW1056 (W335) $3.99 .335" Long Stem Wire Brush
- GW1057 (I) $1.99 Iron Hosel Cleaning Cotton Brush
- GW1057 (W) $1.99 Wood Hosel Cleaning Cotton Brush

**HOSEL HONING TOOLS**

Great product for cleaning the inside of a hosel. It is also excellent for removing epoxy resin and abrading the inside of a hosel prior to re-shafting.

**GW1061 $8.99 ea.**

**AVAILABLE:**

- .335" & .350" Woods | .370" Irons

**HOSEL CLEANING SANDING SLEEVE**

Clean hosels quickly and easily with your drill or motor arbor. Aggressive 50 grit sleeves remove epoxy, burrs, and abrades the inside of club head hosels for better epoxy adhesion. Replacement sleeves in packs of 5.

- Cartridge Roll Mandrel with 5 Sanding Sleeves (50 grit) CRMWC $5.99
- Replacement Sanding Sleeves - 5 Pack (50 grit) CRS $3.99
**Spiral Fluted Reamers**

Made of high strength steel for longer life, these precision Spiral Fluted Reamers will remove debris and small amounts of metal from virtually any hosel bore. Available in 3 parallel diameters, .335", .350" and .370" as well as a new tapered reamer for .355" tapered hosel diameters.

- .335", .350", & .370"
  - GW0115 $28.99 ea.
- .355" Tapered Reamer
  - GW0116 $29.99 ea.

**HD Chucking Handle**

GW0118 $9.99 ea.

**Multi Golf Shaft Identification Gauge**

A must have tool for refitting and identifying almost any shaft.

**GM1047 $38.99**

**Self-Centering Shaft Tip Cleaner**

To reuse a graphite shaft, the old epoxy in the tip must be bored out. Mount the chuck on the tip of the shaft. Clamp the shaft into the vise. The chuck acts as a guide for a 1/8" drill bit to drill out old epoxy without damaging the shaft. Attaches securely to a wide variety of shaft tip sizes. 1/8" drill bit included.

**GW1110 $29.99**

**Shaft and Hosel Gauge Set**

The Golf Mechanix Shaft and Hosel Gauge Set accurately identifies the bore ID and shaft OD measurements. This heavy duty precision gauge is an essential tool for identifying all modern hosel and shaft tip spec diameters including tapered shafts and hosels. This is a must have tool for any golf club repair shop.

**GM1047 $38.99**

**Spiral Fluted Reamers**

Made of high strength steel for longer life, these precision Spiral Fluted Reamers will remove debris and small amounts of metal from virtually any hosel bore. Available in 3 parallel diameters, .335", .350" and .370" as well as a new tapered reamer for .355" tapered hosel diameters.

- .335", .350", & .370"
  - GW0115 $28.99 ea.
- .355" Tapered Reamer
  - GW0116 $29.99 ea.

**HD Chucking Handle**

GW0118 $9.99 ea.

**Multi Golf Shaft Identification Gauge**

A must have tool for refitting and identifying almost any shaft.

**GM1047 $38.99**

**Self-Centering Shaft Tip Cleaner**

To reuse a graphite shaft, the old epoxy in the tip must be bored out. Mount the chuck on the tip of the shaft. Clamp the shaft into the vise. The chuck acts as a guide for a 1/8" drill bit to drill out old epoxy without damaging the shaft. Attaches securely to a wide variety of shaft tip sizes. 1/8" drill bit included.

**GW1110 $29.99**

**Shaft and Hosel Gauge Set**

The Golf Mechanix Shaft and Hosel Gauge Set accurately identifies the bore ID and shaft OD measurements. This heavy duty precision gauge is an essential tool for identifying all modern hosel and shaft tip spec diameters including tapered shafts and hosels. This is a must have tool for any golf club repair shop.

**Multi Golf Shaft Identification Gauge**

A must have tool for refitting and identifying almost any shaft.

**GM1047 $38.99**

**Self-Centering Shaft Tip Cleaner**

To reuse a graphite shaft, the old epoxy in the tip must be bored out. Mount the chuck on the tip of the shaft. Clamp the shaft into the vise. The chuck acts as a guide for a 1/8" drill bit to drill out old epoxy without damaging the shaft. Attaches securely to a wide variety of shaft tip sizes. 1/8" drill bit included.

**GW1110 $29.99**

**Shaft and Hosel Gauge Set**

The Golf Mechanix Shaft and Hosel Gauge Set accurately identifies the bore ID and shaft OD measurements. This heavy duty precision gauge is an essential tool for identifying all modern hosel and shaft tip spec diameters including tapered shafts and hosels. This is a must have tool for any golf club repair shop.

**GM1047 $38.99**

**Spiral Fluted Reamers**

Made of high strength steel for longer life, these precision Spiral Fluted Reamers will remove debris and small amounts of metal from virtually any hosel bore. Available in 3 parallel diameters, .335", .350" and .370" as well as a new tapered reamer for .355" tapered hosel diameters.

- .335", .350", & .370"
  - GW0115 $28.99 ea.
- .355" Tapered Reamer
  - GW0116 $29.99 ea.

**HD Chucking Handle**

GW0118 $9.99 ea.

**Multi Golf Shaft Identification Gauge**

A must have tool for refitting and identifying almost any shaft.

**GM1047 $38.99**

**Self-Centering Shaft Tip Cleaner**

To reuse a graphite shaft, the old epoxy in the tip must be bored out. Mount the chuck on the tip of the shaft. Clamp the shaft into the vise. The chuck acts as a guide for a 1/8" drill bit to drill out old epoxy without damaging the shaft. Attaches securely to a wide variety of shaft tip sizes. 1/8" drill bit included.

**GW1110 $29.99**

**Shaft and Hosel Gauge Set**

The Golf Mechanix Shaft and Hosel Gauge Set accurately identifies the bore ID and shaft OD measurements. This heavy duty precision gauge is an essential tool for identifying all modern hosel and shaft tip spec diameters including tapered shafts and hosels. This is a must have tool for any golf club repair shop.

**GM1047 $38.99**

**Drill Bit Set with Holder**

A set of the most commonly used drill bits complete with a sturdy holder conveniently marked with each bit size. Individual drill bits are available at www.golfworks.com

**DBH $99.99**
MALTBY® LASER FREQUENCY MACHINE

The Maltby Design Laser Frequency Machine is a valuable tool for clubmakers to consistently measure shaft frequency of both assembled clubs and raw shafts. Other frequency machines measure using reflected light which often results in missed or inconsistent frequency readings. By using a laser as the primary light source, measurements are not affected by ambient or reflected light, shaft color or shaft material.

- Speed locking clamp guarantees consistent pressure on all shafts for accurate readings from one shaft to the next.
- Measures assembled clubs or raw shafts from the butt end or tip end.
- Laser posts adjust to ensure beam and shaft align properly during oscillation.
- 5” clamp will hold raw and gripped shafts.

AUDITOR REFERENCE FREQUENCY ANALYSER

Top of the range frequency analyzer capable of measuring golf shaft oscillation up to 999 CPM to a precision of 0.1 cpm. This design is easy to setup and operate, offering advanced frequency filtering functions with stable and repeatable readings. Well suited for shaft analysis and shaft profiling applications.

AUDITOR MOI SPEED MATCH SYSTEM

The Auditor MOI Speed Match System’s software enables clubmakers to calculate the MOI and swingweight of pre-assembled golf clubs and also club components being prepared for assembly using either length or weight adjustments based on preference. Set up and MOI match calculations are documented using the built-in report generator. Extensive 55 page instruction manual teaches you all you need to know about MOI matching techniques.

AUDITOR SHAFT PROFILER

Performs flex sorting, shaft comparison and spine detection. Now with full USB support, the A.S.P. can interface with the computer for data collection and visualization using the proprietary software.

- Spine, sort, match, profile of any shaft
- Classic 3 Point beam bending mode
- User defined loading fulcrum position, test span length 46” (1168 mm) and tip deflection height 4” (100 mm)
- Max load 30kgf (66 lbs) 150% overload protection
- Peak load capture function (spine detection)
- Residual bend load deflection cancellation (Tare)
- Display data hold
- USB enabled data port
- Data collection & visualization software

GM1021 $659.99

MALTBY® GOLF SHAFT DEFLECTION BOARD

Shaft manufacturers employ various methods of measuring shaft flex, and some shaft models vary in flex considerably from shaft to shaft. The Golf Shaft Deflection Board gives the serious clubfitter a tool to compare a shaft’s exact flexibility to industry standards or to other shafts. By mounting the shaft on the board and installing either the 7 lb weight (shafts 75 gram or higher) or the 4 lb weight (shafts under 75 grams in weight) on the tip, the flex can be read from the color coded line where the tip is positioned. Color coding identifies X, S, R, A and L flexes.

In addition, the curvature of different shafts can be compared to establish where flex is concentrated: at the tip, in the middle, or toward the butt end.

- Featued:
  - Engineered to be the best on the market
  - Eliminates guesswork
  - Use for raw shafts as well as finished clubs
  - Looks great on the shop wall!

GSDB $179.99

TIP WEIGHT & FLO TRACER

The Golf Mechanix 205gm frequency tip weight features a built-in laser and an internal long-life CR2 battery. Mount the tip weight on the shaft and turn it on. Twang the shaft to start oscillations and observe the pattern.

GM1011 $46.99

CHUCKED TIP WEIGHT AND FLO TRACER

- Heavy duty chuck for quick and easy attachment
- 205 gram base weight with battery
- Ring Set Stack includes 5 (16gm) rings
- Built-in Laser focusing tool
- Accepts shaft tip sizes up to .510” in dia.
- CR2 Battery included

GM1012 $74.99

GOLF MECHANIX MANUAL SHAFT SPINE FINDER

The Golf Mechanix Manual Shaft Spine Finder provides a quick and accurate method for locating the neutral bending axis on a golf shaft. This ensures the correct clubhead-to-shaft orientation, improving impact consistency while minimizing shot dispersion for longer and straighter golf shots.

GM1015 $64.99

FEATURES:

- Identifies the hard spine in all golf shafts
- Can be vise or bench mounted
- Heavy duty construction
- Precision roller bearings for smooth movement
**SHAAFTING**

**DUST-CONTAINED SHAFT CUTTER**

The Golf Mechanix Dust-Contained Shaft Cutter was designed specifically for clubmakers, Tour Van operators and quality control labs. This proven, premium shaft cutter is now in service in over 600 locations around the world and is a safe, efficient, compact and environmentally friendly alternative to bulky, brutal, inefficient and dirty chop saws.

Powered by high output 1000 Watt motor, spinning a thin profile 6” cut-off wheel, this shaft cutter slices through steel and graphite shafts effortlessly up to 4 pieces at a time. The shafts end cut is always splinter and burr free.

The built in two stage filtering system has a washable multi layered pre-filter that slows down and traps most of the dust before it reaches the secondary main filters, where fine particles as small as 5 micron are captured, leaving only clean air out of the exhaust.

**Dust-Contained Shaft Cutter**

GM1032 $629.99

Golf Mechanix Dust-Contained Shaft Cutter Replacement Filters GM1032RF $19.99

Golf Mechanix Dust-Contained Shaft Cutter Cutting Wheels GM1032RC $39.99

Dust Contained Shaft Cutter Lug Belts GM1032LB $15.99

**FEATURES:**

- Washable coarse particle pre-filter
- Throw away 5 micron primary filter
- Quick disconnect replaceable motor
- Dust and chute collection box
- Hinged cover for easy access
- 1/4” and 1/8” trimming guides
- Heavy-duty industrial construction
- Selection of 6” cut off discs

**COMPACT 1" x 42" SHAFT CUTTER & FERRULE PREPPING CENTER**

A Golfmechanix original design, this unit is powered by a heavy duty industrial motor integrated into one highly functional workstation that can handle all of your shaft & ferrule prepping needs. The powerful 1/2 Hp 3,400 RPM motor provides ample power and is fitted with our high performance 6” cutoff wheel to easily slice through steel and graphite shafts with very little dust or noise pollution. The graduated ruler ensures free hand cutting with good accuracy... The spring tensioned 1’’ x 2’’ belt sander track can be mounted with a variety of high performance belts such as Trizact and Norax belts for safely prepping graphite shafts, putting a good coarse finish on steel shafts or a shiny luster on ferrules. Belts can be easily changed by just pressing down effortlessly on the spring loaded lever and passing the belt over the track. An abrasive flap wheel has been added to safely prep ultralight graphite shafts tips, removing burrs etc.

GM1099 $399.99

**FEATURES:**

- 1/2 Hp 3,400 rpm CSA listed 110V motor. -6”
- Quick-change spring tensioned 42” belt track.
- Adjustable ferrule turning arm.
- Dust extraction vacuum hook up port on back of unit.

**Free hand tipping for fast turn around on single clubs.**

**High efficiency shaft cut off wheel.**

**Flap wheel removes thin film coatings off graphite shafts.**

**Dust extraction vacuum hook up port on back of unit.**

**Tip prepping. Shaft tip rides between gap and belt for easy control.**

GOLFWORKS® 1" x 30" SHAFT CUTTER & FERRULE PREPPING CENTER

The GolfWorks Shaft cutter and Ferrule prepping center is ideal for the small workshop or the occasional clubmaker. Clean, compact and well thought-out; this design has the power to slice through steel and graphite shafts, and turn ferrules down to size.

Belt Sander/Cut Off Wheel with Motor GW1120 $269.99
Replacement Cut Off Wheel GW1120RW $4.99

FEATURES:
- High torque 1/3 Hp 3400 RPM motor
- 1"x30" belt driven at 3525 ft/min
- Spring tensioned belt with quick release lever
- Super thin, low dust, high efficiency 6" cut off disc
- Guarded cut off blade with dust vacuum port
- Motor mounted on vibration dampers to frame
- Ships with U.S. continental and British AC socket adaptor

GOLFWORKS® 1" X 42" PROFESSIONAL BELT SANDING MACHINE

This 1" x 42" belt sander is ideal for turning ferrules and abrading both steel and graphite golf shafts. A 1" x 3" abrasive flap wheel has been added to safely prep ultralite graphite shaft tips. A professional grade sander made from heavy gauge steel with a steel base to secure the machine during operation.

GW1105 $279.99
Replacement Flap Wheel GW1105FW $5.99

GOLFWORKS® 1" X 30" BELT SANDER

Ideal for the small volume shop or hobbyist. Perfect for abrading steel shaft tips and removing polyurethane coating from graphite shaft tips before reshafting heads. Also features a dust collection outlet for connection to a vacuum. 1/4 hp, 2 amp, 110 VAC, 60 Hz motor runs at 3,450 rpm. Includes one 1" x 30" belt.

IVS3C $89.99

GOLF WORKS® CUT-OFF SAW

The GolfWorks High Speed Cut-Off saw will easily cut any graphite or steel shaft. The base plate features an adjustable guide that allows pre-cut angles on a shaft for a through-bore wood or iron head. Portable and lightweight. Uses 6" wheels. 110 VAC. *Saw color may vary.

GolfWorks Cut-Off Saw CSM6 $89.99
Replacement 6" Cut-Off Wheel CSM6RW $4.99

TOOLS & SUPPLIES

SHAINING

FERRULE & SHAFT PREPPING TOOL KIT

The Ferrule & Shaft Finishing Tool is a unique dual purpose tool that is used for finishing ferrules to a high gloss finish as well as prepping golf shaft tips prior to installation. To finish and size ferrules, simply apply acetone to the included lint free cloth strips and spin the ferrule on the nylon rollers, while applying moderate pressure. By replacing the lint free cloth strip with 80 grit sand paper, golf shafts can be spun on the nylon rollers to correctly prep the tips prior to assembly. The Ferrule & Shaft Finishing Tool can be vise or bench mounted and comes with a Plastic Squeeze Bottle for acetone dispensing and 3 each of the Lint Free Strips (GW0101CS) and 80 Grit Sand Paper Strips (GW1010SP).

- Ferrule & Shaft Finishing Tool: GW0101 $29.99
- Lint Free Cloth Strips (Spk.): GW0101CS $2.49
- 80 Grit Sand Paper Strips (Spk): GW1010SP $3.99

GOLF SHAFT CUTTER

Cuts Graphite Shafts!

This handy cutter comes with a hardened, tempered cutting wheel for steel shafts. An optional wheel for graphite shafts is available!

- Golf Shaft Cutter: STC $10.99
- Replacement Wheel for Steel Shafts: STCW $2.99
- Replacement Wheel for Graphite Shafts: STCWG $6.99

DELUXE FERRULE TURNING ARM

Mount this arm next to your belt sander and make turning ferrules a snap! Arm cradles shaft to avoid scratching. Adjustable height.

- DFTA $39.99

ECONOMY FERRULE TURNING ARM

For use with The GolfWorks Belt Sander IVS3C. Mount next to your sander. Height is a perfect match for the belt. Safely and controllably turn ferrules.

- EFTA $19.99

NEW!

UNIVERSAL FERRULE TURNING ARM

A universal ferrule turning arm designed for 30” and 42” belt sanders. This design allows the pod to rotate 30 degrees around its base and has up to 4 inches of reach back and forth. This makes for a very comfortable position from which to thin down ferrules of any size, hosel length or head size. The shaft rests are made of non abrasive engineering nylon. Bolts directly to the bench behind the motor. Unlike any other turning arm on the market; this design features a one-piece C-channel construction that’s very rigid that can be easily bolted down and rotated without having to drill additional holes in the work bench. Shaft rest height is 13 1/4” with a reach of 10”. Can be mounted for both right hand and left hand operation.

- GM1100 $53.99

MACHINE ABRASIVE BELTS

NORAX BELT

Ideal for removing polyurethane coating from graphite shaft tips without cutting fibers.

- 1” x 42” Belt NOR42 $7.99

SANDING BELTS

Available in 3 grits - coarse, medium or fine. Great for steel shaft prep.

- 1” x 30” Belt SB3(C,M,F) $2.99
- 1” x 42” Belt BEL(C,M,F) $2.99

FIRM LINEN FERRULE TURNING BELTS

Features a slightly stiffer linen material for added durability.

- 1” x 30” Belt GM1083 $3.49
- 1” x 42” Belt GM1083 $3.49

DURABRITE FELT FERRULE TURNING BELTS

Great alternative to linen turning belts. Will not harm painted finishes on graphite shafts or wood heads, eliminating the need to apply protective tape.

- 1” x 30” Belt GW1066 $9.99
- 1” x 42” Belt GW1065 $9.99

MICRO GRIT BELTS

Safely remove paint from graphite shafts without cutting fibers.

- 1” x 30” Belt M130B $4.99
- 1” x 42” Belt M142B $4.99

LINEN FERRULE TURNING BELTS

White linen belts are what manufacturers use to turn down ferrules without scratching the shaft or head. Blend ferrules perfectly!

- 1” x 30” Belt PF30B $4.99
- 1” x 42” Belt PF1D $4.99

MEASURING

GOLFWORKS®
BENCH RULER
A quick and accurate tool to measure club lengths on irons, woods and wedges. Soiling plate adjusts to match the lie angle of the golf club being measured to insure proper length measurements. Shaft alignment pins aid in accurately setting the club at its correct playing position. The GolfWorks Bench Ruler is lightweight and easily mounts to any work bench.

- Measures both right-hand and left-hand clubs.
- Accurately measures the lengths of assembled woods, irons and wedges.
- Lightweight construction easily mounts to work bench.
- Attached lie angle guide allows lie angles to be set for accurate length measurements.
- Shaft alignment pins align shaft for accurate lie angle settings.

Bench Ruler MA2010 $139.99

GOLFWORKS® 48" ALUMINUM RULER
Simply put, every shop needs one of our 48" rulers. It not only measures shaft length, it tells you how to do the job! This heavy duty aluminum ruler has instructions printed on the surface.

- Instructions for correctly measuring shafts
- Made of 1/8" thick by 2" wide aluminum.

48" Ruler RUL48 $14.99

EXACT MEASURE TOOL
Consistently obtain accurate measurements for tip and length trimming. This tool measures up to 48" in 1/4" increments. Designed to be used flat on a workbench to reduce awkwardness and increase accuracy. Panel flips up to align with clubhead sole to accurately measure finished length.

TMR $49.99

GOLFWORKS® 48" ALUMINUM RULER
Simply put, every shop needs one of our 48" rulers. It not only measures shaft length, it tells you how to do the job! This heavy duty aluminum ruler has instructions printed on the surface.

- Instructions for correctly measuring shafts
- Made of 1/8" thick by 2" wide aluminum.

48" Ruler RUL48 $14.99

GOLFWORKS® MEADOWS MEASURING RULER
Integrates club length measurements with a tip and butt trimming jig for raw shafts, and the U.S.G.A. rule for measuring the length of golf clubs. The ruler features a "Z" frame that restrains the shaft and places the embedded high visibility ruler above for a clear view of the numbers. A gauging slider gives the exact length. Reversing the gauging block from square transforms the ruler to the R&A length conformance gauge. Marking shafts accurately for tipping or butt trimming is made easy by the pass through indexer, extending its function beyond just a ruler for conformance measurements.

GM1025 $89.99

AUDITOR TRUE LENGTH TIPPING RULER
An essential quality control tool and a clubmakers dream ruler that has all the functionality needed to measure and setup a whole set of shafts for butt and tip trimming. Clubs, including pre-assembled, can be measured accurately to the desired playing lengths prior to butt trimming using the lie angle soiling plate and guide. Unique to this design, the ruler is produced from a custom extrusion featuring a deep nested "V" that guides the shaft or club and prevents rolling, while minimizing length wise misalignments. Includes a protractor for simple loft and lie measurements.

GM1026 $159.99

SELF STICK RULER
Adhesive backed 48" ruler sticks to a workbench for handy shaft and club length measurement.

SSTR $6.99
ADAPTORS

**SHAFT ADAPTOR SLEEVE**
TaylorMade factory authentic replacement shaft adaptor sleeve produces a 3° offset. Adaptor sleeve fits: SIM, SIM MAX, SIM MAX-D, M1, M2, M3, M4, M5, M6, R15, SLDR & RBZ Black drivers and fairway woods.

RH/LH - .335"
TM0023 $22.99

**RESCUE SHAFT ADAPTOR**
TaylorMade factory replacement shaft adaptor for the GAPR, M1, M3, R15, RBZ and the RBZ Stage 2 Tour Rescue heads. 2019 version allows for up to 3° of loft change.

RH/LH - .370"
TM0030 $22.99

---

**GOLFWORKS® M5 NEW! HEADWEIGHTS (2019)**
The GolfWorks aftermarket weights for the 2019 TaylorMade M5 drivers allow for swingweight and ball flight adjustments. Available in 3 weight options 4, 8 and 11 grams. A replacement screw is included.

Note: Both factory installed M5 stock slider weights weigh 10 grams.

4, 8 & 11 Gram BB9117 $19.99

---

**GOLFWORKS® M6 NEW! HEADWEIGHTS (2019)**
The GolfWorks aftermarket weights for the 2019 TaylorMade M6 drivers allow for swingweight and ball flight adjustments. Available in 4 weight options 2, 6, 8 and 11 grams. A Torx Head bit is included for installation.

Note: The factory installed M6 stock head weight weighs 3.5 grams.

2, 6, 8 & 11 Gram BB9118 $16.99

---

**GOLFWORKS® 2017 M1 HEAD WEIGHTS**
Aftermarket head weights for the 2017 Taylormade M1 driver. These weights are ideal for customizing ball flight and swingweight. The M1 weights are easily interchanged and are available in 7, 9, 11, 13, 17 and 19 gram options.

BB9098 $15.99

---

**GOLFWORKS® 2016 M1 HEAD WEIGHTS**
Taylormade front and back track weights available in multiple weight options for fine tuning both trajectory and ball flight direction. These weights are easily changed and come complete with top and bottom assembly. Available in Black and Red. The screw is included.

5, 7, 9, 11 & 13 Gram BB9077 $19.99

---

**GOLFWORKS® 2016 M2 HEAD WEIGHTS**
The GolfWorks Taylormade M2 driver aftermarket head weights optimize head weight for custom playing lengths, swingweight and ball flight. Each weight comes with a Torx T20 Security bit that can be inserted into any 1/4" standard hex screwdriver to allow easy and safe removal of the TaylorMade factory weight. Available in 4, 6, 8, 10 and 12 grams.

4 Gram BB9080 $19.99
6 Gram BB9080 $19.99
8 Gram BB9080 $19.99
10 Gram BB9080 $19.99
12 Gram BB9080 $19.99
ADAPTORS

TaylorMade factory authentic replacement shaft adaptor sleeve produces a 3° offset.
Adaptor sleeve fits: R11 & R11-T2.
RH — .335"  TM0016  $12.99

GOLFWORKS® R1 ADAPTOR

The GolfWorks aftermarket Adaptor Sleeve features a 2° offset.
Adaptor sleeve fits the TaylorMade R1 Driver.
RH — .335"  BB9054  $19.99

GOLFWORKS® NEW!

SPIDER X PUTTER WEIGHTS

Weights for the TaylorMade Spider X putter line available in 4, 6, 8, 10, and 12 gram weight options. Customize the feel and swingweight of any Spider X putter.
Sold in pairs of 2 weights. 2 replacement screws included.
NOTE - Do not over tighten.
BB9119  $19.99
ADAPTORS

PING G410 SHAFT ADAPTOR
Factory authentic Ping 410 adaptors offer 8 different loft/lie settings. The Ping 410 adaptors allow up to 3” of loft adjustments and fits all adjustable Ping 410 series drivers, fairways and hybrids. The Ping 410 adaptor is not backwards compatible with previous Ping models.

RH/LH – .335" Driver/Fairway PGC005 $21.99

PING G410 DRIVER & FAIRWAY/HYBRID HEAD WEIGHTS
The factory authentic Ping G410 head weights allow for total customization of trajectory, shot shape, club lengths and feel. Weights are available in two style options – Driver and Fairway/Hybrid. The 410 driver weights are available in 10, 12, 14 and 16 grams while the fairway/hybrid weights are available in 4, 7, 10 and 13 gram options.

Driver Weights PGC007 $17.99
Fairway/Hybrid Weights PGC008 $12.99

PING G SERIES SHAFT ADAPTOR
The authentic Ping shaft adapter sleeve adds one more degree of adjustability over the previous Ping adaptors and allows for multiple shafts to be used in the Ping G400, G400 Max, G400 LST, G400 SFT, G400 Stretch, Ping G, Ping G30, Ping LS Tech, Ping SF Tech and Rhapsody drivers and fairway woods at a fraction of the cost of re-shafting. Available in RH, .335” and LH, .335”. The Ping G Series driver and fairway adaptor is not compatible with previous Ping models featuring adjustable hosels.

RH/LH – .335" PGC002 $21.99

PING I25, G25 & ANSER SHAFT ADAPTORS

PING ADAPTORS

BB9048 $2.29 ea. .335" & .350" Fits: G10, G-15, G-20, Rapture, Rapture V2 & I20, I15, G2 Drivers, G5 Drivers & FWs
BB9047 0.99¢ ea. .355"*.520* OD Fits: Ping i210, i20, i-25, S-56, G200, G400, G700 & G400 MAX Irons
BB9078 $1.49 ea. .370" Fits: Ping G Series Drivers & FWs (PGC002) Adaptors
BB9079 0.99¢ ea. .350" Fits: Ping i500, i210, G400, G700, G, G Max, i200, iBlade & GLE Irons
BB9109 0.99¢ ea. .370" Fits: All Ping G Series Hybrids
PPG03 0.99¢ ea. .355" Fits: Ping Glide Wedge (OS ferrule)
PGC003 $2.99 ea. .335" Fits: Ping G Series Headweights
BB9064 $13.99 PGC009

GOLFWORKS® G SERIES DRIVER HEAD WEIGTHS
Ideal for customizing the swingweight and feel of the Ping G30 drivers, the Ping G30 head weights are offered in 8g, 10g, 12g, 14g and 16g weight options. Each weight comes with a replacement screw.

BB9064 $13.99
OPTI-FIT ADAPTORS
FAIRWAY
Smaller and lighter version of the Opti-Fit driver/fairway adaptor (CA0020). This factory authentic fairway adaptor allows for 8 different loft/lie settings – Fits all 2019 Callaway and after fairway woods.
Fairway RH/LH – .335” CA0024 $39.99

HYBRID
Smaller and lighter version of the Opti-Fit hybrid adaptor (CA0021). This factory authentic hybrid adaptor allows for 8 different loft/lie settings – Fits all 2019 Callaway hybrids.
Hybrid RH - CA0025 $39.99

DRIVER WEIGHTS
GBB EPIC
Slider weights for adjusting the swingweight and ball flight of the 2017 Callaway GBB Epic drivers.
6.5, 8.5, 10.5 & 12 Gram BB9102 $23.99

EPIC FLASH
Slider weights to customize feel and ball flight and also allow for custom shaft lengths and weights of the Callaway Epic Flash Drivers. Available in 4 weight options.
6.5 & 8.5 Gram BB9111 $19.99
15.5 & 17.5 Gram BB9111 $21.99

OPTI-FIT TOUR ADAPTORS
Factory authentic Opti-Fit Tour Adaptors are available in strong and flat options to further increase the adjustability of all Callaway drivers from 2013 to present and all Callaway fairway woods from 2013-2018. Each Tour Adaptor offers the same adjustability as the standard Opti-Fit Adaptor only starting with a stronger loft and a flatter lie angle respectively. Each Tour Adaptor is available in both right and left-hand, .335”.
Tour Strong RH/LH – .335” CA0022 $39.99
Tour Flat RH/LH – .335” CA0023 $39.99

XR, BIG BERTHA & X2 HOT HEAD WEIGHTS
Ideal for customizing your Callaway XR, XR Pro, XR Pro Sub Zero, Big Bertha 815, Big Bertha Alpha Double Black Diamond and X2 Hot drivers, 2015 Great Big Bertha.
The standard issue Callaway adaptor torque wrench or similar OEM torque wrench will fit each head weight.
2, 4, 6 & 8.9 Gram BB9081 $11.99
11, 13, 15 & 17 Gram BB9081 $19.99

GOLFWORKS® UNIVERSAL ADAPTORS

The GolfWorks aftermarket Universal Cobra adaptor allows for 8 different loft and or face angle adjustments for the Cobra King SZ, King SZ Extreme, King F9, F8, F8+, F7, F7+, King LTD, F6, F6+, Fly Z, Fly Z+, Bio Cell and Bio Cell Pro drivers.

Because the Universal Adaptor simply list +/- loft and face angle settings it can be used in any of the above models without having to stock multiple adaptors for Pro and Standard drivers, fairways and hybrids.

FEATURES:
- Right Hand (Can be used in left hand heads - Numbers will be reversed)
- Milled aluminum
- Available in .335" for drivers and fairways or .370" for hybrids
- 8 loft and face angle settings
- Made in USA

Universal Cobra Driver/Fairway Adaptor - RH .335"  BB9079  $26.99
Universal Cobra Hybrid Adaptor - RH .370"  BB9079  $26.99

GOLFWORKS® SCOTTY CAMERON PUTTER WEIGHTS

Available in 3 colors - Black, Blue and Red. Sold in Pairs and fit numerous Scotty Cameron Newport, Futura, Golo, Square Back, My Girl & Fast Back putter models with removable weights.

A socket wrench is available (BB9100) for easy removal and insertion of putter weights. Note: Secure weights with a mild bond adhesive. The socket wrench is recommended for removal.

BB9088 $30.00  10 Gram
BB9089 $30.00  15 Gram
BB9090 $30.00  20 Gram
BB9091 $40.00  25 Gram
BB9092 $45.00  30 Gram
BB9093 $48.00  35 Gram

GOLFWORKS® SCOTTY CAMERON HAND WRENCH

This GolfWorks aftermarket hand wrench is ideal for removing Scotty Cameron putter weights. The wrench allows easy removal of the putter weights. Note: The Scotty Cameron® weights are installed at the factory using a mild bonding adhesive. The hand wrench should provide plenty of torque to easily remove the factory weights. Apply a little heat to the factory weights if hand loosening is difficult.

BB9100 $19.99

GOLFWORKS® 910, 913 & 915 STRAIGHT FIT ADAPTOR

The GolfWorks aftermarket non-adjustable Titleist Shaft Adaptor allows for additional shafts to be used in the Titleist 915 (driver), 913 (driver) and 910 (driver and fairway) woods. This shaft adaptor does not allow for loft or lie adjustments. Using this non-adjustable adaptor will set your Titleist driver/ fairway head at its stock neutral loft and lie spec.

Because this is a simple non-adjustable sleeve it offers a lighter and more economic option for adding multiple shafts to the Titleist 915, 913 & 910 club heads.

RH – 335°  BB9058  $17.99

GOLFWORKS® 915 HEAD WEIGHTS

Interchangeable head weights for the Titleist 915 driver and fairway allow for the customizing of swingweight and feel for optimized performance.

Available in 4, 7, 9, 11, 14, and 17 gram weight options. Each weight comes with a replacement screw.

BB9085 $16.99
**GOLFWORKS® PXG SHAFT ADAPTOR & FERRULES**

The PXG aftermarket shaft adaptor will alter the loft (+/-) 2° on all PXG adjustable driver and fairway heads to optimize the trajectory and dispersion to fit individual golf swings. Available in 2° offset - 335° RH and LH.

The PXG iron ferrules have a deep, perforated internal collar eliminating the need for ferrule turning and ensures proper epoxy adhesion. Available in .355° and .370° size options. (Note: .355° ferrule includes required tip spacer).

- 355° Iron Ferrule – BB9083 $1.49
- 370° Iron Ferrule – BB9084 0.99¢

**SRIXON Z SERIES SHAFT ADAPTOR**

- RH – 335° SG1002 $23.99

**ADAPTOR EPOXY**

The GolfWorks Adaptor Epoxy is specifically formulated to enhance the bond between graphite golf shafts and the milled aluminum material used to manufacture hosel adaptors. The Adaptor Epoxy has a gel time of 30 minutes and will cure to playable strength in 90 minutes. The 14ml syringe provides enough adhesive to assemble 12-14 adaptors.

- VB1030 $5.99

**GOLFWORKS® UNIVERSAL ADAPTOR**

The GolfWorks aftermarket shaft adaptor for the Mizuno ST-100, ST-10, JPX 850 and JPX 900 drivers allows 8 different loft/lie settings. Loft settings change from 7.5° to 11.5° RH .335°.

- BB9072 $19.99

**FAST FIT ADJUSTABLE ADAPTORS**

Wilson’s Fast Fit Adjustable Shaft Adaptors feature six settings that are designated as +/-1 degree changes in loft and in the case of the hybrids, lie angle as well, allowing players to easily adjust loft +/-2 degrees from standard. Fits Cortex, Cortex DvD2, C300, Triton, FG Tour, FSand D300 drivers.

- WL1005 $26.99

**OEM ADAPTOR SAVER KIT**

An efficient and safe way to remove OEM shaft adaptors from graphite shafts. Eliminating the need to apply a clamping force to the delicate aluminum adaptors. An inexpensive way to remove a graphite shaft from an OEM shaft adaptor.

Use caution when heating OEM shaft adaptors - Many have plastic ferrules and/or sleeve rings that need to be removed or protected with Club Shield Paste (GW1039- page 135) prior to applying direct heat to prevent the plastic parts from melting.

Screws included in the kit:

- Red – Fits Nike VR-S Covert Flex Loft adaptor
- Blue – Fits all Callaway Opti-Fit, Tour Authentic Opti-Force and Srixon/Mizuno adaptors
- Black – Fits all TaylorMade and Wilson shaft adaptors
- Gray – Fits PXG, Ping, Titleist & Bridgestone adaptors
- Yellow – Fits all Cobra adaptors

- GW0130 $6.99

**NEW!**

MALTBY® KE4 TC ADAPTOR

The KE4 Tour TC adjustable CNC milled aluminum hosel features 8 different settings to fine tune your ball flight trajectory and golf shot dispersion. The KE4 Tour TC adjustable hosel allows for loft settings of +/- 1°” from the static loft of 10° providing a 9° to 11° loft range to suitably fit a wide range of players.

KE4 Tour TC Adaptor MA0309A $17.99

Replacement Ferrule MA0309AF 79¢

MALTBY® COLLABORATIVE IRON FERRULE

A near perfect match in O.D. for the Maltby PTM, PTM Black, TS1 and TS2 irons as well as the FGT wedges. When properly installed the ferrules do not require any turning or finishing. The ferrules are pre-washed and feature a shank collar that fits into the hosel design of the above mentioned heads reducing the chance of breakage when assembled with graphite shafts.

.370” inside diameter but also perfectly fits .355” shafts used in Maltby irons featuring a Universal Hosel design.

KE4 TC

T25 Torque Wrench MA0227W $17.99

Triangle Torque Wrench MA0032WT $17.99

MALTBY® KE4 SCREW WEIGHTS & WRENCH

These screw weights work in all weight adjustable Maltby club heads. The triangle head screw weights can be inserted or removed using the Maltby FCT Torque wrench (MA0032WT) or the standard triangle weight screw only wrench (MA0032WT).

TOUR LOCK PRO COUNTER PLUGS

The Tour Lock Pro Counter Plugs are an incredibly efficient way for golf club makers to counter balance putters, irons and woods. The reusable weights will fit all steel and most graphite shafts and are held in place by the expandable bladder. There is no need to modify the grip cap or epoxy the weights in place, making the weights reusable. The very thin shaft cap does not require adjustments to the finished length of the golf club. The Tour Lock Pro Counter Plugs are available in 8, 12, 16, 20, 25, 30, 50 and 80 gram weight options.

TOUR LOCK PRO+

Tour Lock Pro+ is a revolutionary weighting technology that allows every golfer to fine tune, personalize and enhance the performance of any golf club.

Testing shows that optimizing the weight of a club produces more consistent, tighter contact dispersion with the clubface, raising the “power transfer ratio” for greater distance, improved accuracy better club head feel.

There are 11 TLP weight options from 8 to 100 grams. Each weight is interchangeable and simple to install, which makes it easy to find the optimal weight for every club in the bag; from putter to driver.

Tour Lock Pro+ weights raise the balance point of the club increasing overall club head speed while at the same time dampening unwanted vibration, producing a better feel.

8 Gram   12 Gram 16 Gram 20 Gram 25 Gram 30 Gram 50 Gram 80 Gram

TOUR LOCK OPTI-VIBE ENFORCER RODS

Tour Lock Pro+ weights fit seamlessly into all Super Stroke golf grips with a CounterCore weight port.

TOUR LOCK PRO OPTI-VIBE

The Enforcer Rods attach to and stabilize any Opti-Vibe weight allowing for deeper insertion depths. The Enforcer-S weighs 14 grams and will secure an Opti-Vibe weight 3.5” into the shaft. The Enforcer-L weighs 24 grams and will secure an Opti-Vibe 6” into the shaft.

Enforcer S (3.5”)   TL0037 $14.99
Enforcer L (6.0”)   TL0038 $14.99

TOUR LOCK OPTI-VIBE

Allows a custom fitter, teaching pro or an individual the ability to optimize the overall static weight and balance point of the club to best suite the individual’s feel and performance preferences.

The advantage of the Opti-Vibe System is that swingweight and MOI can be adjusted by simply moving the weight up or down inside the golf shaft. The COG of the weights can be positioned very accurately inside the golf shaft and then locked into position using a patent pending compression seal. By adding weight in locations which improve club balance and enhance stability, the golf club will swing or stroke on a more predictable path for increased feel and control. Tour Lock Pro Opti-Vibe weights conform to USGA and R&A Rules of Golf.

NOTE: A Tour Lock Pro Counter Weight, TLP Grip Modifier and DUAL-TOOL are required for Opti-Vibe insertion.

- 66TI 1 Doz.
- 68WIR 1 Doz.

KIT CONTAINS:
- Parallel Irons
- Parallel Woods
- Tapered Irons
- Oversized Woods

GW2002 $89.99

EASY TO INSTALL FERRULES

Easy To Install Ferrules feature a larger inside diameter to easily slide over most graphite and steel shafts, but not large enough to cause the ferrule to tilt off-center. There is no need for a ferrule installer tool. It is required that the Easy To Install Ferrules are epoxied into place when assembling the golf club. Available for woods and irons in both black and black with a chrome trim ring.

**FERRULES**

**FERRULE INSTALLATION TOOL**

This handy stainless steel ferrule installer takes the guess work out of installing ferrules onto a golf shaft. A depth gauge has been added to the side of the installer tool to allow you to see the exact insertion depth of the ferrule being installed. Simply tap the installer tool with a hammer until the ferrule reaches your desired installed depth.

GW0123 $8.99

**ECONOMY FERRULE INSTALLER TOOL**

To use the Economy Ferrule Installer Tool, simply start the ferrule onto the shaft, align the installer tool on the ferrule and then tap the tool with a hammer until the ferrule reaches the right measurement. Will install up to .405” diameter ferrules.

GW1003 $6.99

**OVERSIZED COLLARED FERRULE INSTALLATION TOOL**

Take the guesswork out of installing oversized adaptors and collared ferrules. Fits over most collared ferrules and OEM adaptors for easy installation. An added depth gauge allows you to see the exact insertion depth of the ferrule being installed. Simply tap the installer with a hammer until the ferrule reaches your desired installed depth.

GW060 $8.99

**UNIVERSAL PLASTIC SHIM**

Universal Plastic Shim with attached ferrule to install .335” shafts into a .350” hosel bore.

BB9018 $1.29

**BUSHING SHIM**

Plastic sleeve with attached ferrule for inserting a .335” wood shaft into a .350” bore.

(4 pack) LE9002 $2.99

**SPLIT FERRULES**

Replace damaged ferrules without removing the club head. Apply a small amount of epoxy and snap into place.

(12 pk.) .370” Irons LE9003 $3.99
(6 pk.) .335” Woods LE9004 $1.99
(6 pk.) .350” Woods LE9005 $1.99

**ACETONE**

Oversized ferrules can be blended with the hosel by wiping ferrules with a rag soaked in acetone after filing down. 1-quart can.

ACTQ $6.99

**DIGITAL CALIPERS**

Digital Calipers with large LED display makes measuring bore depths, hosel diameters, face heights, and shaft tip and butt diameters quick and easy.

GDC $34.99

**BRASS ADAPTOR SHIMS**

The perfect answer to your shaft installation headaches. Easy to use. Center the shaft in the bore perfectly and create a maximum bond between the shaft and the hosel.

Fits .335” shafts to .350” hosels (5 pk.)

SHIM-15 $3.99

Fits .370” shafts to .400” hosels (5 pk.)

SHIM-30 $3.99

Fits .335” taper iron shafts to .370” hosels (5 pk.)

SHIMT $3.99

GOLFWORKS® PUTTER HOSELS

For the golfer that prefers putter heads with a hosel vs a double bend putter shaft. These Putter Hosels fit putter heads with a .370" hosel bore diameter and a 90° bore angle. Available in 3 different lengths 2.5", 3.0" and 3.5", 100% CNC milled from 606 aluminum.

The 3.0" hosel manufactured from soft carbon steel is available for players desiring a heavier hosel. The aluminum hosels feature a black pvd finish while the carbon hosel is protected by black chrome. The bottom stem of each putter hosel has a milled flat edge for air/epoxy relief during assembly and is not counted as part of the hosel length. Each hosel is built at a 1/4" offset however, the actual offset of the hosel installed is relative to the distance the hosel bore of the putter is from the leading edge of the putter.

**EPOXY**

**GOLFWORKS® MAXIMUM STRENGTH High Impact EPOXY**

Stronger adhesion at half the cost! The GofWorks Maximum Strength High Impact Epoxy has been formulated to match the peel and shear strength of premium 3M® epoxies only with more elastic qualities specifically needed for proper golf club head/shaft adhesion, at about half the cost. The Maximum Strength High Impact epoxy is formulated for the high volume clubmaker to gel in approximately 1 hour. Maximum Strength epoxy features a shear strength of 4500 psi and requires a 2:1 mix ratio.

**Maximum Strength High Impact Epoxy**  
A. VB1001 $10.99

The GofWorks Maximum Strength High Impact Burst Pouch contains more than enough epoxy (20ml) for a complete set of golf clubs and does not require an expensive 2:1 epoxy mixing gun. Simply roll up one side of the pouch to create internal pressure and the contents will burst together. Mix the epoxy inside the pouch by hand or against the edge of a workbench, cut a corner with scissors and dispense.

**Maximum Strength High Impact Epoxy 20 ml Burst Pouch**  
B. VB1031 $5.49

Now with an installed 2:1 plunger, using premium industrial strength epoxy no longer requires the purchase of a 2:1 epoxy gun. The plunger in each 30ml cartridge is pre-assembled and sealed to ensure proper dispensing amounts. Simply remove the reusable cap from between the plungers and slowly force the plungers into the cartridge.

**Maximum Strength High Impact Epoxy 30 ml Cartridge w/Plunger**  
C. VB1032 $9.99

---

**GOLFWORKS® MAXIMUM STRENGTH Quick-Set EPOXY**

The GofWorks Maximum Strength Quick Set Epoxy is specifically formulated for metal wood and iron club assembly. With a full cure lap shear strength of 2900 psi and a usable cure time of 15-30 minutes, the Maximum Strength Quick Set Epoxy eliminates the need for unreliable one part cyanoacrylate adhesives.

**Maximum Strength Quick Set Epoxy 200 ml Cartridge**  
A. VB1026 $25.99

**Maximum Strength Quick Set Epoxy 50 ml Cartridge**  
B. VB1003 $12.49

**Maximum Strength Quick Set Epoxy 2-4oz. Bottles**  
C. VB1024 $19.49
GOLFWORKS® MAXIMUM STRENGTH Tour Set Plus EPOXY

The GolfWorks Maximum Strength Tour Set Plus Epoxies have been formulated to match the peel and shear strength of premium 3M® epoxies only with more elastic qualities specifically needed for proper golf club head/shaft adhesion, at about half the cost. A gel time of 20-30 minutes is intended for smaller jobs and/or when you simply need to expedite the curing process. Features a shear strength of 4500 psi and requires a 2:1 mix ratio.

Maximum Strength Tour Set Plus Epoxy 50 ml. Cartridge
A. VB1002   $12.49

Our best selling epoxy, Maximum Strength Tour Set Plus, with epoxy shafting beads inserted directly into the epoxy mix. The Maximum Strength Tour Set Plus Beaded Epoxy is recommended when the shaft to hosel fit is loose. The added beads keep the shaft centered in the hosel and actually create a cushion at impact.

Maximum Strength Tour Set Plus Beaded Epoxy 50 ml. Cartridge
B. VB1014   $12.49

Now with an installed 2:1 plunger, using premium industrial strength epoxy no longer requires the purchase of a 2:1 epoxy gun. The plunger in each 30ml cartridge is pre-assembled and sealed to ensure proper dispensing amounts. Simply remove the reusable cap from between the plungers and slowly force the plungers into the cartridge. Requires a 2:1 mix ratio-30ml cartridge with built in plunger.

Maximum Strength Tour Set Plus Epoxy 30 ml. Cartridge w/Plunger
C. VB1033   $11.49

GOLFWORKS® EPOXY CARTRIDGE GUN

The Professional Epoxy Cartridge Gun holds all GolfWorks 50 ml. cartridges, ensuring easy and consistent dispensing of all epoxy in accurate amounts. The added leverage of the gun makes dispensing small controlled amounts easy, and ensures even mixing. Durable construction.

Epoxy Gun w/1:1 & 2:1 Ratio Plunger
VB1005   $34.99

EPOXY DISPENSING TUBE OR CAULK GUN

The GolfWorks Epoxy Dispensing Tube works with any standard household caulking gun (not included) and along with the included (qty 4) epoxy static mixing sticks to properly mix and dispense 1:1 or 2:1 epoxy from a 50ml epoxy cartridge.

7oz. EPOXY GUN
The 7oz. Epoxy Gun is constructed from heavy duty steel and is designed for larger volume shops. The 7oz. gun can be used to dispense 1:1 or 2:1 ratios with 200ml epoxy cartridges such as The GolfWorks Tour Set (VB1027) and Maximum Strength Quick Set (VB1026) epoxies. The optional Static Mixing Tubes (VB1029) can also be used to dispense thoroughly mixed epoxy directly from the gun.

Epoxy Gun
VB1028   $39.99
7oz. Static Mixing Tube
VB1029   $1.99

FEATURES:
- Use with any standard household caulking gun
- Perfectly mixes and dispenses epoxy
- 4 50ml Static Mixing Tubes included (VB1021)
- Available in 2 options - 1:1 and 2:1 volume mixtures
GOLFWORKS® MULTI-PURPOSE
Tour Set EPOXY

Tour Set epoxy combines the strength of long-cure epoxies with the conveniences of shorter cure epoxies. Tour Set has a gel time of approximately 12 minutes, which allows for more clubs to be shafted (even a complete set) before gelling than with other quick set epoxies. Cures to playing strength in 60-90 minutes, depending on temperature. Available in 1.5 oz. (50 ml) syringe that provides a precise 1:1 mix and is re-sealable. Also available in 4 oz. squeeze bottles (makes 8 oz. of Epoxy) and 200 ml cartridges.

- Multi-Purpose Tour Set Epoxy 2000 ml. Cartridge
  - A. VB1027 $23.99

- Multi-Purpose Tour Set Epoxy 50 ml. Cartridge
  - B. PSSE $9.99

- Multi-Purpose Tour Set Epoxy 2-4 oz. Bottles
  - C. PS84 $15.99

GOLFWORKS® MULTI-PURPOSE
Tour Set Plus EPOXY

All the convenience and bonding strength of the standard Tour Set, but with a gel time of 25-35 minutes, allowing for more clubs to be done with one mix. Cures to playing strength in 60 to 90 minutes, depending on temperature.

- Multi-Purpose Tour Set Plus Black Epoxy 2-4 oz. Bottles
  - A. TSP4 $17.99

- Multi-Purpose Tour Set Plus Clear Epoxy 2-4 oz. Bottles
  - B. TSP4C $17.99

- Multi-Purpose Tour Set Plus Clear Epoxy 50 ml. Cartridge
  - C. TSPEC $10.49

- Multi-Purpose Tour Set Plus Black Epoxy 50 ml. Cartridge
  - D. TSPE $10.49

EPOXY CHART

NOTE: All estimated gel and cure times are based on a room temperature of 77°F.
EPOXY

FLEXCLEAN BOARD
These FlexClean boards are great for mixing epoxy. Once epoxy is cured simply flex the mixing board and the cured epoxy will pop right off of the non-stick surface allowing the FlexClean board to be used over and over again.

6" x 6" GW0052 $3.49
10" x 10" GW0055 $4.99

QUICK SET SHAFTING EPOXY
Quick set epoxy is perfect for that quick repair. High strength formula sets in 5 to 10 minutes. Bonds to metal, graphite and wood. Available in a 50 ml. cartridge or 3 job size packets.

50 ml. Cartridge GWSY 8.99
3 Job Size Packets w/Mixing Sticks VB1008 $4.79

HIGH-IMPACT SHAFTING EPOXY
High strength epoxy in a convenient single use pack – just enough to shaft one club. Each packet has A and B parts ready for mixing.

Single Use Packet SEPX $1.69
3 Job Size Packets w/Mixing Sticks VB1007 $4.99

EPOXY SPATULA
The specially designed, angled and flattened tip section is excellent for proper epoxy mixing. Epoxy always bonds better when applied to both surfaces prior to assembly, making this tool a necessity for the serious clubmaker.

GW0036 $3.99

6" EPOXY MIX & APPLICATOR STICKS
These durable 6" applicator sticks are ideal for mixing and applying epoxies. The width has been reduced to easily fit into club head hosels for proper epoxy coverage.

100 Pk. VB1010 $3.99

METRIC MIXING CUPS
Accurately mix two-part epoxies with these inexpensive, disposable measuring cups. Transparent so you can easily see that you mix thoroughly. Marked in ounces, tablespoons, grams and milliliters.

25 Pk. MC30 $1.99

www.golfworks.com OPEN 24/7
EPOXY-GON™

The Epoxy-Gon solvent is specially formulated to clean wet epoxy drips or smears from shafts, club heads or hands. Using the Epoxy-Gon solvent is the easiest way to clean the excess epoxy that accumulates on the hosel during assembly. The citrus scented formula is designed to be easy on your hands but tough on epoxy, paints, varnish, grease, oil, ink and adhesives. Available in a convenient pop-up container (50 pre-moistened wipes) and a 16 oz. spray bottle for application on your own paper towels.

Epoxy-Gon Wipes (50 Count) VB1015 $10.49
Epoxy-Gon Spray Bottle (16 oz.) VB1016 $7.49

GLASS SHAFTING BEADS

When assembling a golf club, these real Glass Shafting Beads can ensure that the golf shaft will be properly centered in the hosel. The 4 oz. jar provides enough shafting beads for use in hundreds of clubs.

4 oz. GW0043 $5.29

QUIK CENTER™

Eliminate off-center shaft assembly and ensure a proper epoxy bond with our Quik Center filler. The small beads, when mixed with epoxy ensure that the shaft is centered in an otherwise loose fitting hosel. Added metallic particles improve the strength of the bond too!

4 oz. QCSB $4.99

KIM WIPES™

These convenient all purpose wipes are lint free and perfect for cleaning epoxy from hosels and applying acetone to ferrules as well as many other uses.

Box of 280 Wipes GW0015 $4.99

LATEX GLOVES

Our factory craftsmen use these lightly dusted, latex gloves to protect their hands from epoxy, solvents, dust and dirt during club assembly and repair.

Box of 100 EG100 $16.99
FOR THE SHOP

INDUSTRIAL TWIN DISPLAY/CURING RACK

The Industrial Golf Club Curing rack on wheels is ideal for large assembly and fitting shops and is the perfect solution for carting clubs out of the way after assembly to allow the epoxy bond to cure without disturbance.

This portable rack accommodates 44 clubs of any type as the base of the rack can be adjusted for lie in seconds! The base of the display is covered with an alveolar foam that moulds around the club heads to prevent slippage and protect the golf clubs when moving the cart. The cart ships flat with all the accessories needed for self assembly.

FEATURES:
- Heavy Duty construction
- Twin display racks
- Height adjustable
- Base automatically adjust to the lie angle of the golf clubs
- Non-slip alveolar foam padding supports and protects club heads
- PVC coated club holders prevents scratches to golf shafts
- Swivelling coaster wheels with locking brakes
- 44 club capacity

GM1074  $209.99

COMPACT HIGH DENSITY CLUB RACK

Ideal for organizing clubs for both the shop or garage and is the perfect solution for carting clubs out of the way after assembly to allow the epoxy bond to cure without disturbance.

This portable rack accommodates 22 clubs of any type as the base of the rack can be adjusted for lie in seconds! The base of the display is covered with an alveolar foam that moulds around the club heads to prevent slippage and protect the golf clubs when moving the cart. The cart ships flat with all the accessories needed for self assembly.

FEATURES:
- Heavy Duty construction
- Swivelling coaster wheels with locking brakes
- 22 club capacity
- Non-slip alveolar foam padding supports and protects club heads

GM1073  $164.99

HEAD TO SHAFT DRYING CLIP

The Golf Mechanix Head to Shaft Drying Clip is used to keep spine aligned and logo aligned clubs together while the epoxy adhesive sets. Should the club be knocked over or picked up before the epoxy has cured it will still set as intended when using the Drying Clip.

FEATURES:
- Keeps logo/spine aligned to target
- Keeps loose shafts centered inside hosel
- Prevents gaps between ferrule & hosel

GM1035  $5.99

www.golfworks.com OPEN 24/7

TOLL FREE 1-800-848-8358
GOLF CLUB CURING/ DISPLAY RACK

The Golf Club Curing rack safely holds your clubs while epoxy cures, ensuring that the bond is strong and alignment is not compromised. It is also a great rack for displaying clubs in a shop or home.

GW1114 $64.99

GOLF CLUB CURING RACK

The Golf Club Curing Rack is a versatile tool that can be used to secure golf clubs after assembly to allow the epoxy to cure. The Curing Rack comes with 12 adjustable grommets that can also be spaced very close together to display golf shafts or assembled golf clubs.

GW0125 $18.99

BENCH MOUNT SHAFT HOLDERS

Keep clubs and shafts securely standing against your workbench, ready for the next step in the assembly and/or repair process. Available in two size options. The original shaft holder will hold 12 shafts while the XL version will hold 22 shafts. The shaft holders easily attach to the front or side of your workbench with 2 screws.

Original BMSH $19.99  XL BMSHXL $24.99

HANGING CLIPS NEW!

This hanging clip has been specifically designed for hanging several golf grips and golf clubs all on a single peg. Eliminates the need for golf club display racks and frees up display space for premium clubs. These clips are great for hanging irons, wedges, putters and junior clubs. The clips can be re-used any number of times saving cost in the process. The tags have a sticker holder for displaying a bar code/ retail price or your company’s logo.

(100 Pack) GM1104 $54.99

PROSOFT VIBRATION DAMPENING SHAFT INSERTS

Designed to dampen the impact vibrations in steel shafted golf clubs. The ProSoft inserts will not negatively affect swing weight and are easy to install using the ProSoft Installation Tool (PS5001).

- Reduces vibration at impact
- Reduces aches in wrist, shoulders and elbows
- Easy to install
- Will not negatively affect swingweight due to weight and installation position
- Light weight at 1.5 grams
- Proprietary dual density material specifically sized for use in golf shafts. Open cell interior for vibration dampening with a closed cell exterior to resist rust formation
- 10 Pack

10 Pack ProSoft Inserts Only PS5000 $4.90
10 Pack ProSoft Inserts & ProSoft Installation Tool PS5002 $22.99

PROSOFT INSTALLATION TOOL

The ProSoft Installation Tool was designed to easily insert the ProSoft vibration dampening inserts into any steel shafts. The ProSoft Installation tool sets each insert at the same depth ensuring the swingweight of the golf clubs will not be affected. A ProSoft beginners kit that includes 10 ProSoft inserts and the ProSoft Installation Tool is also available (PS5002)

ProSoft Installation Tool Only PS5001 $19.99
EXTENSIONS

PREMIUM GRAPHITE SHAFT EXTENSIONS
Available in 14 sizes. Can also be used to extend steel shafts and be safely extended at longer lengths than normal extensions (3” for ladies and senior shafts, 2½” for regular shafts and a maximum of 2” for stiff and x-stiff shafts.) Color coded for easy selection.

GW4000 $2.89

PREMIUM GRAPHITE EXTENSION COUNTER WEIGHTS
Counter weights designed to fit perfectly inside the Premium Graphite Extension allow precise custom swing weight and feel options to optimize performance after extending your golf clubs. Simply add a little epoxy and insert the weights into the extensions. Available in 4, 8, 12, 16, 20, 24, 28 and 32 gram options.

GW4002 $1.89

GRAPHITE SHAFT EXTENSIONS
The GolfWorks offers graphite extensions for standard or ultralite shafts. These 3” extensions are made of injection-molded graphite for strength and durability. Choose the extender that fits your shaft. Can be sanded to fit most graphite shafts.

Ultralite Graphite Shaft Extension (.600”) USE $1.99
Graphite Shaft Extension (.600”) GSE $1.99

UNIVERSAL EXTENSIONS
The Universal Shaft extensions will work with almost any steel or graphite shaft. After applying a little GolfWorks Extension Adhesive, insert the extension into a shaft, force the provided tapered plug into the extension until the extension expands to fit the ID of the golf shaft. It’s that simple.

Package of 3 GW1047 $7.99
Will compress to fit a .540” inside diameter (ID) and expand to fit up to a .590” inside diameter (ID).

GW4000G $7.50

PREMIUM EXTENSION GAUGE
This handy little tool takes all the guess work out of choosing the correct and most durable graphite or steel extension. Simply insert the Premium Extension Gauge into the butt end of the shaft needing an extension and match the color code with GW4000 extension series. Eliminates the need for excessive sanding or build up tape to fit those larger and smaller butt diameters that club makers are constantly encountering.

GW4000G $7.50
STEEL SHAFT BUTT EXTENSIONS
The GolfWorks Steel Shaft Butt Extensions can be used to extend the finished playing length of any steel shafted club. These 12" long steel butt extensions feature an 8 1/2" parallel mid section that can be cut in the middle to create two 4 1/4" extensions. Each section has a tapered end to perfectly fit inside the shaft being extended. Each extension has a 1 1/8" shaft insertion depth and is chrome plated to prevent rusting.

| .560" Butt Size | $56 | $2.59 |
| .580" Butt Size | $58 | $2.59 |
| .600" Butt Size | $60 | $2.59 |
| .620" Butt Size | $62 | $2.59 |

COUNTERBALANCED STEEL SHAFT EXTENSIONS
The Counterbalanced Steel Shaft Extensions feature a deeper penetration depth (3") vs. standard steel extensions to help keep swingweight increases at a minimum while extending golf clubs. The 12" long extensions are chrome plated for durability and have been swaged at both ends to allow each extension to be used in two different golf clubs. The 3" insertions depth also allows for greater surface coverage when using epoxy to secure the extension for a more secure fit.

( .580", .600" ) BB9087 $2.79

ALUMINUM SHAFT EXTENSIONS FOR STEEL SHAFTS
Re-designed to achieve a tighter size tolerance. Perfectly fit most steel shafts with a .600" butt diameter, but can be sanded to fit shafts with slightly smaller butt diameters if needed. Durable and the 3" length can be easily cut to finished length using The GolfWorks Mini Saw (GW1080).

.600" Butt Size GW0104 $1.49

GOLFWORKS® EXTENSION ADHESIVE
Designed specifically for securely fastening and sealing graphite, steel, aluminum and wood extensions into golf shafts. This adhesive is a very strong, quick setting formula and features a slightly thicker viscosity which cures less brittle than most standard golf club shafting epoxy. Sets up in approximately 5 minutes. Comes in an easy to use 30ml syringe.

DK50023 $6.99

6" MINI EXTENSION SAW
Great for cutting, wood, aluminum and graphite extensions!
- Reversible blade for back and forth cuts
- Comfort grip handle & sturdy tubular frame

6" Mini Extension Saw GW1080 $6.99
Replacement Blades GW1082 $1.25

GOLFWORKS®

GRI PLATE TAPE DISPENSERS

Available in single or double-sided grip tape dispenser options. Both dispensers conveniently wind the non-stick liner from the double-sided tape roll onto a spool for easy disposal. Includes a heavy duty base that is sturdy enough to be free standing, or can be attached to a workbench. Smooth pulling action and a saw tooth cutting blade make it quick and easy to dispense the exact amount of grip tape needed. The Double-Spool dispenser also features a spool for grip build-up tape.

Single-Spool Tape Dispenser
SX2TD $79.99

Double-Spool Tape Dispenser
GW1100 $129.99

GOLFWORKS®

PROFESSIONAL GRIP TAPE

Our industry standard grip tape has been designed specifically for installing slip-on golf grips. Our Professional Grip Tape is sticky on both sides and can be easily activated with any type of grip solvent. Choose from 18mm wide for spiral winding or 48mm wide, in both 36 yard and 18 yard length options. The same Professional Grip Tape is also available in easy to use 2” x 10” pre-cut strips.

18mm x 36 yd. Roll
DFTG1 $5.99 ea.

48mm x 36 yd. Roll
DFTG2 $11.49 ea.

48mm x 18 yd. Roll
DFTG218 $6.99 ea.

GOLFWORKS®

BUILD-UP TAPE

This single-coated tape is used for building up grip sizes. Each wrap adds about .010” thickness. Available 3/4” wide for spiral wrapping or 2” for use lengthwise.

3/4” x 60 yd. Roll
BU3 $1.49 ea.

2” x 60 yd. Roll
BU2 $3.69 ea.

GOLFWORKS®

FULL SIZE BUILD-UP GRIP TAPE

The GolfWorks full size paper build up tape features a full .015” increase for each layer used which is the exact increase needed for each increase in grip size. Easily applied and resists wrinkling even when multiple layers are applied. Each roll is 48mm x 55 yards.

GW1118 $8.49 ea.

GOLFWORKS®

PRE-CUT TAPE STRIPS

1.99 Strips - 2” x 10”
DFTG210 $0.35 ea.

100+ Strips
DFTG210 $0.25 ea.

Note: Tape adhesive is solvent activated

PLASTIC SQUEEZE BOTTLE

Handy, refillable bottle. Use for solvents, oils, thinners and most other liquids. 8 oz. capacity.

WATER ACTIVATED TAPE

The best water activated tape available. Slippery when wet and extremely tacky when it dries. It holds grip firmly in place under extreme temperatures, resisting twisting and slipping.

2” x 18 yd. Roll
WST18 $13.99 ea.

2” x 10” Strips
WST10 $0.49 ea.
GRIPPING

GRIP ESSENTIALS KIT

The ultimate gripping and regripping supply package — our Grip Essentials Kit. For one low price, you will receive seven gripping tools and supplies that make the job a snap.

INCLUDES:

- Double Sided Grip Tape
- Universal Grip Gauge
- Grip Solvent 1 Qt.
- Utility Knife w/Hook Blades
- Grip Installer Tool
- Grip Solvent 1 Qt.
- Rubber Gripping Clamp

SAVE OVER $24.00!

GW1212 $37.99

GOLFWORKS® GRIP SUPPLY KITS

Includes a Golf Grip Size Gauge, 8oz. Grip Solvent, 13 Pre-Cut Tape Strips and a Rubber Golf Shaft Clamp. The GOLFWORKS Grip Kit w/Reminder Ribs includes: Golf Grip Size Gauge, 8oz. Grip Solvent, 13 Pre-Cut Tape Strips, 13 Grip Ribs, Rib Alignment Plugs (2) and a Rubber Golf Shaft Clamp. Reminder Ribs improve consistency on hand placement. The ribs can be installed into any position on any type of golf grip. Golf grips not included.

Grip Kit Components

Reminder Ribs 30-pack Only

Grip Kit $8.00
Grip Kit + 13 Reminder Ribs $11.99
Reminder Ribs 30-pack Only $12.99

METAL-SIDED SHAFT CLAMP

Made of heavy gauge steel on the outside and vulcanized rubber on the inside, a must for every shop.

Note: Can be used with graphite shafts.

EMSC $8.99

DELUXE RUBBER CLAMPS

These redesigned 3½” Deluxe Rubber Clamps were specifically designed to safely secure the tip and butt sections of the golf shaft and are far superior to the traditional rubber shaft clamps of the past. Slotted edges prevent the clamps from slipping while in a vise and the thick and durable rubber compound helps prevent shaft damage.

“One size fit all” rubber shaft clamps are not effective for protection or efficiency. The Deluxe Rubber Clamps are easy to install and remove from the shaft and are available in both a large ID gripping clamp and a smaller ID tip clamp option.

Grip Clamp GW0141 $2.49
Tip Clamp GW0142 $2.49

DELUXE HEAVY-DUTY SHAFT CLAMP

Slightly firmer clamping material than the Metal Sided Shaft Clamp. Provides extra firm grip and offers long lasting durability.

Note: Can be used for graphite shafts.

DRSC $9.99

GOLFWORKS®
GRIPPING STATION

Save valuable time and improve consistency of your regrips with this well-designed Gripping Station. Built to last under high-volume production. Alignment bar indexes leading edge of right and left-handed woods and irons, ensuring proper alignment. Includes a solvent recovery pan and tape dispenser for one roll each of double-sided tape and build-up tape. Vise not included.

GGS $109.99

TRANSFORMER PORTABLE GRIPPING STAND

The "Transformer" portable gripping stand allows clubmakers of all skill levels to build their own "dream" gripping station using our large selection of compatible bolt-on gripping vises. Includes a handy shelf for holding grips and gripping supplies, solvent bottle and a 12 club rack with a non-slip foam ground pad.

GM1049 $229.99

FEATURES:
■ Portable and lightweight
■ Accepts all GolfWorks gripping vises
■ Pre-drilled holes accept GGS Gripping Station and all GolfWorks grip vises
■ Solvent bottle and grip supplies tray
■ 12 club holding rack with protective ground pad

GOLFWORKS® MICRO GRIPPING STATION STAND

The GolfWorks Micro Gripping Station Stand allows for professional gripping in a smaller footprint for clubmakers working in limited space. This portable Micro Gripping Station base features pre-drilled holes to be compatible with the GolfWorks’ Gripping Station (GGS shown above) and will also accept the GolfWorks Double-Spool Tape Dispenser (GW1100) for higher volume shops. Mix and match any combination of the GolfWorks clamps and tape dispensers to create a professional gripping station.

Micro Stand Only
GW0132 $219.99
Micro Stand with GGS Gripping Station
GW0132K $299.99

FEATURES:
■ Portable and lightweight
■ Solvent bottle and fold away bottle holder
■ Slip resistant diamond plate foot stand
■ Mounting bolts and hardware included.
■ Pre-drilled holes to accept GGS Gripping Station

GW0132
GW0132K
**GRIPPING**

**GOLFWORKS® MASTER GRIPPING STATION**

Integrated unit that allows you to grip and regrip clubs at one station, with everything you need close at hand. Add the optional Grip Rip for ultimate efficiency.

**Floor Mount**

MA2016 $459.99

**FEATURES:**

- Portable or Floor Mount Stands Available
- Adjustable Height - Six different adjustments
- Optional Grip Rip - Mounts at the base of the station
- Dual Tape Dispenser - Removes tape backing and also holds build-up tape
- Speed Clamp - eliminates the risk of damaging a graphite golf shaft by automatically adjusting to the golf shaft diameter.
- Rubber Coated Clamp - Safe for graphite shafts
- Solvent Recovery Pan - Includes shutoff valve to keep solvent in pan
- Solvent Bottle Holder - Fits Brampton Spray Bottle
- Tape Stripper - Stays in holder on unit
- Tape Stripping Anchor - Anchor point for butt end of shaft while stripping
- Utility Trays - Two removable trays to hold solvent and gripping supplies - lower tray holds gallon jug to recycle solvent

**PORTABLE GRIPPING STATION**

**Portable**

MA2015 $489.99

**PORTABLE FEATURES:**

- Non-Slip Stand - Foot stand channels spilled solvent away
- Adjustable Platform - Standing platform adjusts for reach

**GRIP RIP**

**Grip Rip (optional)**

GRP $109.99

**Grip Rip Replacement Blade (optional)**

RBLA $4.99
GOLF MECHANIX PROFESSIONAL GRIPPING STATION

The Golf Mechanix Professional Gripping Station was designed for high traffic retailers and golf club assembly production lines. This self-contained gripping station is packed with productivity features refined over two decades serving customers worldwide. This gripping station offers 50% more work space built into an ergonomically adjustable steel frame with a comfortable form factor where all the essential components are logically positioned and within arms reach. All the small hand tools needed for re-gripping are in the box including the golf club rack with the non-slip mat.

GM1029 $499.99

FEATURES:
- Re-grips all right handed and left handed clubs ranging in length from 32” - 46”
- Positive visual alignment of grip, shaft and club head to a reference grid
- Adjustable shaft clamp with V-thru rubber jaws to guide and protect shafts
- 2” double sided tape grip tape dispenser with geared backup tape pick up spool
- Generous side trays for grips, supplies and essential re-gripping tools
- Hook blade knife, tape remover and grip installer included in the kit
- Recycle and re-use solvent dispensing system
- Built in golf club rack with non-slip padded floor mat
- Provides up to 8” depth and 6” height adjustment
- Deep and broad solvent catch pan prevents spills

BENCH MOUNT PROFESSIONAL GRIPPING STATION

The Bench Mount Professional Gripping Station was conceived for the enthusiast and budding professional. This time proven value packed and well refined design offers all the functionality needed to grip and regrip golf clubs to a professional standard. Compact and requires minimal assembly. Includes a premium shaft clamp, solvent bottle, and loft and lie protractor.

GM1060 $220.00

FEATURES:
- Compact bench mounted design
- Heavy duty quick clamp is safe for all graphite and steel golf shafts
- Adjustable loft and lie base plate for easy face angle alignment
- Solvent bottle
- Adjustable grip alignment aid
- Solvent tray allows solvent to be reused and provides a clean working environment.

GOLFWORKS® PUTTER GRIP ALIGNMENT BOARD

Ensure putter grips are aligned properly. After installation, place the putter head flush against the magnetized rubber face brace. The bold horizontal alignment lines aid in aligning the flat side of any putter grip at a perfect 90° angle to the putter’s club face. The rubber face brace is angled at 3° to securely hold the putter head in place while the putter grip is adjusted. Works with all right or left-hand assembled putters.

GW0134 $24.99
TOOLS & SUPPLIES

**GRIPPING**

**UTILITY KNIFE**
A sensational package that handles all your cutting needs.

**INCLUDES:**
- A high-quality utility knife
- 5 straight blades
- 5 thin blades for precision cutting
- 5 hook blades for grip removal
- 5 dull tip blades, protect graphite shafts

Knife
GWUK $6.49
5 Straight Blades
GWUKRSB $2.19
5 Hook Blades
GWUKRHB $2.79

---

**GOLFWORKS® PREMIUM UTILITY KNIFE**
The GolfWorks Industrial Strength Utility Knife is a heavy duty ergonomically designed utility knife built to last through years of service. The Fast Change Blade option allows for blades to be changed with a quick twist of the blade locking switch eliminating the need to disassemble the knife to replace the blade. Each knife comes with an installed straight blade and 5 hook blades (GWUKRHB). The handle has an easily accessible compartment for storing extra blades.

GW0129 $12.99

---

**GRIP BORE CLEANER**
Clean tape and residue from inside the grip before reinstalling. Bristles are spiral wound steel fibers and effectively remove dried on tape or lumpy old tape residue. Another “must have” for the shop.

GBCT $9.99

---

**THE SUPER KNIFE**
This heavy duty knife is ideal for grip removal and other cleanup jobs. A “must have” for any shop! The 4” long x 1/4” wide carbon steel blade is riveted to the wood handle.

---

**RHINO RIP™ GRIP CUTTER**
The Rhino Rip will quickly remove rubber, cord, polymer and leather grips. Safe to use on steel and graphite clubs. Long-lasting blade will remove hundreds of grips. The Rhino Rip Bench Mount Tool mounts to any work bench and securely holds the grip in place during the removal process.

Rhino Rip Grip Cutter RR0001 $19.99
3 Pk. Replacement Blades RR0002 $9.99
Rhino Rip Bench Mount Tool RR0003 $4.99

---

**TAP STRIPPER**
Save time and energy when stripping grip tape off a shaft! The cutting end is curved to fit the shaft, cleanly stripping tape from graphite or steel shafts in just a few strokes. Ball handle for comfort. Can be resharpened.

---

**UNIVERSAL GRIP GAUGE**
Measures all three important gripping dimensions, grip size, shaft butt size, and grip size under the lower hand. This versatile gauge will measure shaft butt size and grip size on both men’s and ladies’ clubs, including undersized, standard and oversized. Easily measures right-hand and left-hand grip size. Full instructions included.

MAGG $12.99

---

**ULTIMATE GRIP INSTALLER TOOL**
The best tool for installing grips. Essential for installation on big butt shafts as well as conventional shafts, making grip installation much quicker.

BBGIT $9.99

PRESSURIZED GRIP REMOVER

This durable pump holds lots of solvent. Convenient cap for needles minimizes breakage. Five 18-gauge needles and extension hose are included.

Please Note: Our All-Purpose Grip Solvent works best with this tool. DO NOT USE perchlorethylene as it dissolves neoprene seals. To prevent damage to seals, store liquid in another container.

REPLACEMENT PARTS:
A. GSP $34.99
B. GSRK $9.99
C. HOSE $14.99
D. NECV $1.75
E. 1GSN5 $13.99
F. GW0100 $5.99

GOLFWORKS® AIR POWERED GRIP REMOVER/INSTALLER TOOL

The GolfWorks Air Powered Grip Remover/Installer Tool is a great alternative for removing old grips from golf shafts. The tool comes with a clear protective tube to prevent the grip from exploding during the removal process. Grips can also be installed at the manufacturers’ recommended grip size by applying one layer of masking tape to the shaft butt, eliminating the need for solvent. Recommended PSI 35 lbs.

GW0103 $44.99

V-GROOVE GRIP REMOVERS

Just pour some solvent in the V-Groove Grip Remover and slide it into place — a great way to save the grip for re-use! Now available in an expanded 20” length for easy removal of long and belly putter grips including Super Stroke and WinnPro X grips.

VGR $20.99
20” VGRXL $29.99
**Gripping**

**PRO LEVER-ACTION SHAFT HOLDER**
Quick and secure clamping during regripping. Features a unique clamp that holds the shaft on three sides. Pro Lever-Action designed to engage quickly. Includes rubber pads.

PASH $69.99

**GOLFWORKS® PREMIUM 5 1/2" SPEED CLAMP**
Quickly and safely secures any golf shaft. The Speed Clamp Ratchet Mechanism and the extended 5 1/2" grip pads require very little pressure eliminating any chance of damaging even the lightest golf shafts. The Premium Speed Clamp is machined from billet aircraft grade aluminum for durability and precision. The Premium Speed Clamp can be mounted in a vise or directly to a bench top or gripping station.

BB9073 $119.99

**GRIP LASERS**
Two universal grip alignment lasers powered by two industrial grade diodes produce a super bright trace that projects down the center line of the shaft to aid both grip alignment and club face alignment. The GM1108 Laser fits the GolfWorks GGS gripping station and the GW0051 Quick Shaft Clamp while the GM1109 fits the Golf Mechanix GM1060 and GM1029 Gripping Stations.

(Fits GW0051 & GGS) GM1108 $89.99
(Fits GM1060 & GM1029) GM1109 $89.99

**GOLFWORKS® SPEED CLAMP**
Unique clamping fixture instantly self adjusts to any shaft diameter size. Once the clamp comes in contact with the golf shaft, the gears lock into place creating a slip proof hold. Clamping pressure safely holds even the lightest of graphite golf shaft designs. Comes complete with hardware for bench mounting.

GW0111 $109.99

**GOLFWORKS® QUICK SHAFT CLAMP**
Safely clamps any golf shaft for gripping. Thumb knob quickly adjusts the clamp pressure for use with light weight graphite shafts. Comes with a vise mount, but can be attached directly to a workbench.

GW0051 $66.99

**MINI SHAFT VISE**
The Golf Mechanix Mini Shaft Vise is torque limited and well suited for working on super light weight shafts which can be easily crushed when too much pressure is applied. The knob is calibrated for 10lb of torque.

GM1041 $13.99
Tools & Supplies

**Solvent Catch Basin**
Mount directly onto your workbench to catch excess solvent. Plastic hose drains solvent back into container for re-use.

**Multi-Purpose Jaw Set**
A complete set of hold-tight jaws that will secure the shaft no matter what clubmaking or repair task you are performing. Set includes:

1. **Lock-Tite Shaft Remover**
   Ideal for removing steel shafts from woods and irons. Constant 4" clamp pressure holds the shaft in place.

2. **Steel Shaft Dimpler**
   Dimpling is the preferred method for creating a solid bond between a steel shaft and a clubhead. This dimple attachment allows you to do the job in just seconds!

3. **Rubber Vise Pads**
   These soft pads are ideal for shaft tip abrasion or other graphite shaft assembly or repair tasks. Will hold the shaft in a horizontal or vertical position without marring.

4. **Gripping Pads**
   Soft pads to protect the shaft, yet their 4" length grips the club firmly, allowing you to quickly and easily remove an old grip and install a new one.

**Universal Vise Only**

**Universal Clubmaker’s Vise System**
Includes:
- UCMV Universal Vise $109.99
- UCMVEX Vise Extension $49.99
- UCMVJWS Set of Jaws (4) $59.99
- UCMVGSR Graph. Shaft Extractor $84.99
- UCMVG Solvent Catch Pan $14.99
- UCMVSJ Standard Jaws (included)

Universal Clubmaker’s Vise System

**Vise Extension**
Optional base allows vise to be extended 12" from workbench! Great for gripping and extending your workspace. Allows you to work "around" your vise!

**Shaft Extractor**
Accommodates all shaft sizes. Secure the shaft between the Shaft Extractor pads with the hosel positioned in the appropriate holder. Attach the ratchet to the other side, apply heat and glide the head off the shaft tip! A constant 4" of clamp pressure prevents slippage.

**Universal Clubmaker’s Vise System**

**Universal Vise Only**

**Universal Clubmaker’s Vise System**

**Vise Extension**

**Shaft Extractor**

**SOLVENT CATCH BASIN**
Mount directly onto your workbench to catch excess solvent. Plastic hose drains solvent back into container for re-use.

**Multi-Purpose Jaw Set**

**Universal Vise Only**

**Universal Clubmaker’s Vise System**
SWINGWEIGHTING

PROFESSIONAL DIGITAL SWINGWEIGHT SCALE
The Auditor Digital Swing Weight Scale is accurate, affordable and easy-to-use. Based on the industry standard 14” fulcrum, this scale measures swingweights from A through G in 0.1 SW increments. Also measures assembled club total weight, shafts and grips to a precision of 0.1 gram. Displayed values can be converted at the touch of a button from grams to ounces, kilograms to pounds and swing weights to moments. The Auditor is easily recalibrated and requires very little maintenance.

GM1048 $349.99

SUREBONDER PRO 100 HOT MELT KIT
Hot Melt is the ideal method for increasing head weight on drivers, fairway woods and hybrids. Improves the sound of oversized drivers and eliminates rattles. A strong bond will remain tacky after application — it will not crack or fracture inside the club head due to vibrations.

Included: Surebonder Pro 100 glue gun, two golf club weight hot melt cartridges with 3” nozzles for easy insertion down longer hosels and 20 Metal Wood Hosel Bore Plugs.

Pro 100 Hot Melt Kit with Hot Melt Cartridges (2)
HA1003 $99.99
Hot Melt Adhesive Cartridge
HA1001 $19.99
Replacement Hot Melt Adhesive Cartridge Gun
HA1002 $19.99

GM1014 $109.99

USE IT FOR:
- Swing weight scales of all types
- Digital shaft deflection boards
- Shaft Frequency analyzers
- MOI scales

stdcalbk.png

The Golf Mechanix Clubmaker’s Calibration Stick - Encompassing all the calibration standards a clubmaker needs to keep instruments in top condition. This unique standard provides base measurements for mass, frequency, moment of inertia, length and spring rate! Each component used to produce this Standard is precision machined, carefully inspected and hand assembled. Each calibration Standard is individually numbered and issued with an Auditor calibration certificate for reference.

GM1014 $109.99

USE IT FOR:
- Swing weight scales of all types
- Digital shaft deflection boards
- Shaft Frequency analyzers
- MOI scales

GM1014 $109.99

STANDARD CALIBRATION STICK

The Auditor Digital Swing Weight Scale is accurate, affordable and easy-to-use. Based on the industry standard 14” fulcrum, this scale measures swingweights from A through G in 0.1 SW increments. Also measures assembled club total weight, shafts and grips to a precision of 0.1 gram. Displayed values can be converted at the touch of a button from grams to ounces, kilograms to pounds and swing weights to moments. The Auditor is easily recalibrated and requires very little maintenance.

GM1048 $349.99

The Golf Mechanix Clubmaker’s Calibration Stick - Encompassing all the calibration standards a clubmaker needs to keep instruments in top condition. This unique standard provides base measurements for mass, frequency, moment of inertia, length and spring rate! Each component used to produce this Standard is precision machined, carefully inspected and hand assembled. Each calibration Standard is individually numbered and issued with an Auditor calibration certificate for reference.

GM1014 $109.99

USE IT FOR:
- Swing weight scales of all types
- Digital shaft deflection boards
- Shaft Frequency analyzers
- MOI scales

GM1014 $109.99

STANDARD CALIBRATION STICK
GOLFWORKS®
GOLF CLUB SCALE

Measure Swingweight, Club Weight, Or Component Weight

The “Industry Standard” golf club scale designed by Ralph Maltby. This Golf Club Scale measures swingweights using the industry standard 14” fulcrum principle which provides direct swingweight readings (C8, D2, etc.). Scale markings are large, easy to read, and are printed on both sides of the scale, so readings can be taken from either side. By placing any club in the resting cradle, this scale also measures total club weight. The Golf Club Scale grip cradle height has been expanded to accept modern jumbo sized putter grips. Permanently mounted parts tray measures the weight of individual components. Weights can be read in grams and ounces. The Scale has a bubble-level indicator and adjustable feet to ensure accurate readings no matter what surface it’s on. A modern protective finish completes the professional quality of this unit. Each scale is precision machined, assembled by hand, calibrated in our factory, and then shipped to you in a specially designed, protective carton. A calibration plate certifies the accuracy of each scale. When you purchase The GolfWorks Golf Club Scale, you are buying a precision instrument that will reward you with a lifetime of use.

FEATURES:
■ 14” fulcrum scale
■ Weigh clubs or components in grams or ounces
■ Hand calibrated and registered

Golf Club Scale  SWRM  $199.99
Grip Tray (optional)  SWRMGT  $14.99

VALUE LINE GOLF CLUB SCALE

The Value Line Scale is an economical but accurate swingweight scale. Large and easy to read print located on both sides of the scale display all swingweight and total weight measurements. A shaft cradle allows for quick measurement of total weight in both grams and ounces. A revised grip cradle will now accept modern oversized putter grips of any size.

MEASURES:
■ Golf Club Total weight
■ Golf Club Swingweight

NESC  $89.99

ECONOMY SWINGWEIGHT SCALE

Measures swingweight quickly and accurately. Scale rests on workbench and balances on its curved surface. Sliding weight indicates measurement. Easy to use and stow away when you are done! A great choice for low to medium volume work.

VSWC  $54.99
**SWINGWEIGHTING**

### BRASS PLUGS
These are the same tip weights used by major manufacturers. Simply slide into the shaft tip, verify final swingweight and epoxy the shaft into position. Reusable.

RUBBER TUNGSTEN SWINGWEIGHT TAPE

The GolfWorks Rubber Tungsten Swingweight Tape eliminates the need for excessive amounts of lead foil tape. Each 1/2" x 1/4" Rubber Tungsten weight chip is equivalent to 4" of standard lead foil tape. The flexible Rubber Tungsten Tape will securely adhere and form to curved and painted surfaces. The Rubber Tungsten Tape is soft and will enhance sound and feel due to the vibration dampening qualities of the rubber compound. The special adhesive used on the back of the tape is strong enough to keep the tape chips in place during regular play.

20 grams | GW0054 | $4.99

- High Density – Each ½” square is equivalent to 1 swingweight point (2gm)
- Equivalent in weight to 4’’ of standard lead foil tape
- Flexible
- Vibration/sound dampening qualities
- Re-usable

SWINGWEIGHT CORKS

To increase swingweight, add lead or tungsten powder down a steel shaft. Apply a small film of epoxy to the cork and force down the shaft with a ram rod to secure. Available in 25 packs.

Irons | $1.99
Woods | $1.99

UNIVERSAL COUNTER-BALANCING SYSTEM

Butt Weight Insert Tubes featuring external fluted ribs to fit into any golf shaft butt diameter for counter-balancing and or precision swingweighting. These Insert Tubes can accept up to 70 grams of weighted powder or up to 5 pcs of the fitted 6 gram lead weights.

Insert Tubes (3 Pack) | GW0113 | $3.49
6 Gram Lead Weights (12 Pack) | GW0114 | $3.99

**WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

GRIP SAVER

This handy little tool allows you to remove a rattle in a shaft or place lead and a cork down the shaft of a club without damaging the grip.

SAVER | $14.99

TOLL FREE 1-800-848-8358

www.golfworks.com OPEN 24/7
The GolfWorks Iron/Hybrid Bending Machine will quickly and accurately bend any iron and also safely bend hybrid models with at least a 3/4" length hosel. The addition of the hybrid attachment makes the already “industry standard” bending machine a must have for all Professional Clubmakers.

**Maltby Design Iron/Hybrid Bending Machine MA2017 $699.99**

**Features:**
- Smooth sliding Protractor Assembly measures right or left-handed clubs for loft and lie within 0.5°
- Unique Shaft Guide assures shaft is in the proper position when recording loft and lie readings
- Brass Soling Discs securely clamps any iron, right or left-handed
- Brass clamping Top Jaw secures the head without marring the iron’s finish and prevents slippage
- Brass Toe Stop helps prevent slippage
- Heavy duty T-Bar Bolt moves smoothly for quick, secure tightening of heads
- Hybrid Rubber Top Jaw Attachment installs quickly for easy bending of most hybrids
- Short Hosel Bending Bar included (GW1036)
- Adjustable, Non-Mar Brass Bending Bar included (BNMB)
- Short Hosel Hybrid Bending Bar included
- Can be bench mounted or floor mounted
- Complete instructions included
- Recommended: Heavy Duty Long Hosel Bending Bar (GW1077 $44.99) – not included

**Bending Bars**

- **Brass Non-Marring Bending Bar (Included)**
  - A. BNMB $94.99
- **Short Hosel Bending Bar (Included)**
  - B. GW1036 $39.99

**Forged Iron Clamping Kit For Maltby® Bending Machines**

This non-marring clamping kit includes a nylon top clamp and two nylon soling discs that can be quickly added to the Standard and Digital Bending Machines: MA2017, MA2026, GM1037, GM1067 & GM1036. The nylon pads and soling disc are ideal to help eliminate clamping marks on forged iron heads constructed of soft carbon steel.

**GW0122 $29.99**

**GolfWorks® Iron Bending Protective Tape**

Protective Tape protects the top line and face finish from marring during the bending process. The tape is pre-cut into a shape to fit all type of irons and wedges. The tape is clear so that the scoring lines remain visible for alignment. Made from very durable pressure sensitive material, one piece of protective tape can be reused multiple times. The special adhesive backing remains tacky after multiple uses but will not leave any residue remaining on the club head.

**GW0140 $12.99**

**Features:**
- 20 pre-cut pieces of tape
- Fits most irons and wedges
- Protects top line and face finish
- A must have for bending new irons and wedges to prevent marring
- Clear material for easy alignment in bending clamp
- Remains tacky after multiple uses
AUDITOR INTEGRA DIGITAL LOFT AND LIE BENDING GAUGE

When it comes down to accuracy, reliability and versatility, nothing comes close to the Auditor Integra Lie & Loft Digital Bending Gauge! Built from the ground up using tried and true Isostatic Frame Geometry and using an all steel construction to provide strength and durability, this professional gauge is designed to give clubmakers a lifetime of service.

At the heart of the Integra lies our Auditor PI digital engine, driving automotive grade shock proof optical encoders with a resolution of 0.1°, providing unmatched accuracy to the most demanding clubfitter or professional golfer.

New to this edition; Clips that hold the shaft snug against the protractor so that the lie and loft are measured simultaneously while the iron is being bent. This provides instant feedback about how far the hosel has moved, which makes compensating for hosel spring back a progressive and controlled process.

FEATURES:
- Isostatic fixed frame geometry with an all steel construction
- Bends RH & LH irons and hybrids including oversized ones
- Full set & non-marring clamps, soling sheaves and pads
- USB data Collection port & data collection software included
- Large selection of optional accessories
- Large high contrast blue LCD matrix display
- Padded back clamp with split nut for quick advance
- Fully integrated easy to service/repair/replace Digital module
- Built Calibration locators with redundant back-up lie & loft scale
- Universal voltage 110/220V and off the grid C cell battery pack

PORTABLE HEAVY DUTY BENDING STAND

A heavy-duty, lightweight portable bending stand designed to fit all GolfWorks and GolfMechanix lie and loft bending gauges.

Unlike other stands which are designed using a single tubular pillar, this design features a wide stance base which eliminates wobbles and provides a strong, rigid structure to work from. This free standing unit can be moved around the workshop as needed. The design allows the clubmaker to leverage the bending effort by standing on the platform.

GM1045 $229.99

HEAVY DUTY FLOOR MOUNT STAND

A heavy-duty, lightweight, yet compact bending stand designed to be used with all GolfWorks and GolfMechanix loft and lie bending gauges.

Unlike other stands, which are designed using a single tubular pillar, this design features a wide stance base. This eliminates wobbles and provides a strong, rigid structure that greatly enhances the bending process by allowing a progressive force to be applied to the clubhead hosel.

This compact heavy duty bending stand requires that it be secured to a concrete floor using anchor bolts (supplied).

GM1019 $199.99

HEAVY DUTY BENCH TOP 360 SWIVEL BASE

This Heavy Duty swivel base lets clubmakers gain complete control over the position of a bending machine, instead of working around it! Improves accuracy, adds control, saves time and eliminates fatigue when having to work through a whole set of irons. Quickly switches between left & right-handed clubs. The swivel base can be mounted onto a free standing bending machine stand or onto a stable workbench top. Heavy gauge steel construction and fitted with two quill lock handles. Ships with bolts, nuts and backing washers. Compatible with all GolfWorks and Golf Mechanix bending gauges.

GM1066 $149.99

**BENDING**

**VALUE LINE GOLF CLUB MACHINE**

This Value Line Golf Club Machine bends the loft and lie angles of irons and putters. The robust clamping mechanism fits many irons, and with the included Putter Leveling Block, many putters can fit both right and left-handed clubs.

**Golf Club Machine**
- **VAM** $149.99
- **Putter Leveling Block** (included)
  - **PBLP** $29.99
- **Brass Hosel Protectors** (optional)
  - **BHP** $1.99 pair

**Features:**
- Bending bar included (GW1036)
- Vise mounted
- Putter Leveling Block included
- Optional Brass Hosel Protector (BHP)

**ECONOMY IRON BENDING MACHINE**

The Economy Iron Bending Machine allows the clubmaker to easily bend and measure the loft and lie of an iron without having to remove the clubhead from the clamp. The sliding Protractor Assembly measures both right and left-hand irons. Bench mount design does not require an expensive bending machine stand.

**Economy Iron Bending Machine**
- **GW0053** $339.99

**Features:**
- Sliding Protractor Assembly
- Brass Toe Stop
- Bending Bar (GW1036) (included)
- Complete instructions (included)
- Brass Soling Discs

**GOLFWORKS® BENDING BARS**

**A. ULTIMATE**
- 27/8” length, weighs over 4/5 lbs. for max. leverage. Adjustable brass jaws will not damage soft carbon steel heads. Features a knurled handle for secure gripping.
- **GW0119** $149.99

**B. PUTTER HOSEL**
- Provides maximum leverage on putters with longer hosels.
- **GW1058** $39.99

**C. BRASS NON-MARRING**
- Reduce chance of marring, even the softest hosel material.
- **BNMB** $94.99

**D. DOUBLE BEND PUTTER**
- Designed specifically for bending straight or bent putter shafts.
- **MDBB** $39.99

**E. HEAVY DUTY DOUBLE ENDED**
- 65° and for flattening lie angles and a 12° angle for bending upright lie angles. Available with short and long hosel knuckles.
  - **Short** GW1076 $64.99
  - **Standard** GW1087 $64.99

**F. SHORT HOSEL**
- 24° length for more leverage when bending stainless steel short hosel irons and hybrids. 45° knuckle angle.
- **GW1036** $39.99

**G. HEAVY DUTY LONG HOSEL**
- Provides maximum leverage on clubs with std. to longer hosels. 45° knuckle angle.
- **GW1077** $44.99

GOLFWORKS® PUTTER BENDING MACHINE

The GolfWorks Putter Bending Machine was designed with the professional clubmaker in mind. The machine needs no disassembly or special attachments to safely clamp, bend and measure any right or left-hand putter head.

**MA2012 $629.99**

**FEATURES:**
- Easily bends, clamps and measures right- and left-hand putters
- Heavy duty, CNC milled components
- Traditional blade designs and modern oversized high MOI putters are equally easy to securely clamp, bend and measure
- Smooth sliding protractor quickly and accurately measures the loft and lie angles of all putters
- Putter Hosel Bending Bar included (GW1058)
- Double Bend Bar included (MDBB)
- Bench Mount Stand included (MA2013)
- Recommended: Brass, Non-Marring Bending Bar (BNMB $94.99) — not included
- Can be bench or floor mounted

![Bench Mount Stand (Included) MA2013](image)

**COMPACT PUTTER BENDING MACHINE**

This Putter Bending Gauge was designed for retail shops and clubmakers who wish to set up a fast turnaround putter fitting system, where ease-of-use, speed, and accuracy are all important. Bending bar sold separately.

**GM1000 $299.99**

**FEATURES:**
- Works with offset, single or double bend shafts
- Measures loft and lie to a resolution of 0.1 degree
- One step calibration with built-in reference locator
- Bench or floor mounted with GM104S stand
- Stores up to 20 measurements on non-volatile memory
- Works with heel or center shafted putters
- USB data transfer mode with SPC data collection software

**EVOLUTION II DIGITAL PUTTER LOFT & LIE BENDING GAUGE**

The Evolution II Digital Putter Bending Gauge mirrors the ease of use, functionality and dependability that made our bending gauges the preferred choice of professional club makers and fitters worldwide.

**GM1056 $1,049.99**

**FEATURES:**
- Works with straight and mallet putter designs
- Measures as you bend shaft to protractor coupling
- Protractors designed with digital black box redundancy
- Self leveling, slip proof, non-marring clamping system
- Stores up to 20 measurements on non-volatile memory
- USB data transfer mode with SPC data collection software

The Complete Book Of Golf Club Fitting & Performance

THE PRINCIPLES, PROCEDURES AND PLAYABILITY FACTORS

Learn the latest in golf club research. All aspects of: putters & putter fitting, wedges & wedge fitting, drivers & driver fitting. Section 10 is devoted to the needs of women, senior golfers and junior golfers. Appendix 2 is all about golf ball fitting and how to find the right golf ball for your game. Throughout the book, there are charts, fitting score cards and other fill-in forms that help analyze a golfer’s game. There are 5 categories of golf clubs that we need to look at individually since we use them differently. The book explains the specific performance factors of each of these categories.

My Life In Golf
by Ralph Maltby

Ralph Maltby’s tenure (more than 50 years) in the golf business has left its mark on the industry. This new book, “My Life in Golf”, has information about the historical evolution of golf equipment and the golf industry itself. The chronology of this book proceeds from the question most often asked, “How did Ralph get into the golf business”, to highlights from his years at Spalding, Faultless Sports to founding his own company, The Golfworks. During Ralph’s long career he had many situations that turned into interesting stories, many of which he shares in this wonderful book. Through these stories and the technical information that comes from a lifetime of experience studying golf equipment, this book provides the tools to think more precisely and independently when evaluating your equipment. Hopefully, besides being a fun read, the information in Ralph Maltby’s “My Life in Golf” will help you play better golf by understanding your equipment, and enabling you to answer the question “Is it me or my equipment” when things don’t go so well.

HOSELINE CENTER-LINE FINDERS

Accurately measure offset face progression, and hosel centerline-to-face dimensions, all important measurements in determining Playability. All modern tip sizes included. Works in all the Golf Club Gauges we sell! Includes a convenient stand with sizes labeled.

HCCL $59.99

GOLFWORKS® GOLF CLUB GAUGE

Measures Five Different Specs!

The GolfWorks Golf Club Gauge precisely measures lofts, lies, face progression, offset, face angle, head length, head width and head height dimensions on any woods. Also measures lofts, lies, offsets, blade height and blade width on irons and putters. The base and upright arm are precision milled and the shaft clamping fixture is made of soft, non-marring aluminum. All measuring lines are engraved into the unit. Includes 6” scale and a golf club protractor.

GW1040 $349.99
Optional Swivel Base SLB $74.99

DIGITAL CALIPERS

Digital Calipers with large LED display makes measuring bore depths, hosel diameters, face heights, and shaft tip and butt diameters quick and easy.

GDC $34.99

GOLFMechanix Clubmaker’s Loft & Lie Gauge

Built with an eye for simplicity and refined for over two decades, this gauge is rugged, precise and easy to use. It offers great value to clubmakers who need to measure clubhead specifications to a high degree of accuracy on virtually any conforming driver, hybrid, iron, wedge or putter.

- Height adjustable face angle slider & alignment apron
- Etched Aluminium hosel offset & face progression scale
- Suitable for conforming right & left handed clubs
- Wear resistant guides
- CNC machined and zinc plated frame
- Large scale loft angle protractor with 0.5° resolution
- Vernier protractor measures lie angle with 0.5° resolution

GM1002 $419.99

MAGNETIC PROTRACTOR

Easily measure loft and lie of clubs in the playing position. Works with any measuring machine. Accurate to half a degree with a large 4” dial for easy reading. Loft and lie specifications printed on the back.

PRO $14.99

VALUE LINE GOLF CLUB GAUGE

The Value Line Gauge accurately measures all important wood, iron and putter specifications. Comes completely assembled and includes a machinists’ 6” scale, a golf club protractor, hex key wrenches and a complete instruction booklet. Measures right and left-handed club heads.

HCG $154.99

GOLFWorkS® Golf Club Gauge

Measures Five Different Specs!

The GolfWorks Golf Club Gauge precisely measures lofts, lies, face progression, offset, face angle, head length, head width and head height dimensions on any woods. Also measures lofts, lies, offsets, blade height and blade width on irons and putters. The base and upright arm are precision milled and the shaft clamping fixture is made of soft, non-marring aluminum. All measuring lines are engraved into the unit. Includes 6” scale and a golf club protractor.

GW1040 $349.99
Optional Swivel Base SLB $74.99
MALTBY® LIE FITTING BOARD

The Maltby Professional Lie Fitting Board is constructed of heavy duty, clear Lexan for strength and durability. Alignment lines are protected by polycarbonate lamination. All edges have been machined for safety and the ball position is located at the center of the oversized board to eliminate any chance of striking the edge of the board. Oversized dimensions: 14" wide by 23 3/4" in length.

MA3011 $59.99

GOLFWORKS® LIE FITTING BOARD

Check the angle of a clubhead at impact. This special hard plastic surface makes a temporary mark on the sole to show if your club is too upright or flat. Measures 8" x 11", 3/16" thick.

MLAT $12.99

CLUB HEAD PROTECTION TAPE

This clear protective tape is the perfect solution for protecting the finish on any golf club from sky marks and impact blemishes. Also doubles as impact recording tape during fitting and practice sessions. Available in 3 sizes:

- 2" x 18 yd. - Iron & Hybrid GW2015 $7.49
- 3" x 18 yd. - Fairway GW2016 $10.99
- 4" x 18 yd. - Driver GW2017 $14.49

IMPACT MARKING DECALS

Knowing exactly where the ball contacts the face of the club during impact can eliminate many unknowns in dynamic fitting. The GolfWorks impact marking decals are now offered in oversized iron and wood sizes as well as in rolls for high volume shops.

GW103 $19.99
20 pack - Edge Protect Driver Impact GW1084 $4.99
12 pack - Oversized Iron Decals GW1041 $3.99
Roll of 200 Oversized Iron Decals GW1042 $29.99
12 pack - Oversized Driver Decals GW1042 $3.99
Roll of 200 - Oversized Driver Decals GW1043 $29.99
39 pack - Lie Angle Decals GW1043P $1.99
Roll of 600 - Lie Angle Decals GW1043 $29.99
21 pack - Putter Decals IMDP $4.99
STAMPING TABLE KIT
The Stamping Table Kit provides all the tools needed to professionally stamp names numbers or designs into irons, wedges and putters. The Stamping Block includes a heavy duty 4” x 4” x 1.5” mild carbon steel stamping block and a full 36 piece alphabet and numerical set of hardened steel metal stamps. A very durable Lexan protective sheet has been added to the mild carbon steel block for enhanced protection to the club heads during the stamping process. A 4lb hammer (MS005H) is available for stamping stainless steel club heads.

GOLFWORKS® REGROOVING TOOL
Clean and restore dirty or worn scoring lines with The GolfWorks Regrooving Tools. Cutting tips are hardened and machine milled to fit both pre-2010 and 2010+ groove dimensions. A replacement blade is now available to update the GW1111 Re-grooving Tool.

PUTTER BUTTER
Golf Club Protector! Developed specifically to protect, restore irons, and repel moisture on wedge and putter heads. Easily applied with the included 11” x 12” fiber polishing cloth. Will not leave a film or oil residue after drying. Protects all types of finishes.

FACE LINE PAINT
A high-quality paint that applies easily with its own brush-in-cap. So quick and convenient it will save time and money. Specify color. Available in 4 oz. cans
Face Line Black FLBK $4.99
Face Line White FLPW $4.99
Face Line Red FLPR $4.99

BENCH & FLOOR COVERING
This polyvinyl coined material provides better cushioning against scratches and dents to wood and iron heads than a table top. Available in 24” x 96” roll or in custom sizes.
Standard 2’ x 8’ Sizes GW1008 $44.99
Per Square Ft Custom Sizes GW1000F $3.99

PAINTFILL BOTTLES
1 oz. bottle dispenses small amounts of paint through a needle tip into engraving. Paint not included.

### Golf Club Repair

- **3 Day** $395.00
- **FEB** 5-7
- **MAY** 13-15
- **JUN** 17-19
- **JUL** 15-17
- **AUG** 12-14
- **OCT** 7-9
- **NOV** 11-13

**FITTING**
- Launch Monitor demonstration
- How golf club performance is affected
- Loft, Lie and club length
- Swingweight and total weight
- Shaft flex, materials, designs and patterns
- Grip size, materials, models
- Set make-up

**ASSEMBLY**
- Using assembly equipment
- How to speed turn ferrules
- How to size and install a grip
- Achieving proper swingweights
- Expert “tricks of the trade”
- How to install a shaft

**REPAIR**
- Short-cuts, timesavers and solutions
- Removing and installing grips
- Ferrule finishing
- Adjusting loft and lie
- Reshafting irons and metal woods
- How to shorten/extend a club

Your tuition includes instructional books, videos to keep, and a computerized fitting evaluation. You will also receive a $100 merchandise credit allowing you to purchase the necessary components of your choice to assemble your own club(s).

### Golf Club Repair

- **2 Day** $99.00
- **APR** 2-3
- **JUL** 30-31
- **OCT** 29-30

This class will teach you the necessary skills to handle virtually any repair.

**SHAFTING**
- Reshaft irons, hybrids and metal woods
- Reshafting bore through metal woods
- Installing shaft extensions
- Removing broken steel and graphite shafts

**GRIPPING**
- Removing and installing grips

**ADJUSTMENTS**
- Adjusting loft and lie

**FINISHING**
- Ferrule finishing

GOLF BALLS

Maxfli® TOUR & TOUR X
The Maxfli Tour and Tour X Golf Balls feature a patented Center of Gravity Balanced technology. Each golf ball’s moment of inertia is aligned in the optimal direction and boldly marked on each golf ball. Aligning this line towards your target results in reduced side spin for longer distances and tighter shot dispersion.

■ MAXFLI TOUR FEATURES
3-piece construction – Large and soft inner core, ionomer mantle with cast urethane cover.
Available in Gloss Yellow, Gloss White, Matte White and Matte Green
Softer feel | Mid trajectory | High short game spin
1 Dozen Tour MXB0021 $34.99

■ MAXFLI TOUR X FEATURES
4-piece construction – Soft inner core, firm outer core, ionomer mantle with cast urethane cover.
Available in Gloss White and Matte White finish options
Soft feel | Mid-High trajectory | High short game spin
1 Dozen Tour X MXB0022 $34.99

Maxfli® SOFTFLI
Stick scoring shots closer to the pin with SoftFlI Golf Balls. Maxfli’s softest golf ball features a 35 compression rating and delivers a blend of soft feel and greenside control. The soft ionomer blend cover outfitted with a 374 large and small dimple pattern further promotes soft feel while generating more consistent flight for all swing speeds. Available in Gloss White and Matte White, Matte Orange, Matte Blue, Matte Green and Matte Pink.

Gloss Finish MXB0018 $19.99
Matte Finish MXB0019 $19.99

Maxfli® STRAIGHTFLI
Maxfli’s straightest golf ball featuring a unique Find the Fairway dimple pattern that utilizes large and small dimples stacked and packed patterns to reduce lift and increase accuracy. Straighter dispersion equates to longer distances off the tee and into the greens. Soft ionomer cover enhances greenside spin for more feel and control. Available in Gloss White, Matte White, Matte Green and Matte Orange.

1 Dozen MXB0020 $19.99

Maxfli® REVOLUTION
The NEW and IMPROVED Revolution golf balls feature a bold putter alignment bar. A high C.O.R. core to maximize distance and a dual radius dimple design to optimize the initial launch angle. Available in a firm Distance option and a softer Control ball option for more greenside control.

1 Dozen Distance MXB0023 $19.99
1 Dozen Control MXB0024 $19.99
Top-Flite® D2+ FEEL

Get ready to go long with the Top Flite D2+ Feel golf balls by maximizing distance with increased ball speeds. Make every hole a long drive hole and leave the lay-ups behind. You play Top Flite, and Top Flite provides maximum distance off the tee.

- TOP FLITE D2+ FEEL FEATURES
  - Advanced distance technology Dimple in Dimple™ Aerodynamics
  - Designed for maximum speed with a soft feel
  - Softer cover for incredible feel and greenside control
  - 2 piece design with larger core for softer ball compression and softer cover
  - Available in White and Hi-Vis Yellow
  - Conforms to USGA regulations

15 Pack TFB0021 $15.99 $13.99

Top-Flite® GAMER TOUR URETHANE

Achieve player-preferred playability from tee to green with Top-Flite Gamer Urethane Golf Balls. The urethane cover features Dimple in Dimple Aerodynamics to optimize lift and distance on long shots, while unlocking superior spin control on greenside shots. A DuPont® HPF™ mantle layer positioned between the core and cover reduces long game spin for accuracy. The higher-energy core construction enables optimum compression for next-level performance.

1 Dozen TFB0029 $24.99 $14.99

Top-Flite® XL DISTANCE

Leave the lay-ups behind and step up to long distance. With three decades of experience in maximizing distance and durability, the Top-Flite XL Distance is designed to make your game big and your shots soar. Available in Gloss White and Yellow.

15 Pack TFB0030 $13.99

Top-Flite® LADY

Designed to provide maximum distance for slower swing speeds! A larger core and softer compression maintains ball speeds for increased distance. Exceptional feel and higher launch angle produced by the soft 332 dimple outer ball layer. Available in Gloss and Matte color options.

1 Dozen TFB0031 $14.99
Cleats & Tees

Pride PTS Hard Wood Golf Tees

Since 1950, Pride Golf Tees have been the No. 1 manufacturer of golf tees in the world! Made of 100% solid hardwood, every Pride Golf Tee is engineered and designed to provide maximum performance and durability. Professional Tee System (PTS) is a proprietary system of color coded golf tees that allow for easy identification of length and appropriateness for various golf clubs. Available in White and Natural.

1½” 90 count PS0114 $4.99
2½” 120 count PS0009 $5.99
2¼” 100 count PS0010 $5.99
2¼” 175 count PS0013 $6.99

Pride PTS Evolution Tees

Aerodynamically designed for longer drives!
The Evolution is a very durable plastic tee engineered with special low-resistance tips that create less friction between the golf ball and tee – resulting in longer drives! These tees are virtually unbreakable and feature the Pride Sports PTS color system for selecting tee heights. White:
1½” 30 count PS0102 $5.99
2¼” 30 count PS0019 $6.99
3¼” 30 count PS0020 $6.99

Softspikes Pulsar

Features 8 flexible legs with green-friendly pads to ensure proper footing and comfort. The insert system allows for quick and easy removal and insertion.
Pulsar Fast Twist 3.0
PS0004 $12.99
Pulsar Pins
PS0005 $12.99

Softspikes Golf Ball Alignment Tool

Only tool that marks both sides of the ball. Features the Putter Squareness Line for keeping the putter face square through impact, and the Swing Path Reminder Line to help promote a proper swing path.
PS0026 $3.99

Softspikes Stealth Pins

The SoftSpikes Stealth Cleats are offered exclusively in the PINS insert system. The low profile design allows golfers to feel closer to the ground and harness their highest level of balance and stability. Multi-material cleats with advanced rotational design to counteract the forces seen during impact.
Pins PS0111 $12.99

Softspikes Cleat Kaddy

The perfect tool to remove and install all plastic golf cleats. Provides torque needed to remove the most worn cleats. Power bit and cleat ripper bit stored in the handle.
PS0006 $7.99

Pins PS0264 $6.99

Pins PS0264 $6.99

Pins PS0264 $6.99

Pins PS0264 $6.99

Pins PS0264 $6.99
Maxfli® COTTON TOWEL

Keep your golf clubs clean and dry with the Maxfli® Cotton Towel. This golf towel is designed to quickly absorb any moisture or dirt from your clubs. These 16" x 24" towels are the perfect addition to your golf accessories. Available in Black, Navy and Grey.

- Black Towel
  MX146 $9.99
- Navy Towel
  MX147 $9.99
- Grey Towel
  MX148 $9.99

Maxfli® GROOVER BRUSH

Clean grooves are the key to maximizing your approach shots - keep your club faces spotless with the Maxfli® Groover Brush. Quickly brush away dirt, sand, grass and other debris to enhance your on-course or practice performance. Extend the life of your clubs and keep them looking like new.

- Blk/Grey MX143 $16.99

Softspikes MINI BRUSH

The Softspikes Mini Brush is a very durable and long lasting brush that is lightweight and not much bigger than the size of a U.S. quarter. Its diminutive size doesn’t affect the brush’s usefulness and is always within reach!

- 3-Pack PS0263 $9.99 NEW!

Maxfli® SCORE CADDY NEW!

Keep a close eye on your round by tracking performance with the Maxfli® Score Caddy. Constructed of durable plastic material, this compact device comfortably fits into your hand and tracks strokes taken, holes played and total score. A heavy duty clip reliably secures the device to your belt or golf bag, allowing you to effortlessly keep tabs on your round.

- FEATURES
  Heavy-duty clip secures device to golf bag or belt
  Compact design comfortably fits into your hand
  Device measures 3" x 1½"

- MX367 $5.99

Maxfli® PUTTER CLIP

Keep your putter close at hand during play when you use the Maxfli® Putter Clip. This accessory easily attaches to the top of your golf bag and conveniently holds your putter in between play.

- FEATURES
  Clips onto your golf bag for added convenience
  Keeps larger putter grips from getting stuck inside your golf bag
  Eliminates dings and finish damage to your putter from other clubs in your bag
  Padded clips hold putter without damage to shaft

- MX370 $5.99

Maxfli® COLLAPSIBLE ALIGNMENT STICKS

Designed to improve alignment, swing path, and aim with clubs ranging from the driver to putter, these sticks act as visual guides when aiming and swinging the club. The segmented construction allows golfers to easily fold the sticks and store them in the golf bag.

- Maxfli® Collapsible Alignment Sticks are made of durable fiberglass.
- 2 Pack MX236 $14.99

Maxfli® WARM UP WEIGHT

As you begin your long day at the course, make sure to warm up with the Maxfli® Warm Up Weight.

- MX120 $5.99

### Practice

#### MAXFLI Deluxe Shag Bag
- Stop straining your back collecting practice golf balls at home with the MAXFLI Deluxe Shag Bag. Featuring a molded handle and long retrieval tube for easy handling.
- **Features**
  - Molded handle for easy maneuvering
  - Long retrieval tube keeps bending and twisting to a minimum
  - Storage compartment has a full-length zipper for easy golf ball removal
- **Model** MX145
- **Price** $29.99

#### Golf Ball Shagging Tube
- For a fast and efficient way to gather golf balls after practice, utilize the light weight MAXFLI Golf Ball Shagging Tube. Quick release mechanism releases balls. Holds 21 golf balls.
- **Model** MX211
- **Price** $14.99

#### MAXFLI Dual Turf Height Hitting Mat
- Practice those tough lies from the rough and the easy shots from the fairway with the MAXFLI Dual Turf Hitting Mat. This dual material mat has thicker, heavier turf so you can perfect digging out a shot from the rough. The imitation Bermuda grass material mimics a fairway so you can fine tune your approach shots.
- **Features**
  - Regulation sized cup
  - Extra long 9’ putting green
  - Gravity fed ball return
- **Model** MX484
- **Price** $39.99

#### TRU-TRAK Putting Mat
- The TRU-TRAK Putting Mat is a full 9’ in length and features marked practice distances and path to enhance your vision towards the putting line for advanced training.
- The putting mat includes a regulation size cup and gravity fed ball return.
- **Model** GW5003
- **Price** $44.99

#### MAXFLI Dual Turf Height Putting Tutor
- The Dave Pelz Putting Tutor is your all-in-one tool to putting better. This unique design, trusted by Tour professionals, shows you how to put on the proper line, improves green reading, squares the putter face to your aim line, and enhances your mechanics.
- **Features**
  - Teaches you how to put on the proper line
  - Improves your green reading skills
  - Squares the putter face to the aim line
  - Does not include Pelz O-ball
- **Model** DP4007
- **Price** $49.99

#### Bunker Board
- Dave Pelz bunker board, transforms almost any outdoor space into your own private practice bunker. Learn exactly how good sand shots look and feel, so you can repeat them from any bunker situation. The bunker board is designed with a concave hitting surface that helps golfers learn to swing through sand shots without the “digging” or “deceleration” that cause poor results from sand. Reinforces the proper motion and “feel through impact” for well-played sand shots.
- **Features**
  - Learn to swing through sand shots without the “digging” or “deceleration” that cause poor results from sand
  - Transforms almost any outdoor space into your own private bunker
  - Great for all skill levels
- **Model** DP4001
- **Price** $49.99

#### Truth Board
- Mastering the 3’ putt leads to greater success with putts of all distances
- **Features**
  - 3 skill settings (Standard, Pro & Super Pro)
  - Make short putts the strength of your game
  - Develop and groove short stroke mechanics
- **Model** DP4011
- **Price** $79.99

#### Short Game Position Mat
- Perfect your wedge game with Dave Pelz’s Short Game Position Mat. Designed to practice hitting balls from the ideal positioning. Provides specific foot and ball positions for 3 different short game shots: wedge, chipping and sand.
- **Features**
  - Builds a pre-shot routine
  - Practice at home or in your backyard
  - Perfect address positions for wedge, chipping, and sand shots
- **Model** DP4002
- **Price** $99.99

#### Short Game Wedge Mat
- The Dave Pelz Short Game wedge mat is here to improve your wedge game and make you a better golfer. Two realistic turf conditions allow you to play out of multiple lies while you practice. This unique design helps improve your swing mechanics through impact and helps perfect loft and trajectory.
- **Features**
  - Features two realistic turf conditions to train multiple types of shots
  - Easily transports so you can practice anywhere, any time
- **Model** DP4001
- **Price** $49.99

#### Putting Tutor
- The Dave Pelz Putting Tutor is your all-in-one tool to putting better. This unique design, trusted by Tour professionals, shows you how to put on the proper line, improves green reading, squares the putter face to your aim line, and enhances your mechanics.
- **Features**
  - Teaches you how to put on the proper line
  - Improves your green reading skills
  - Squares the putter face to the aim line
  - Does not include Pelz O-ball
- **Model** DP4007
- **Price** $49.99

Fairway dial tag with 3, 4, 5, 7 and X options
Hybrid dial tag with 3H, 4H, 5H, 6H and XH options

MALTBY Stealth HEADCOVERS

Made from neoprene, lycra and synthetic leather for a sleek, attractive look and the ultimate in club head protection. The full length sock stretches easily over any size club. Universal Dial Number Tags are attached to the fairway and hybrid covers for easy identification.

Driver Slip-On MA0234 $14.99
Fairway Slip-On MA0235 $13.99
Hybrid Slip-On MA0236 $13.99

MALTBY Putter HEADCOVERS

Heavy padded covers fit and protect all Maltby branded putter heads. Made from synthetic leather.

A. Blade Putter MA0210 $7.99
B. OS Mallet Putter MA0211 $6.99
C. Pure Track Mallet MA0237 $8.99
D. Moment X Putter MA0297 $9.99
E. Moment X Tour Putter MA0299 $9.99
F. Moment XI & XII Putter MA0302HC $9.99

Pride Sports NEOPRENE IRON HEADCOVERS

Set of 9. Fit both right- and left-hand standard or oversized iron heads. Includes protective covers numbered 3-PW, SW.

PS0101 $11.99

**DETAILS**

- Finish: Dark Grey Metallic/Black PVD
- Face/Sole Material: ISO-Thermal Forged 6-4 Ti
- Crown Material: ISO-Thermal Forged 311 Ti
- Volume: 455cc
- Face Length: 4.894" on RH driver
- Hosel ID: .335"
- Hosel OD: .490"
- Hosel Length: 2.847"
- Bore Depth: 1.250"

**FEATURES**

- Manufactured using the most advanced material forging process available.
- Isothermal forging of Titanium eliminates variations that can occur in temperature during manufacturing (that can negatively affect the mechanical properties of the titanium), resulting in a more consistent high performance part.
- By maintaining the consistency of the mechanical properties and grain structure of the titanium over the entire head, performance is enhanced through more precise control of the wall thickness in all areas of the design.
- Features VFT (Variable Face Thickness) in a cup-face design that optimizes ball speeds over the entire surface of the face.
- Sole weight (8 grams) positioned to optimize spin with each trajectory option.
- Overall shape and 455cc head volume designed to appeal to all types of players.
- Weight can be adjusted using 12 or 4 gram ISO-T Oversized weights (page 150) or 2, 4, 6, 10, 12, 14 gram T-25 Torx head weights.
- Headcovers Available – see page 195. Recommended ferrule – 60PW
- Additional Club PAKS available online at www.golfworks.com.

- Face Height: 2.00°
- Face Bulge: ±1°
- RH/LH: Open
- Weight: 10° (N) 59° (N)
- Shaft: 200° 12° x 12° RH

DETAILS
- Finish: Matte Black
- Face Material: Forged 6-4 Titanium
- Body Material: Cast 8-1-1 Titanium
- Volume: 450 cc
- Face Length: 4.812"
- Hosel ID: .335"
- Hosel OD: .550"
- Hosel Length: 2.750"
- Bore Depth: 1.185"
- Loft Adjustability: 9° to 11°
- Lie Adjustability: 59° to 61°

FEATURES
- Precision Cast Beta Titanium 8-1-1 body provides superior strength and flexibility.
- A 6-4 Titanium Variable Face Thickness (VFT) face delivers faster ball speeds on off center hits as well as center hits.
- Adjustable CNC milled aluminum hosel features 8 different settings for fine tuning ball flight trajectory and dispersion (see chart at right).
- Aerodynamic head profile features a Speed Fin crown design to stabilize the head during the down swing, producing increased club head speed and more consistent impacts.
- 8 gram weight in the sole positioned back and deep into the club head helps produce a higher launching, low spinning trajectory.
- Additional weights for customization available: 2, 4, 6, 10, 12 or 14 gram options (MTW001 - Natural Finish and MTW002 - Matte Black Finish)
- Maltby T-25 Torx wrench included (MA0309W)
- Additional KE4 TC Adaptors available - MA0309A $17.99

■ DETAILS

Finish: Black Matte PVD
Face Material: 455 HS Steel
Body Material: 17-4 Stainless Steel
Face Length: 3.232”
Hosel ID: .335”
Hosel OD: .480”
Hosel Length: 2.198”
Bore Depth: 1.350”

■ FEATURES

High speed 455 Carpenter steel face to provide increased ball speeds from any impact position on the club face.
The body is precision cast from 17-4 stainless steel using Advanced Shell Technology (AST) to insure proper mass distribution for optimum performance.
Features a traditionally classic “pear” shape and modern crown slope from the front to the back that saves discretionary weight for improved playability.
An interchangeable stainless steel weight is positioned rearward and deep into the clubhead to produce precise launch angles and spin.
Advanced Shell Technology (AST) combined with rearward and deep positioning of the center of gravity results in an extremely stable, high MOI fairway design.
Stock sole weights: #3-10gm, #4-8gm and #5-6gm.
Additional T-25 Torx Head weights are available in chrome or black (MTW001, MTW002) for fine tuning swingweight.
Headcovers Available – see page 195. Recommended ferrule – 60PW
Additional Club PAKS available online at www.golfworks.com.

  - Lie: 56.5°, 59.5°, 60.5° ±1°
  - Wt: 228, 234, 240 g ±3g
  - Face Height: 1350° ±14°
  - Roll: RH/LH

- **DETAILS**
  - Finish: Satin Black PVD
  - Face Material: 455 HSS
  - Body Material: 17-4 Stainless Steel
  - Face Length: 3.226"
  - Hosel ID: 0.370"
  - Hosel OD: 0.535"
  - Hosel Length: 2.175"
  - Bore Depth: 1.250"

- **FEATURES**
  - Very thin 2.4mm HSS 455 face material for increased ball speeds.
  - Progressive center of gravity location for consistent launch angles from club to club.
  - Scalloped crown design for optimized cg location.
  - "MG" (Multi-Groove) Technology improves consistency and spin by allowing more groove edges to contact the golf ball.
  - Advanced Shell Technology insures proper mass distribution for optimum performance.
  - Interchangeable 4 gram weight allows for multiple playing lengths and shaft weights.
  - Excellent sound and feel.
  - Cosmetically improved T-25 screw head compatible with Triangle Wrench and Triangle Weight Screws – see page 150.
  - Headcovers Available – see page 195.

**DETAILS**

- Finish: Satin Chrome
- Face Material: 4140 Chromoly Steel
- Body Material: 8620 Carbon Steel
- Face Length: 3.230"
- Hosel ID: .370"
- Hosel OD: .531"
- Hosel Length: 2.090"
- Bore Depth: 1.250"

**FEATURES**

- Updated version of the very popular KE4 HDI Driving Irons, providing players with a Super Playable Forged Driving Iron (FDI) type hybrid option.
- New materials provide improved feel, better adjustability and improved performance.
- Body is form forged from 8620 carbon steel, providing great feel and adjustability.
- 4140 Chromoly Steel forged face provides increased wear resistance and improved strength, resulting in faster ball speeds off the face for increased distance.
- Features a hollow construction design with AST (Advanced Shell Technology), to insure mass and dimensional stability.
- High MOI provides forgiveness and the wide sole design is very turf forgiving.
- Designed to produce a more penetrating ball flight than traditional hybrids.
- Comes with a 8 gram weight installed. 2, 4, 6, 8, 10, 12 and 14 gram weights are available – see page 150.
- Recommended ferrule – 60PI

DETAILS

- Finish: Mirror/Satin Black PVD
- Face/Sole Material: Forged 6-4 Titanium
- Crown Material: Gr-4 Titanium
- Volume: 460cc
- Face Length: 4.550”
- Hosel ID: .335”
- Hosel OD: .490”
- Hosel Length: 2.687”
- Bore Depth: 1.250”

FEATURES

- Oversized 460cc 4-piece precision forged design.
- Variable Face Thickness (VFT) club face design to maximize ball speeds from any impact location on the clubface.
- Extremely solid sound and feel.
- Aerodynamic head profile features a Speed Fin crown design to stabilize the head during the downswing for increased club head thrust and more consistent impacts.
- 8 gram T-25 tungsten weight positioned back and towards the heel for high launching, low spinning drives.
- Draw bias weight position to help correct a slice and improve shot dispersion.
- Additional T-25 weights for customization available in 2, 4, 6, 10, 12 or 14 gram options. (MTW001 – Natural Finish and MTW002 Matte Black Finish).
- Available in RH 10° and 12° and 10° in LH.

**DETAILS**

- **Finish**: Mirror/Satin Black PVD
- **Face Material**: 17-4 Stainless Steel
- **Body Material**: 17-4 Stainless Steel
- **Face Length**: 3.278"
- **Hosel ID**: 0.370"
- **Hosel OD**: 0.531"
- **Hosel Length**: 2.213"
- **Bore Depth**: 1.250"

**FEATURES**

- Precision cast from 17-4 SS and featuring a flexible high strength 0.8mm crown and a VFT (Variable Face Thickness 2.5mm - 2.2mm) club face design to maximize ball speeds from any impact location on the clubface.

- Variable sole thickness - an internal flex channel 1.3mm thick next to the club face to increase shell flexibility for increased ball speeds. Progressing from the center of the sole to the back of the sole, the sole thickness increases to a constant 4.2mm thickness lowering the center of gravity for improved playability.

- Speed Fin crown design stabilizes the head during down swing for increased club head thrust and more consistent impacts.

- 8 gram T25 tungsten weight positioned back and towards the heel creates a lower center of gravity to produce high launching penetrating shots. Draw bias weight position aids in correcting a slice and improves shot dispersion.

- Additional T25 weights for customization available in 2, 4, 6, 10, 12 or 14 gram options. (MTW001 - Natural Finish and MTW002 Matte Black Finish).

- Available in RH and LH.

**IRON HEAD ONLY**

**FEATURES**

- Precision cast from 431 Stainless Steel for a soft “forged” like feel and easy adjustability.
- Variable Face Thickness (VFT) design.
- Progressive offset enhances the playability of each club in the set. Longer irons have increased offset (3.5mm) to help square the face at impact progressing down to 2.5mm offset in the scoring clubs for improved alignment.
- Optimal bounce angles and sole widths help reduce fat shots without negatively affecting the playability.
- “MG” (Multi-Groove) Technology places more grooves on the face for improved consistency in trajectory and spin.
- Undercut cavity design places more weight to the rear and perimeter of the club head for high launching shots with increased directional control.
- Silica Gel vibration reducing plug inside the undercut cavity absorbs shock on off-center hits in the #4 thru #7 irons producing extremely solid sound and feel.

DETAILS

- Finish: Satin Polished Chrome
- Material: 1025C Carbon Steel
- Blade Length: 3.161"
- Toe Height: 2.193"
- Heel Height: 1.045"
- Hosel Length: 2.220"
- Hosel OD: 0.520"
- Sole Width: 0.755"
- Bore Depth: 1.375"
- C.O.G.: 0.750"
- M.O.I.: 11.7651 oz-in²

FEATURES

- 3-piece true forged blade in the 3 thru 9 irons manufactured from 1025C Carbon steel using the most advanced 5 step forging process available.
- Forged 1025C carbon steel face and body with internal tungsten weighting in the toe (3 thru 9 iron) ensures horizontal center of gravity location is positioned in the center of the clubface.
- Injected polymer (3-9 irons) designed to produce exceptional sound and feel.
- Thin, forged face designed to increase ball speeds for greater distance.
- “MG” (Multi-Groove) Technology places more grooves on the face for improved consistency in trajectory and spin.
- Modern tour leading edge grind and 4 way radius sole, combined with graduated sole angles (bounce) provide optimal turf interaction.
- Modern lofts, combined with optimal vertical center of gravity locations, optimizes trajectory and distance.
- Universal hosel accepts both .370" parallel tip and .355" taper tip iron shafts.
- Conforms to the rules of golf. Recommended ferrule – MA0300
- Additional Club PAKS available online at www.golfworks.com.

**DETAILS**

- Finish: Satin Polished Chrome
- Material: 1025C Carbon Steel
- Blade Length: 3.226"
- Toe Height: 2.270"
- Heel Height: 972"
- Hosel Length: 2.100"
- Hosel OD: 520"
- Sole Width: 781"
- Bore Depth: 1.355"
- C.O.G.: 796"
- M.O.I.: 12.4697 oz-in²

**FEATURES**

- True Forged from 1025C Carbon Steel using the most advanced forging process available.
- Hollow polymer injection filled 3-pc. construction in the 4-9 irons.
- Forged 1025C Carbon face and body with internal tungsten toe weighting in 4-9 irons to ensure the horizontal center of gravity location is positioned in the center of the club face.
- CNC milled face ensures face flatness for more consistency.
- “MG” (Multi-Groove) Technology places more grooves on the face for improved consistency in trajectory and spin.
- Progressive offsets square face at impact & improve alignment.
- Progressive sole angle (bounce), modern tour leading edge grind and 4 way radius sole provides the optimum turf interaction from a variety of turf conditions.
- Modern lofts, combined with the optimal vertical center of gravity locations, optimizes trajectory and distance.
- Conforms to the rules of golf. Recommended ferrule – MA0300
- Additional Club PAKS available online at www.golfworks.com.

DETAILS

Finish: Diamonized Black Metal
Material: 8620 Carbon Steel
Blade Length: 3.170"
Toe Height: 2.202"
Heel Height: 1.202"
Hosel Length: 2.187"
Hosel OD: 0.513"
C.O.G.: 0.750"
M.O.I.: 12.1744 oz-in²

FEATURES

Form Forged from soft 8620 Carbon Steel in Pearl Chrome or Diamonized Black Metal.

The Progressive Tour Muscle is designed to place more weight in the toe of the long irons, increasing stability & forgiveness, and progressing back to a neutral weight distribution on the short irons, producing the trajectory and feel desired.

Progressive offset enhances the playability of each club in the set.

Progressive sole angle (bounce), modern tour leading edge grind and 4 way radius sole provides the optimum turf interaction from a variety of turf conditions.

“MG” (Multi-Groove) Technology places more grooves on the face for improved consistency in trajectory and spin.

Modern lofts, combined with the vertical cg location, optimizes trajectory and distance.

Universal hosel accepts both .370” parallel tip and .355” taper tip shafts.

The perfect club for players wanting a more traditional look at address, but needing the benefits of a Super Game Improvement design.

Conforms to the rules of golf.

Recommended ferrule – MA0300

■ TE FEATURES

5-step true forging process.
Traditional blade profile and easy adjustability.
A very forgiving “players” club.
Blended leading and trailing edges will not snag.
Universal hosel bore.
Conforms to the rules of golf.
Recommended ferrule – 74PI
Club PAKS available online at www.golfworks.com.

■ DBM FEATURES

5-step true forging process provides unparalleled quality & feel.
Cavity back design concentrates weight around the perimeter and low,
yielding a very forgiving “players” club.
“DBM” Diamonized Black Metal finish increases surface hardness without
affecting the feel and adjustability aspects of the 1035 carbon steel.
“MG6” (Multi-Groove) Technology places more grooves on the face for improved
consistency in trajectory and spin.
Conforms to the rules of golf.
Recommended ferrule – 60PI
Club PAKS available online at www.golfworks.com.

KE4 S FEATURES

Best Selling, Ultra Game Improvement, cavity back design provides a high level of playability to all player types. Extremely low center of gravity produces solid shots for a variety of swing types, especially those players with a sweeping type swing. Aluminum and polymer cavity medallion provides shock dampening at impact. 2-4 gram weights installed. 2, 4, 6, 8, 10, 12 & 14 gram weights available. Page 150. Conforms to the rules of golf. Recommended ferrule – 52PI Club PAKS available online at www.golfworks.com.

KE4 TOU+ FEATURES

Less offset, progressing from the #4 to the PW. Toe weight position optimizes center of gravity for feel & forgiveness. Undercut cavity provides added stability. Loft and lie adjustable. 6 gram weight installed. 2, 4, 6, 8, 10, 12 & 14 gram weights available. Page 150. Conforms to the rules of golf. Recommended ferrule – 74PI Club PAKS available online at www.golfworks.com.

■ FEATURES

- True Forged from 1025C Carbon Steel.
- Forged from a 5 step forging process for unparalleled consistency producing extremely tight spec tolerances.
- CNC milled face ensures face flatness for more consistency.
- CNC milled Micro Grooves allow for more grooves on the hitting surface than traditional wedges to increases backspin on less than full shots for more control.
- Full relief sole grind inspired by a 2 time major winner on the PGA tour allows maximum face angle manipulation for a full array of golf shots from the fairway and around the green.
- Nickel Chrome satin polished finish.
- Available in 6 loft options – 50, 52, 54, 56, 58 and 60 degrees.
- Universal hosel allows for .355” taper and .370” parallel shafts.
- Bendable for loft and lie +/- 2 degrees.

■ FEATURES

Modern “Players” wedge design in a slightly oversized profile. Unique Tour Grind sole designed for versatility on the scoring shots from a variety of turf conditions. Variable mass distribution between the 52°, 56° and 60° wedges designed to provide the trajectory and distance control needed for high level performance in the scoring clubs. CNC Milled face ensures face flatness for added control and consistency. “MG” (Multi-Groove) Technology optimizes spin and control on shots around the green. Universal hosel bore accepts .370” parallel tip & .355” taper tip shafts. The perfect choice for players seeking versatility and forgiveness in their wedges. The FGT Series of Wedges match well with the PTM Forged Irons to provide a highly playable set that appeals to a wide range of player types. Conforms to the rules of golf. Recommended ferrule - 70PI Additional Club PAKS available online at www.golfworks.com.

Material ............... 1025c Carbon Steel
Blade Length ....... 3.149”
Sole Width ........... Tour-0.900”/Mid-1.050”/Wide-1.200”
Toe Height ........... 2.506”
Heel Height .......... 1.010”
Hosel Length ........ 3.000”
Hosel OD .......... 0.531”
Bore Depth ......... 1.375”

■ FEATURES

Optimum Mass Placement Technology (OMP), places more mass toward the toe for improved feel and better results.
Form forged from 1025c Carbon Steel for exceptional feel.
Available in 3 distinct sole width options: (Tour, Mid and Wide).
12 different loft, bounce and sole width combinations to enhance performance.
CNC Milled face ensures face flatness for added control and consistency. Micro grooves add multi-groove technology to increase spin on less than full shots.
DBM finish is more resistant to wear, corrosion and scratches than any other protective finish including nickel chrome.
Conforms to the rules of golf.
Recommended ferrule – 70PI

CHIP 36° 70° 345 Square .370° 3° RH

■ DETAILS
Finish..........................Satin Polish/Black
Material.......................17-4 Stainless Steel
Face Length ......................3.398"
Face  Height ......................1.380"
Face Angle .......................Square
Hosel Depth ......................1.250"

■ FEATURES
Proven Trouble-Out Bounce Sole design eliminates fat shots from all turf conditions and is ideal for chipping out of moderate to shallow sand bunkers.

Zero bulge and roll face design for more accurate chipping around the green vs. a traditional hybrid club.

Head weight of 345 grams is perfect for 35” to 36” playing lengths to consistently improve both distance and accuracy.

36° loft angle is ideal for chip and run shots from around the greens and also allows for higher and softer chips when needed.

Lie angle of 70° is similar to most putters, positioning your eyes directly over the golf ball, allowing either a normal chipping motion or a putter stroke to be used to dramatically increase accuracy.

Recommended ferrule – 60PI

Mallet: 3° — 374 5.325° 90° RH/LH

DETAILS

Finish: Matte Grey Anodized

Body Material: 6061-T6 Aluminum

Weight Material: 303 Stainless Steel

Body Milling: 100%

M.O.I.: 9334 g cm²/51.033 oz in²

FEATURES

Modern oversized 3.8" x 5.3" x 1" version of the original. Extremly high moment of inertia (MOI - 9334g cm²) resulting in one of the most forgiving and accurate putter heads ever designed. The combination of the 6061-T6 aluminum and the two 53 gram stainless steel weights provides an incredible feel at impact and an increase in both distance and accuracy control.

Bold Ball-In-Motion (BIM) Alignment.

Recommended shaft - (RH-AP0007) and (LH-TT1003P).

Headcover included (MA0297).

Available in right-hand and left-hand options.
